Learning From International Public Manag

Tom Christensen, Per Lægreid

Learning From International Public Manag:

From Bureaucracy to Hyperarchy in Netcentric and Quick Learning Organizations Lawrence R. Jones, Fred Thompson, 2007-02-01 This book focuses on the inherent contradiction between bureaucracy hierarchy and the vision inspired by the architecture of modern information technology of a more egalitarian culture in public organizations We agree with Evans and Wurster and others who have argued that in the future knowledge based productive relationships will be designed around fluid teambased collaborative communities either within organizations i e deconstructed value chains or in collaborative alliances such as those with amorphous and permeable corporate boundaries characteristic of companies in the Silicon Valley that is deconstructed supply chains In such relationships everyone can communicate richly with everyone else on the basis of shared standards and like the Internet itself these relationships will eliminate the need to channel information thereby eliminating the trade off between information bandwidth and connectivity The possibility or the threat of random access and information symmetry they conclude will destroy all hierarchies whether of logic or power **Public Management and Administration** Owen E. Hughes, 2017-11-10 Introducing the scope and scale of government competing approaches to the study of management in the public sector different forms of service delivery and the major topics in the subject such as strategic management leadership and performance management this book continues to be a key point of reference for lecturers and students in the field This leading text has been completely revised and updated throughout It covers the whole field of public management and administration offering discrete chapters on the main topics in the field

Budgeting and Financial Management for National Defense Jerry L. McCaffery, Lawrence R. Jones, 2004-02-01 Most of the literature on public sector budgeting ignores defense budgeting even though aircraft ships tanks smart weaponry skilled crews electronically boosted infantry and other facets of national defense represent a large part of the federal government s discretionary spending The budget **The Ashgate Research Companion to New Public Management** Tom Christensen, Per Lægveid, 2016-03-23 This collection provides a comprehensive state of the art review of current research in the field of New Public Management NPM reform Aimed primarily at a readership with a special interest in contemporary public sector reforms The Ashgate Research Companion to New Public Management offers a refreshing and up to date analysis of key issues of modern administrative reforms This volume comprises a general introduction and twenty nine chapters divided into six thematic sessions each with chapters ranging across a variety of crucial topics in the field of New Public Management reforms and beyond The principal themes to be addressed are **Comparative Public Administration** Eric E. Otenyo, Nancy S. Lind, Lawrence R. Jones, 2006-07-24 Public administration scholars and practitioners are increasingly concerned with the need to broaden the field s scope beyond particularistic accounts of administration in given countries This title brings together seminal readings in comparative development public administration and contemporary public management scholarship *Public Sector Transparency and Accountability Making*

it Happen OECD, Organisation of American States, 2002-09-12 This publication presents the papers discussed at the Latin American Forum on Ensuring Transparency and Accountability in the Public Sector that took place on 5-6 December 2001. The Forum approved policy recommendations that reflect the shared experience of Member countries of the OECD and the OAS.

Outcome-Oriented Public Management Kuno Schedler, Isabella Proeller, 2010-11-01 After the New Public Management had evolved in English speaking countries it became a role model for the reform of public administration all throughout the world. Although there were obvious similarities in terminology used in different countries the model was usually adapted to the cultural and political context in which it had to be embedded. This also resulted in significant conceptual differences so that nowadays there is no one single NPM in the world. In contrast to the original NPM model this version puts emphasis on responsibility rather than accountability of public managers; it is strictly focused on the outcomes of public services rather than the output level and it is grounded on the *Rechtsstaat* tradition of Continental European countries. Thus the label that has been used in German ever since *Wirkungsorientierte Verwaltungsführung* is consequently translated into outcome oriented public management OPM. This book is an English version of a German classic teaching book. In its original form it was first published in 2000 and constantly revised according to latest developments in practice. Currently its 4th edition is selling in German speaking countries. Written for students and practitioners in public administration the book describes the OPM model and its roots and it discusses benefits and drawbacks of this model in practice. It is a perfect introduction into the new thinking of outcome orientation in the public sector.

Learning Transnational Learning Åge Mariussen, Seija Virkkala, 2013-05-02 Systems of innovation that are conducted within national borders can preserve inefficient solutions and prevent development. This has led to a feeling that transnational learning strategies are more and more desirable. In practice the field of transnational learning has been dominated by various policy making institutions such as the OECD and European Union working through different types of policy instruments and programs such as structural funds, open methods of coordination as well as international research institutions and networks set up by cooperating national governments working on comparative analysis, benchmarking and indicators. This book lays out a set of methods which can further enhance the experience of transnational learning starting from the sociological ideas promoted by Charles Sabel of learning through monitoring and by Marie Laure Djelic and others of the translation of experiences between different countries. Case studies and examples are collected from three fields: industrial development, tourism and local government.

Financing National Defense Lawrence R. Jones, Philip J. Candreva, Marc R. DeVore, 2011-12-01 A myth from the colonial period was that Americans could defend themselves by keeping a rifle in the closet and when needed grab it and march off to battle in times of crisis. Unfortunately providing national defense is more complicated than that; indeed it was more complicated even during the Revolutionary war. General George Washington's struggles to form a standing army supported by workable logistics and supply processes and to get funding for both from the Revolutionary Congress are well

documented Financing national defense requires planning and resourcing in advance Reacting at the instant of crisis is too late Building an educated highly trained and capable Armed Forces and the acquisition of defense weapons and weapons systems has long lead times and involves making decisions the consequences of which are likely to last for decades These decisions include how to recruit and retain military and civilian personnel as well as designing buying and fielding a vast array of ground weapons ships aircraft and other weaponry A decision to buy a major defense weapons system for example sets in motion a chain of other decisions that will affect the U S its allies and enemies around the world Implementation of such decisions is financed through the U S federal government and Department of Defense budget processes in a planned yet highly and pluralistic and disaggregated system for determining how to advocate acquire and allocate scarce resources in a manner that culminates in congressional and presidential approval In this book we examine the concepts and practices of defense financing provide a detailed description and analysis of resource policy decision making financial management and budget execution processes and analyze the most significant features of the national defense and U S federal government resource decision and management system The book assesses the numerous factors including those that characterize the complex budget review and appropriation decision making dynamics of Congress that make U S defense finance and budgeting different from any other system in the world In addition in a concluding chapter the book compares U S defense policy and budgeting to other nations in different regions of the globe drawing conclusions about the effects of U S defense policy and defense financing abroad in regions including Europe Russia the Middle East and Asia

Handbook of Research on Modernization and Accountability in Public Sector Management Azevedo, Graça Maria do Carmo, da Silva Oliveira, Jonas, Marques, Rui Pedro Figueiredo, Ferreira, Augusta da Conceição Santos, 2018-03-02 The effects of recent economic and financial crises have reached an international scale A number of different nations have experienced the fallout of these events calling into question issues of accountability and reform in public management The Handbook of Research on Modernization and Accountability in Public Sector Management is an essential scholarly publication that focuses on responsibility within public sector institutions and the importance of these institutions being ethical transparent and rigorous Featuring coverage on a broad range of topics such as corporate social responsibility e government and financial accountability this publication is geared toward regulatory authorities researchers managers and professionals working in the public domain

Developing Public Managers for a Changing World Klaus Majgaard, Jens Carl Ry Nielsen, Brid Quinn, John Raine, 2016-12-22 Volume 5 of Critical Perspectives in International Public Sector Management is comprised of three parts The need for experimental learning in public management development experimental learning formats and innovative teaching and transfer and value creation

Learning from International Public Management Reform , 2000

The Routledge Companion to Intellectual Capital James Guthrie, John Dumay, Federica Ricceri, Christian Nielsen, 2017-09-22 The Routledge Companion to Intellectual Capital offers a comprehensive overview of an important field

that has seen a diverse range of developments in research in recent years Edited by leading scholars and with contributions from top academics and practitioners from around the world this volume will provide not just theoretical analysis but also evaluate practice through case studies Combining theoretical and practice perspectives this comprehensive Companion addresses the role of IC inside and between organisations and institutions and how these contribute to the IC of nations regions and clusters Drawing on an extensive range of leading contributors The Routledge Companion to Intellectual Capital will be of interest to scholars who want to understand IC from a variety of perspectives as well as students who are seeking an authoritative and comprehensive source on IC and knowledge management

Contracting for Public Services

Carsten Greve,2007-09-12 Insightful and comprehensive and covering new subjects like globalization and IT this text international in its approach provides a thorough introduction to the key phases of the contracting process and the skills required by managers in its implementation These include policy for contracting strategic purchasing understanding markets communicating the contracting decision designing and drafting the contract the role of the consumer the regulation of service provision Illustrated throughout with practitioner case studies from a range of OECD countries this book presents an important new theoretical contract management model and a mature contract model and explores the mechanisms formal rules and informal norms that influence the way governments contract for public services This book is essential reading for all students of public management and all public service managers

The Study of Public Management in Europe and the US Walter Kickert,2007-12-05 This book provides an overview of the study of public management from some of the most authoritative experts in this area of study in Europe and the United States establishing a dialogue between different approaches to this discipline

The Future of Excellence in Public Relations and Communication Management Elizabeth L. Toth,2009-03-04 The Future of Excellence in Public Relations and Communication Management brings together a stellar collection of public relations scholars to address the question What will happen to continue the seminal theory building in public relations bolstered by the work of James E Grunig and Larissa A Grunig and the groundbreaking 1992 IABC

Excellence Study examining best practices in the field This volume presents a challenge to future researchers encouraging consideration of other theoretical research problems that will lead to improving the management practice of public relations This collection advances scholarly and practitioner understanding of excellence in public relations and communication management and as such public relations and communications scholars in addition to practitioners and graduate students studying these areas will benefit immensely by reading the work in this volume

Strategic Management in Public Services Organizations Ewan Ferlie,Edoardo Ongaro,2015-02-20 Strategic Management in Public Services Organizations

sets out to connect the two traditionally disparate academic literatures of public management and strategic management The authors argue that some models of strategic management are now of enhanced relevance for contemporary public services organizations especially when considering successive New Public Management reforms This observation has important

consequences for the requisite work practices skills and knowledge bases of current public managers as they are increasingly being asked to act as strategic as well as operational managers Strategic Management in Public Services Organizations takes a strongly comparative and international perspective in addressing the fundamental issue of strategic management within diverse public administrative traditions The impact of strategic management on the performance of public agencies is examined and it is argued that the appropriate use of strategic management models depends on the politico administrative and cultural contexts of the public services organization in question concluding that there is no single best way to strategically lead public organisations This is an advanced textbook aimed at the postgraduate level particularly students on MPAs and MBAs with a public sector option or MScs in Public Policy and Public Management Big Data and Analytics Applications in Government Gregory Richards, 2017-09-18 Within this context big data analytics BDA can be an important tool given that many analytic techniques within the big data world have been created specifically to deal with complexity and rapidly changing conditions The important task for public sector organizations is to liberate analytics from narrow scientific silos and expand it across internally to reap maximum benefit across their portfolios of programs This book highlights contextual factors important to better situating the use of BDA within government organizations and demonstrates the wide range of applications of different BDA techniques It emphasizes the importance of leadership and organizational practices that can improve performance It explains that BDA initiatives should not be bolted on but should be integrated into the organization's performance management processes Equally important the book includes chapters that demonstrate the diversity of factors that need to be managed to launch and sustain BDA initiatives in public sector organizations **Public Personnel Management** Jared J. Llorens, 2017-12-14 Now in a thoroughly revised 7th edition Public Personnel Management focuses on the critical issues and common processes in the management of public sector personnel In keeping with prior editions the text centers on the core processes within public human resource management strategic workforce planning effective recruitment and retention workforce development and employee relations Designed to further address the ways in which expectations for human resource managers have changed and developed in recent years the 7th edition includes several new features and improvements Substantially restructured updated and additional case studies and student exercises Coverage of how the field of Public HRM has been influenced by the two most recent national recessions economic downturns at the state and local level privatization and contracting trends at all levels of government the growing presence of millennial employees in the workplace issues surrounding social media use within the workplace the evolving goals of social equity and diversity and the shifting role and influence of labor unions Discussions of how the growth in information technology capabilities has influenced the major processes within HRM from workforce analysis through big data analytics to the explosion in automated recruitment assessment and instructional technologies For the first time the text includes an online Instructor's Manual PowerPoint slides discussion questions and suggestions for further reading to make it even easier

to assign and use this classic text in the classroom Providing the most up to date and thorough overview of the history and practice of public human resource management for both undergraduate and graduate students Public Personnel Management 7e remains the beloved text it ever was ideal for introductory courses in Public Personnel Management Public Human Resource Management and Nonprofit Personnel Management Public Human Resource Management Richard C. Kearney, Jerrell D. Coggburn, 2015-07-30 Public Human Resource Management Problems and Prospects brings together exemplary contributors who provide concise essays on major contemporary public human resources management issues Organized into four parts setting techniques issues and prospects and covering the major process function and policy issues in the field the text offers valuable wisdom to students and practitioners alike With sixteen new and eleven updated chapters authored by the leading figures in the field as well as by up and coming new scholars the new edition works as a primary or supplementary text for courses in human resource management or issues in public administration
