Leather Braiding:

Art of Leather Braiding Roy Luo, 2018-01-17 Leather braiding is an ancient form of art that uses just a few simple knots and cords to create beautiful jewellery and accessories. In this new book the owners of the chic and established Magnolia Braiding Company have brought leather braiding to the modern day with a collection of stunning projects that rely on just a few simple techniques. Starting with advice on the leather cords to use and the essential techniques you need to start designing your pieces, you can then delve straight into the brilliant variety of braiding projects from rings and neckwear to key fobs and wrist straps for watches. Few specialist tools are required and the leather cord is readily available from craft stores. All of the projects use classic three string or four string braid designs and the addition of decorative knots or store bought findings give the braids a professional elegant finish, making these perfect pieces for beginners to make for family and friends. Hand leather braiding is an easy and rewarding art to pick up and explore and once you begin you will be inspired to start creating your own beautiful twisted pieces that will impress you and your loved ones.

Braiding and Knotting

Constantine A. Belash, 2013-12-31 All you need is three or more pieces of string, rope, cord or some other pliable material and you're ready to begin. This book will teach you how to braid, weave and knot them in hundreds of different ways from simple three stranded braiding through the attractive though more complex macramé knotting. Complete, easy to follow instructions begin with braiding and weaving with anywhere from three to nine strands. Flat braiding, solid braiding, braiding over multiple strands, weaving across stationary strands and many other techniques are covered. Each yields a different texture and pattern so that with the imaginative use of color the results can be quite attractive. The knotting section covers the many different kinds of knots: square spiral, square triple half hitch etc and how to use them in various decorative or functional ways. Fifty seven drawings are especially helpful in adding clarity to the directions. Along with these instructions there are directions for making numerous articles with your braids and knots: belts, lanyards, mats, rugs, sandals, hats, bags; only your imagination will limit the number of things you can make. Anyone inclined to take up braiding and knotting will find this book immensely helpful not only in getting started but in going through the advanced stages of crafts.
