

Dancers

On the stage, they stand alone,
Every move, every tone,
A tale told, a passion shown,
Dance is where their heart is thrown.

Spotlights shine, casting a glow,
On dancers who let emotions flow.
Every leap, every stance,
Is a chapter in the dance.

As curtains fall, applause does echo,
Resonating with passion, every crescendo.
For on that stage, with every glance,
A dancer shares the soul of dance.

Learning To Dance Poems:

Learning to Dance Keith Taylor, 1985 *Learning to Kneel* Carrie J. Preston, 2016-08-30 In this inventive mix of criticism scholarship and personal reflection Carrie J Preston explores the nature of cross cultural teaching learning and performance Throughout the twentieth century Japanese noh was a major creative catalyst for American and European writers dancers and composers The noh theater's stylized choreography poetic chant spectacular costumes and masks and engagement with history inspired Western artists as they reimagined new approaches to tradition and form In *Learning to Kneel* Preston locates noh's important influence on such canonical figures as Pound Yeats Brecht Britten and Beckett These writers learned about noh from an international cast of collaborators and Preston traces the ways in which Japanese and Western artists influenced one another Preston's critical work was profoundly shaped by her own training in noh performance technique under a professional actor in Tokyo who taught her to kneel bow chant and submit to the teachings of a conservative tradition This encounter challenged Preston's assumptions about effective teaching particularly her inclinations to emphasize Western ideas of innovation and subversion and to overlook the complex ranges of agency experienced by teachers and students It also inspired new perspectives regarding the generative relationship between Western writers and Japanese performers Pound Yeats Brecht and others are often criticized for their orientalist tendencies and misappropriation of noh but Preston's analysis and her journey reflect a more nuanced understanding of cultural exchange

Sylvia Plath Susan Bassnett, 2017-03-16 Sylvia Plath is one of the best known and most widely studied writers of the twentieth century Since her death in 1963 critics have presented different images of Plath the suicidal poet the frustrated wife and mother the feminist precursor In this lively and approachable introduction to the author's poetry Susan Bassnett offers a balanced view of Plath as one of the finest contemporary poets and shows the diversity of her work Bassnett's refreshing perspective on the writer provides a welcome alternative to the many studies which attempt endlessly to psychoanalyse Plath posthumously Bassnett argues that there can never be any definitive version of the Plath story but from close readings of her texts readers can discover the excitement of her diverse work Plath is not viewed as an author driven by a death wish nor does the book focus on her suicide instead she is considered in the cultural context in which she wrote and viewed as a complex writer Now thoroughly revised and expanded in the light of recent research the second edition of this essential text contains new chapters and more close reading of the poetry It concludes with an analysis of Ted Hughes' Birthday Letters a collection of poems which he wrote about his wife after her death

Poetry and Pedagogy across the Lifespan Sandra Lee Kleppe, Angela Sorby, 2018-10-08 This book explores poetry and pedagogy in practice across the lifespan Poetry is directly linked to improved literacy creativity personal development emotional intelligence complex analytical thinking and social interaction all skills that are crucial in contemporary educational systems However a narrow focus on STEM subjects at the expense of the humanities has led educators to deprioritize poetry and to overlook its interdisciplinary multi-modal potential The editors and contributors argue that poetry is not a luxury but a way to stimulate linguistic experiences that are formally rich and cognitively challenging To learn through poetry is not just to access information differently but also to forge new and different connections that can serve as reflective tools for lifelong learning This interdisciplinary book will be of value to teachers and students of poetry as well as scholars interested in literacy across the disciplines
