**Unhitched** Judith Stacey, 2011-05-02 A leading expert on the family Judith Stacey is known for her provocative research on mainstream issues Finding herself impatient with increasingly calcified positions taken in the interminable wars over same sex marriage divorce fatherlessness marital fidelity and the like she struck out to profile unfamiliar cultures of contemporary love marriage and family values from around the world Built on bracing original research that spans gay men s intimacies and parenting in this country to plural and non marital forms of family in South Africa and China Unhitched decouples the taken for granted relationships between love marriage and parenthood Countering the one size fits all vision of family values Stacey offers readers a lively in person introduction to these less familiar varieties of intimacy and family and to the social political and economic conditions that buttress and batter them Through compelling stories of real families navigating inescapable personal and political trade offs between desire and domesticity the book undermines popular convictions about family gender and sexuality held on the left right and center Taking on prejudices of both conservatives and feminists Unhitched poses a powerful empirical challenge to the belief that the nuclear family whether straight or gay is the single best way to meet our needs for intimacy and care Stacey calls on citizens and policy makers to make their peace with the fact that family diversity is here to stay

Women and Gender in Contemporary Chinese Societies Shanshan Du,Ya-chen Chen,2013-03-04 Recent attention to historical geographic and class differences in the studies of women and gender in China has expanded our understanding of the diversity and complexity of gendered China Nevertheless the ethnic dimension of this subject matter remains largely overlooked particularly concerning women s conditions and gender status Consequently the patriarchy and its oppression of women among the Han the ethnic majority in China are often inaccurately or erroneously associated with the whole gendered heritage of China epitomized by the infamous traditions of footbinding and female infanticide Such academic and popular predisposition belies the fact that gender systems

in China span a wide spectrum ranging from extreme Han patriarchy to Lahu gender egalitarianism The authors contributing to this book have collectively initiated a systematic effort to bridge the gap between understanding the majority Han and ethnic minorities in regard to women and gender in contemporary Chinese societies By achieving a quantitative balance between articles on the Han majority and those on ethnic minorities this book transcends the ghettoization of ethnic minorities in the studies of Chinese women and gender The eleven chapters of this volume are divided into three sections which jointly challenge the traditions and norms of Han patriarchy from various perspectives The first section focuses on gender traditions among ethnic minorities which compete with the norms of Han patriarchy The second section emphasizes the impact of radical social transformation on gender systems and practices among both Han and ethnic minorities The third section underscores socio cultural diversity and complexity in resistance to Han patriarchal norms from a broad perspective This book complements previous scholarship on Chinese women and gender by expanding our investigative lens beyond Han patriarchy and providing images of the multiethnic landscape of China By identifying the Han as an ethnically marked category and by bringing to the forefront the diverse gender systems of ethnic minorities this book encourages an increasing awareness of and sensitivity to the cross cultural diversity of gendered China both in academia and beyond **Imagining**
