The Jewish Trinity Yoel Natan, 2003 Conventional wisdom states that the Hebrew Scriptures only hint that there are persons of Yahveh This book shows that Moses and other Bible writers wrote strikingly and often both about the Trinity and the deity of the Messiah The Old Testament is as explicit about the Trinity and the deity of the Messiah as is the New Testament The reader of this book will come to know the Trinitarianism in the Hebrew Scriptures that Yahvists knew The reader of this book will come to read the Bible the same way the inspired writers intended it to be read as Trinitarian

The Memoirs of God Mark S. Survive Vivienne Heath, 2024-10-15 One of the gifts of Survive is its pace reminiscent of the altered rhythm of our lives during the pandemic The frenetic chase for more and faster was temporarily arrested and we slowed down globally It forced us home not only geographically but internally to ourselves and if we didn t simply adjust our addictions we grew through the pain that inevitably touched every life in some way during COVID We savoured connections and conversations We remembered the gift of physical touch and the uplifting power of an unmasked smile We languished together joined as one all of humanity endeavouring to survive our equivalent of the Great

War or WWII This story is about four ordinary South African women who like you survived those crazy days and months that dared become years Hedy Melody Bethany and Mercia forged unlikely friendships that helped them recognise and respond to the invitations of Jesus in that season It turned out there was priceless treasure embedded in the trash there almost always is

The Magnification of the Trinity T. Hoogsteen, 2025-05-19 Since the creation of the Christian Scriptures contrary interpretations of the Trinity entered into the history of the church for instance tritheism modalism and Origen's Greek mythological Jesus explanation now firmly lodged in the Great Tradition Athanasius Augustine and John Calvin also professed adherence to this Great Tradition In the late twentieth century to bring relevance to the basic biblical doctrine Karl Barth Karl Rahner Paul Tillich Wolfhart Pannenberg Jurgen Moltmann and John Zizioulas birthed trinitarian teachings that saw the light of day and died The Magnification of the Trinity beginning in Genesis and continuing through Revelation presents the basic biblical teaching on which all other doctrines depend To Him All Glory then simply and profoundly concentrates on the thrust of the Scriptures *The Irish Ecclesiastical Record*, 1900 **Names of God and Other Bible Studies** Rose

Yihong Duan, Qingqing Li, Guanghua Chen, Hui Yu, Da-Lin Zhang, Kun Zhao, 2022-12-29 **The Religion of the Patriarchs** Augustine Pagolu, 1998-11-01 Patriarchal religion was distinct from both ancient Near Eastern and Israelite religions and compatible only with the patriarchal lifestyle portrayed in Genesis Since Wellhausen the study of patriarchal religion has been chiefly confined either to the divine names or to the social and legal practices attested in Genesis and has neglected the patriarchal cultic practices altars pillars tithes vows and purifications frequently attested there In this study Pagolu investigates such aspects in the light of second millennium ancient Near Eastern and Israelite parallels concluding that the patriarchal practices bore no comparison to those of the ancient Near East or of Israel in that the patriarchs themselves offered sacrifices conducted prayer raised pillars and offered worship all without the aid of an established cult Thus patriarchal religion was distinct both from ancient Near Eastern religions and from the religion of Israel itself It is peculiar to the world of Genesis *Impact of Solar Activities on Weather and Climate* Ziniu Xiao, Limin Zhou, Liang Zhao, Irina

Alexandrovna Mironova, Peili Wu, Hiroko Miyahara, 2024-01-22 Evidence from observations and paleoclimate records suggest that solar outputs including solar irradiance and energy particles belong to the fundamental natural forces of the climate system It is consistent that the variation of solar irradiance on the orbital time scale controls glacial interglacial cycle However the contribution of solar output fluctuation due to solar activity to decadal to centennial climate change is still contradictory The common driving force mechanism is then the key role of solar climate linking research and the mechanism

of solar forcing and the pathway of amplification could be two key scientific problems in climate research In recent years a lot of studies have been done on the effects of solar activity on the climate based on data analysis by observation reanalysis or mechanism tracking by modeling The interannual and decadal solar signals in the regional climate were found and the hypothesis of driving mechanisms was proposed Meanwhile the potential contribution of solar variability to the current climate prediction has attracted more and more attention The purpose of this topic is to collect and reveal new results and new understandings about the impact of solar variability on climate
