Everyday Writing Center Anne Ellen Geller,Michele Eodice,Frankie Condon,Meg Carroll,Elizabeth H. Boquet,2007-04-01 The Everyday Writing Center challenges some of the most comfortable traditions in its field and it does so with a commitment and persuasiveness that one seldom sees in scholarly discussion The book at its core is an argument for a new writing center consciousness one that makes the most of the writing center s unique and uniquely fluid identity Writing center specialists live with a liminality that has been acknowledged but not fully explored in the literature Their disciplinary identity is with the English department but their mission is cross disciplinary their research is pedagogical but they often report to central administration Their education is in humanities but their administrative role demands constant number crunching This fluid identity explains why Trickster an icon of spontaneity shape shifting and the creative potential of chaos has come to be a favorite cultural figure for the authors of this book Adapting Lewis Hyde and others these authors use

Trickster to develop a theme of ordinary disruptions the everyday as a source of provocative learning moments that can liberate both student writers and writing center staff At the same time the authors parlay Etienne Wenger s concept of community of practice into an ethos for a dynamic learner centered pedagogy that is especially well suited to the peculiar teaching situation of the writing center Through Trickster they question not only accepted approaches to writing center pedagogy but conventional approaches to race time leadership and collaboration as well They encourage their field to exploit the creative potential in ordinary events that are normally seen as disruptive or defeating and they challenge traditions in the field that tend to isolate a writing center director from the department and campus Yet all is not random for the authors anchor this high risk high yield approach in their commitment to a version of Wenger s community of practice Conceiving of themselves their colleagues student writers and student tutors as co learners engaged together in a dynamic life of learning the authors find a way to ground the excess and randomness of the everyday while advancing an ethic of mutual respect and self challenge Committed to testing a region beyond the edge of convention the authors of The Everyday Writing Center constantly push themselves and their field toward deeper more significant research and more reflective dynamic teaching

The Ethnic Project Vilna Bashi Treitler, 2013-08-14 A study of the racial ethnic history of the United States and the perpetuation of racial hierarchy Race is a known fiction there is no genetic marker that indicates someone's race yet the social stigma of race endures In the United States ethnicity is often positioned as a counterweight to race and we celebrate our various hyphenated American identities But Vilna Bashi Treitler argues that we do so at a high cost ethnic thinking simply perpetuates an underlying racism In *The Ethnic Project* Bashi Treitler considers the ethnic history of the United States from the arrival of the English in North America through to the present day Tracing the histories of immigrant and indigenous groups Irish Chinese Italians Jews Native Americans Mexicans Afro Caribbeans and African Americans she shows how each negotiates America's racial hierarchy aiming to distance themselves from the bottom and align with the groups already at the top But in pursuing these ethnic projects these groups implicitly accept and perpetuate a racial hierarchy shoring up rather than dismantling race and racism Ultimately *The Ethnic Project* shows how dangerous ethnic thinking can be in a society that has not let go of racial thinking Praise for *The Ethnic Project* An outstanding work that makes an important contribution to our understanding of the past and present racial history of the United States The book is very well written Bashi Treitler's prose is a delight to read and meticulously researched *The Ethnic Project* should definitely be part of the conversation as we press forward with the task of understanding race in the United States Ashley Woody Doane *American Journal of Sociology* Treitler offers a succinct history and diagnosis of racial grouping in the U S from the nation's origin to the contemporary moment The text has solid promise as an introductory ethnic studies course reading Highly recommended N B Barnd CHOICE With her ingenious concept of ethnic projects Vilna Bashi Treitler brings a new optic to the study of race and provides an authoritative answer to those who ask the tired question We made it why haven't they Stephen Steinberg author of *Race Relations A Critique* Treitler masterfully weaves race and ethnicity into a single historical narrative that reveals the ugly reality of exploitation and stratification that has always undergirded American society Douglas S Massey Princeton University *Unveiling Whiteness in the Twenty-First Century* Veronica Watson, Deirdre Howard-Wagner, Lisa Spanierman, 2014-12-23 *Unveiling Whiteness in the Twenty First Century* Global Manifestations Transdisciplinary Interventions is a tightly interconnected and richly collaborative book that will advance our understanding of why it is so difficult to re-form and reimagine whiteness in the twenty first century Composed after the election of the first black U S president post global financial crisis more than a decade after 9 11 and concomitant with a rash of xenophobic incidents across the globe the book distills several key themes associated with a post millennial global whiteness the individual and collective emotions of whiteness the recentering of whiteness through governing and legal strategies and the retreats from social equity and justice that have characterized the late twentieth and twenty first century nation state It also attempts the difficult work of reimagining white identities and cultures for a new era Chapters in
