Fanon and the Counterinsurgency of Education, 2010-01-01 Fanon and the Counterinsurgency of Education takes up the challenge of an anti colonial reading of Fanon to broach questions of identity difference and belonging and the implications for schooling and education The authors deliberately offer a careful and selective capturing of Fanon s works pointing to the relevance for oppressed communities as they resist re organized colonial relations in schooling and education While colonialism and neo colonialism have functioned and continue to function differently in diverse environments and social contexts contributions in the book enthuse that we must raise new questions in a bold attempt to re theorize colonial relations social difference and the representational politics of education Educators must ask new questions in order to contribute to knowledge of how to resist the entrapments of colonialism racism exploitation and alienation Frantz Fanon s oeuvre is informative to the pursuit of critical education especially when we examine the colonial encounter and the colonized experience The book offers concrete lessons in the struggle to revise education to meet the needs of diverse communities

E-Learning and Social Media Elinor L. Brown, Anna Krasteva, Maria Ranieri, 2016-05-01 International Advances in Education Global Initiatives for Equity and Social Justice is an international research monograph series of scholarly works that focuses primarily on empowering children adolescents and young adults from diverse educational socio cultural linguistic religious racial ethnic and socio economic settings to become non exploited non exploitive contributing members of the global community The series draws on the international community of investigators academics and community organizers that have contributed to the evidence base for developing sound educational policies practices and innovative programs to optimize the potential of all students Each themed volume includes multi disciplinary theory research and practice that provides an enriched understanding of the drivers of human potential via education to assist readers in exploring adapting and replicating innovative strategies that enable ALL students to realize their full potential Among these strategies are the integration of digital technologies DT and information and communication technologies ICT into contemporary education platforms However technology must be more than just a tool to deliver content and stimulate engagement it must become a means to broaden access to learning advance equity promote social justice and encourage social inclusion Especially reaching out to address the academic and social needs of rural impoverished

marginalized and displaced populations Though the digital divide continues to hinder educational attainment for underprivileged populations ICTs are providing significant opportunities to deliver literacy and basic skills instruction to disadvantaged segments of the global population as well as engage motivate and customize learning to address local needs Nonetheless the availability of ICT is not a deterministic process Other societal cultural political and contextual factors are of fundamental importance to acceptance and integration that enables people to benefit from technology The relationship between educational access instructional delivery and ICT should be considered in more complex terms In particular digital technologies should be viewed as instructional tools that improve access to educational opportunities strengthen cultural resources promote social and economic equity and provide students with the knowledge and competencies to prepare them for a future that cannot be predicted Therefore developing ICT and media capabilities that instill citizenship and stewardship in today s students is crucial to gleaning the social and cultural advantages of a contemporary global society that encourages full and equal citizenship Citizenship education refers to two understandings of citizenship as belonging and as engagement The first is focused on national identity and valorizes the values of justice and democracy as well as language and culture as the roots bridging the personality of children to the community of solidarity and shared norms The second understanding of citizenship complements the roots with roads with the choices made by the individual with the capacity to form and develop the child s personality into the actor and author of his her educational professional and life projects The adolescent prepares to become an active committed and engaged citizen with the intellectual capacity for critical thinking that leads to responsible actions Digital citizenship expresses the transformations of both belonging to and engaging in the information society and contributes to the development of generation Y with the aspiration to innovate and experiment to explore the possibilities of the new digital world to question authorities and instances of knowledge and power Education addresses digital citizenship by opening more avenues for the intersection of Internet imagination and exploration Volume 10 E learning examines the challenges and benefits of social media on student self identity collaboration and academic engagement shares promising practices associated with technology in education and e citizenship in the 21st century and advances the discussion on blending global citizenship education and social media that raises student awareness accountability and social justice involvement

What Is Art Education? Jan Jagodzinski, 2016-12-27 This edited book gathers seven established art educators' educator

artists who address art education from the philosophical position of Deleuze and Guattari This book raises questions as to where the future of art and its education might be heading if the focus on art was to be repositioned along Deleuze and Guattari s philosophy of immanence The chapters are speculative as they query what is thinking in the art process There is an attempt to project other forms of what art can do and the curriculum that can emerge when a student centered problematic is explored along such lines **Education, Social Science and the Judicial Process** National Institute of Education (U.S.). Desegregation Studies Staff,1976 *Higher Education Cannot Escape History* Clark Kerr,President Emeritus and Former Chancellor and Professor Emeritus Clark Kerr,Marian L. Gade,Maureen Kawaoka,1994-01-01 Our taste for blood sport stops short at the bruising clash of football players or the gloved blows of boxers and the suicide of a politician is no more than a personal tragedy What then are we to make of the ancient Romans for whom the meaning of sport and politics often depended on death In this provocative thoughtful book Paul Plass shows how the deadly violence of arena sport and political suicide served a social purpose in ancient Rome His work offers a reminder of the complex uses to which institutionalized violence can be put Violence Plass observes is a universal part of human life and so must be integrated into social order Grounding his study in evidence from Roman history and drawing on ideas from contemporary sociology and anthropology he first discusses gladiatorial combat in ancient Rome Massive bloodshed in the arena Plass argues embodied the element of danger for a society frequently engaged in war with outsiders whether slaves criminals or prisoners of war sacrificed for a sense of public security
