Lectures On Fascism

Eric S. Juhnke

Lectures On Fascism:

Lectures on Fascism Palmiro Togliatti, 1976 This work consists of lectures which the eminent Italian and world Communist leader Togliatti gave to workers from Italy who in 1935 were attending a Party school in Moscow The Lectures clearly delineate the class nature of fascism and the ideological and organizational tools it uses to fashion its mass social base Togliatti makes a profound analysis of the character of this base the special problems it posed for the democratic and communist forces in Italy and he suggests the methods for political work under the difficult circumstances of fascist rule First issued in Italy in 1970 Lectures on Fascism has since been published in France the USSR and the German Democratic Republic This is the first English language edition a Marxist classic whose style and content lends itself to study and creative application to today's events Description of the editor **A History of Italian Fascist Culture, 1922-1943** Alessandra Tarquini, 2022-04-12 Alessandra Tarquini's A History of Italian Fascist Culture 1922-1943 is widely recognized as an authoritative synthesis of the field The book was published to much critical acclaim in 2011 and revised and expanded five years later This long awaited translation presents Tarquini's compact clear prose to readers previously unable to read it in the original Italian Tarquini sketches the universe of Italian fascism in three broad directions the regime's cultural policies the condition of various art forms and scholarly disciplines and the ideology underpinning the totalitarian state She details the choices the ruling class made between 1922 and 1943 revealing how cultural policies shaped the country and how intellectuals and artists contributed to those decisions The result is a view of fascist ideology as a system of visions ideals and above all myths capable of orienting political action and promoting a precise worldview Building on George L Mosse's foundational research Tarquini provides the best single volume work available to fully understand a complex and challenging subject It reveals how the fascists used culture art cinema music theater and literature to build a conservative revolution that purported to protect the traditional social fabric while presenting itself as maximally oriented toward the future The Politics of Everyday Life in Fascist Italy Joshua Arthurs, Michael Ebner, Kate Ferris, 2017-02-08 This book explores the complex ways in which people lived and worked within the confines of Benito Mussolini's regime in Italy variously embracing appropriating accommodating and avoiding the regime's incursions into everyday life The contributions highlight the experiences of ordinary Italians midwives and schoolchildren colonists and soldiers over the course of the Fascist era in settings ranging from the street to the farm and from the kitchen to the police station At the same time this volume also provides a framework for understanding the Italian experience in relation to other totalitarian dictatorships in twentieth century Europe and beyond **Palmiro Togliatti** Aldo Agosti, 2008-07-30 Palmiro Togliatti could not have become leader of the Italian Communist Party at a more difficult time in the Party's history In 1926 while he was away from Italy representing the Party in Moscow Mussolini's Fascist government outlawed the organisation and arrested all the other leading Communists including Antonio Gramsci and Togliatti became leader but at the cost of living in exile for nearly twenty years

Drawing on unprecedented access to private correspondence and newly available archives this is the first full biography of this important Communist politician and intellectual Like many successful politicians Togliatti was a man of contradictions the dedicated Party man who was also instrumental in creating the constitution of Republican Italy whose personal charisma and political acumen kept him at the forefront of Italian politics for nearly forty years Aldo Agosti explores Togliatti's intellectual development his achievements and his sometimes criminal mistakes as the leading member of the Comintern his complex relationship with Moscow and his lasting impact on Italian politics The result is a meticulous and fascinating life of one of Western Europe's most successful Communist leaders which at the same time casts fresh light on the internal politics of the Comintern

Weimar in Exile Jean-Michel Palmier, 2017-01-31 A magisterial history of the artists and writers who left Weimar when the Nazis came to power In 1933 thousands of intellectuals artists writers militants and other opponents of the Nazi regime fled Germany They were in the words of Heinrich Mann the best of Germany refusing to remain citizens in this new state that legalized terror and brutality Exiled across the world they continued the fight against Nazism in prose poetry painting architecture film and theater Weimar in Exile follows these lives from the rise of national socialism to their return to a ruined homeland retracing their stories struggles setbacks and rare victories The dignity in exile of Walter Benjamin Ernst Bloch Bertolt Brecht Alfred Döblin Hanns Eisler Heinrich Mann Thomas Mann Anna Seghers Ernst Toller Stefan Zweig and many others provides a counterpoint to the story of Germany under the Nazis

The Popular Front in Europe Helen Graham, Paul Preston, 1988-12-05 Out of the social and economic turmoil of Europe in the 1930s the Popular Front emerged as the spearhead of the left's bid to stop fascism in its tracks Fifty years on from the birth of the Popular Front this edited collection assesses the impact of the idea of bourgeois proletarian alliance on the European left as a whole It also examines the fate of the Popular Front governments both in France which remained nominally at peace and in Spain where the bitter strife over social and economic reform erupted into open civil war

Cleveland Plain Dealer Index United States. Work Projects Administration (Ohio), 1940

Lectures on Negative Dialectics Theodor W. Adorno, 2014-11-05 This volume comprises one of the key lecture courses leading up to the publication in 1966 of Adorno's major work Negative Dialectics These lectures focus on developing the concepts critical to the introductory section of that book They show Adorno as an embattled philosopher defining his own methodology among the prevailing trends of the time As a critical theorist he repudiated the worn out Marxist stereotypes still dominant in the Soviet bloc he specifically addresses his remarks to students who had escaped from the East in the period leading up to the building of the Berlin Wall in 1961 Influenced as he was by the empirical schools of thought he had encountered in the United States he nevertheless continued to resist what he saw as their surrender to scientific and mathematical abstraction However their influence was potent enough to prevent him from reverting to the traditional idealisms still prevalent in Germany or to their latest manifestations in the shape of the new ontology of Heidegger and his disciples Instead he attempts to define perhaps more simply and fully than in the final

published version a negative i.e. critical approach to philosophy Permeating the whole book is Adorno's sense of the overwhelming power of totalizing dominating systems in the post Auschwitz world Intellectual negativity therefore commits him to the stubborn defence of individuals both facts and people who stubbornly refuse to become integrated into the administered world These lectures reveal Adorno to be a lively and engaging lecturer He makes serious demands on his listeners but always manages to enliven his arguments with observations on philosophers and writers such as Proust and Brecht and comments on current events Heavy intellectual artillery is combined with a concern for his students progress

Bibliography On Holocaust Literature Abraham J Edelheit, 2021-11-28 In this second supplement to their Bibliography on Holocaust Literature the authors have compiled 4000 new entries to keep pace with the outpouring of literature on the subject Readers attention is directed to new materials and to items newly available including books pamphlets and journal articles many of which are catalogued for the first time There is a new section on Soviet anti-Semitism and expanded coverage of neo Nazism neo fascism

Living War, Thinking Peace (1914-1924) Bruna Bianchi, Geraldine Ludbrook, 2016-04-26 This volume is the result of a long commitment of the online journal DEP Deportate esuli profughe to the themes of women pacifists thought and activism in the 1900s The volume is a collection of contributions centred around three main themes The first part Living War Women's Experiences during the War brings together first hand accounts from women's lives as they face the horrors of war drawn mainly from original sources such as diaries letters memoirs and writings The second Thinking Peace Feminist Thought and Activism explores the lives and thought of several key women activists who challenged inequalities and sought to create new opportunities for women contributing to the definition of a transnational culture of peace The final section International Relations Toward Future World Peace examines the work of a group of women who saw the outbreak of the First World War and the emergence of an international women's movement for peace as an opportunity to act for their personal emancipation and in some cases for a different idea of politics The volume fills a notable gap in international history studies providing a selection of contributions from little known European contexts such as Italy Poland and Austria The presence and contribution of African American women which has been neglected in the history of women's pacifism is also explored Particular attention is given to the Women's International League for Peace and Freedom and to the International Congress of Women held in The Hague in 1915

Anarchist Voices Paul Avrich, 2021-03-09 Through his many books on the history of anarchism Paul Avrich has done much to dispel the public's conception of the anarchists as mere terrorists In Anarchist Voices Avrich lets American anarchists speak for themselves This abridged edition contains fifty three interviews conducted by Avrich over a period of thirty years interviews that portray the human dimensions of a movement much maligned by the authorities and contemporary journalists Most of the interviewees anarchists as well as their friends and relatives were active during the heyday of the movement between the 1880s and the 1930s They represent all schools of anarchism and include both famous figures and minor ones previously overlooked by

most historians Their stories provide a wealth of personal detail about such anarchist luminaries as Emma Goldman and Sacco and Vanzetti *Fascism and Neofascism* E. Weitz,A. Fenner,2016-09-27 The dramatic transformations of the the 1990s the end of the Cold War the establishment of political liberties and market economies in Eastern Europe German unification quickly led commentators to proclaim the end of all ideologies and the complete triumph of liberal capitalism Just as quickly however right wing extremism began a surge in Europe that has not significantly abated to this day Fascism and Neofascism is a collection of essays that is distinctive in two important ways First unlike most volumes which cover either historical fascism or the recent radical right Fascism and Neofascism spans both periods Secondly this volume also aims to bring newer modes of inquiry rooted in cultural studies into dialogue with more traditional ways of viewing fascism The editors approach is deliberately interdisciplinary even eclectic **Wilsonian Visions** James McAllister,2021-11-15 In *Wilsonian Visions* James McAllister recovers the history of the most influential forum of American liberal internationalism in the immediate aftermath of the First World War The Williamstown Institute of Politics Established in 1921 by Harry A Garfield the president of Williams College the Institute was dedicated to promoting an informed perspective on world politics even as the United States still gathering itself after World War I retreated from the Wilsonian vision of active involvement in European political affairs Located on the Williams campus in the Berkshire Mountains of Western Massachusetts the Institute s annual summer session of lectures and roundtables attracted scholars diplomats and peace activists from around the world Newspapers and press services reported the proceedings and controversies of the Institute to an American public divided over fundamental questions about US involvement in the world In an era where the institutions of liberal internationalism were just taking shape Garfield s institutional model was rapidly emulated by colleges and universities across the US McAllister narrates the career of the Institute tracing its roots back to the tragedy of the First World War and Garfield s disappointment in America s failure to join the League of Nations He also shows the Progressive Era origins of the Institute and the importance of the political and intellectual relationship formed between Garfield and Wilson at Princeton University in the early 1900s Drawing on new and previously unexamined archival materials *Wilsonian Visions* restores the Institute to its rightful status in the intellectual history of US foreign relations and shows it to be a formative institution as the country transitioned from domestic isolation to global engagement *The Routledge Handbook on Karl Polanyi* Michele Cangiani,Claus Thomasberger,2024-02-05 Karl Polanyi is one of the most influential social scientists of our era A report of the United Nations Conference on Trade and Development UNCTAD begins by noting that we are in a Polanyi era a time of dangerously unregulated markets where the greatest need for decisive political action is matched by the least trust in politics This handbook provides a comprehensive of recent research on Polanyi s work and ideas including the central place occupied by his thinking on the relationship between economics and politics The stellar line up of contributors to this book explore Polanyi s work reflecting the intrinsic interdisciplinarity of Polanyi s approach to understanding our society its place in

history its fundamental dynamics and its contradictions as well as the methodological issues he raises The handbook broadly follows a chronological structure beginning with influences on Polanyi his formative experiences and early works A significant section is dedicated to Polanyi's seminal work *The Great Transformation* and its impact Further sections also look at Polanyi's wider influence on various disciplines and methodological debates and his ongoing relevance for present day issues including debates on populism neoliberalism and low carbon transitions This handbook is a vital resource for students and scholars of economics politics sociology and other social sciences

Death to Fascism John P. Enyeart, 2019-06-30 Born to Slovenian peasants Louis Adamic commanded crowds met with FDR and Truman and built a prolific career as an author and journalist Behind the scenes he played a leading role in a coalition of black intellectuals and writers working class militants ethnic activists and others that worked for a multiethnic America and against fascism John Enyeart restores Adamic's life to the narrative of American history Dogged and energetic Adamic championed causes that ranged from ethnic and racial equality to worker's rights to anticolonialism Adamic defied the consensus that equated being American with Anglo Protestant culture Instead he insisted newcomers and their ideas kept the American identity in a state of dynamism that pushed it from strength to strength In time Adamic's views put him at odds with an establishment dedicated to cold war aggression and white supremacy He increasingly fought smear campaigns and the distortion of his views both of which continued after his probable murder in 1951

Quacks and Crusaders Eric S. Juhnke, 2002 One promoted goat gland transplants as a remedy for lost virility or infertility Another blamed aluminum cooking utensils for causing cancer The third was targeted by the Food and Drug Administration as public enemy number one for his worthless cures John Brinkley Norman Baker and Harry Hoxsey were the ultimate snake oil salesmen of the twentieth century With backgrounds in lowbrow performance carnivals vaudeville night clubs each of these charismatic con men used the emerging power of radio to hawk alternative cures in the Midwest beginning in the roaring twenties through the Depression era and into the 1950s All scorned the medical establishment for avarice while amassing considerable fortunes of their own and although the American Medical Association castigated them for preying on the ignorant this book shows that the case against them wasn't all that simple *Quacks and Crusaders* is an entertaining and revealing look at the connections between fraudulent medicine and populist rhetoric in middle America Eric Juhnke examines the careers of these three personalities to paint a vision of medicine that championed average Americans denounced elitism and affirmed rustic values All appealed to the common man winning audiences and patrons in rural America by casting their pitches in everyday language and their messages proved more potent than their medicines in treating the fears insecurities and failing health of their numerous supporters Juhnke first examines the career of each man revealing their geniuses as businessmen and propagandists with such success that Brinkley and Baker ran for governor of their states and Hoxsey had thousands of supporters protest his persecution by the FDA Juhnke then investigates the identity motives and willingness to believe of their many patients and followers He shows

how all three men used populist rhetoric evangelical anti Communist anti intellectual to attract their clients and then how their particular brand of populism sometimes mutated to anti Semitism and other sentiments of the radical right By treating the incurable Brinkley Baker and Hoxsey took on the mantles of common folk crusaders Brinkley was idolized for his goat gland cures until his death and Hoxsey s former head nurse continued his work from Tijuana until her death in 1999 In considering who visits quacks and why Juhnke has shed new light not only on the ongoing battle between alternative and organized medicine but also on the persistence of quackery and gullibility in American culture Introduction to Phenomenology Dermot Moran,2002-06-01 Introduction to Phenomenology is an outstanding and comprehensive guide to phenomenology Dermot Moran lucidly examines the contributions of phenomenology s nine seminal thinkers Brentano Husserl Heidegger Gadamer Arendt Levinas Sartre Merleau Ponty and Derrida Written in a clear and engaging style Introduction to Phenomenology charts the course of the phenomenological movement from its origins in Husserl to its transformation by Derrida It describes the thought of Heidegger and Sartre phenomenology s most famous thinkers and introduces and assesses the distinctive use of phenomenology by some of its lesser known exponents such as Levinas Arendt and Gadamer Throughout the book the enormous influence of phenomenology on the course of twentieth century philosophy is thoroughly explored This is an indispensable introduction for all unfamiliar with this much talked about but little understood school of thought Technical terms are explained throughout and jargon is avoided Introduction to Phenomenology will be of interest to all students seeking a reliable introduction to a key movement in European thought

Noam Chomsky Robert F Barsky,1998-07-31 This biography describes the intellectual and political milieus that helped shape Noam Chomsky a pivotal figure in contemporary linguistics politics cognitive psychology and philosophy It also presents an engaging political history of the last several decades including such events as the Spanish Civil War the dropping of atomic bombs on Hiroshima and Nagasaki and the march on the Pentagon to protest the Vietnam War The book highlights Chomsky s views on the uses and misuses of the university as an institution his assessment of useful political engagement and his doubts about postmodernism Because Chomsky is given ample space to articulate his views on many of the major issues relating to his work both linguistic and political this book reads like the autobiography that Chomsky says he will never write Barsky s account reveals the remarkable consistency in Chomsky s interests and principles over the course of his life The book contains well placed excerpts from Chomsky s published writings and unpublished correspondence including the author s own years long correspondence with Chomsky Not for sale in Canada **The End of Pax Americana** Naoki Sakai,2021-12-06 In The End of Pax Americana Naoki Sakai focuses on U S hegemony s long history in East Asia and the effects of its decline on contemporary conceptions of internationality Engaging with themes of nationality in conjunction with internationality the civilizational construction of differences between East and West and empire and decolonization Sakai focuses on the formation of a nationalism of hikikomori or reclusive withdrawal Japan s increasingly inward looking tendency

since the late 1990s named for the phenomenon of the nation's young people sequestering themselves from public life Sakai argues that the exhaustion of Pax Americana and the post World War II international order under which Taiwan South Korea Hong Kong and China experienced rapid modernization through consumer capitalism and a media revolution signals neither the decline of the West nor the rise of the East but rather a dislocation and decentering of European and North American political economic diplomatic and intellectual influence This decentering is symbolized by the sense of the loss of old colonial empires such as those of Japan Britain and the United States **Fascism's European Empire** Davide Rodogno, 2006-08-03 This 2006 book is a controversial reappraisal of the Italian occupation of the Mediterranean during the Second World War which Davide Rodogno examines within the framework of fascist imperial ambitions He focuses on the European territories annexed and occupied by Italy between 1940 and 1943 metropolitan France Corsica Slovenia Croatia Dalmatia Montenegro Albania Kosovo Western Macedonia and mainland and insular Greece He explores Italy's plans for Mediterranean expansion its relationship with Germany economic exploitation the forced Italianisation of the annexed territories collaboration repression and Italian policies towards refugees and Jews He also compares Fascist Italy and Nazi Germany through their dreams of imperial conquest the role of racism and anti-Semitism and the fascistization of the Italian Army Based on previously unpublished sources this is a groundbreaking contribution to genocide resistance war crimes and occupation studies as well as to the history of the Second World War more generally
