La transition démographique de l'Afrique David Canning, Sangeeta Raja, Abdo S. Yazbeck, 2016-09-08

Le résumé L'Afrique est sur le bord d'un lancement potentiel de croissance économique soutenue Cette ascension peut être accélérée par un dividende démographique dû aux changements dans la structure par âge de la population Les baisses de la mortalité infantile suivies par la baisse de la fécondité produisent une génération renflée et un grand nombre de personnes d'âge actif donnant un coup de pouce à l'économie Dans le court terme une fécondité plus faible engendre une baisse des taux de dépendance des jeunes et une plus grande participation de la population active féminine en dehors de la maison La réduction de la taille de la famille signifie également qu'il reste davantage de ressources investir dans la santé et l'éducation par enfant augmentant ainsi la productivité future des travailleurs Au long terme une durée de vie accrue résultant de l'amélioration dans le domaine de la santé signifie que cette vaste cohorte aux gains élevés sera également désireuse d'épargner pour la retraite ainsi que pour la création de l'épargne et des investissements plus conséquents conduisant ainsi à d'autres gains de productivité Deux choses sont nécessaires pour que le dividende démographique génère un développement économique de l'Afrique La première consiste à accélérer la baisse de la fécondité qui est actuellement au point mort ou lente dans de nombreux pays La seconde est les politiques économiques qui profitent de l'occasion offerte par le changement de la démographie Alors que l'évolution démographique peut produire plus et des travailleurs de meilleure qualité cette main-d'œuvre potentielle doit être employée si l'Afrique se doit de recueillir le dividende Cependant une fois en route la relation entre l'évolution démographique et le développement humain fonctionne dans les deux sens c'est-à-dire qu'elle crée un cercle vertueux susceptible d'accélérer la baisse de la fécondité le développement social et la croissance économique Les recherches scientifiques montrent trois facteurs clés pour accélérer la transition de la fécondité la santé des enfants l'éducation des femmes et l'autonomisation des femmes notamment par l'accès à la planification familiale Exploiter le dividende démographique nécessite la création d'emplois pour les grandes cohortes de jeunes qui entrent en âge de travailler et qui stimulent les investissements étrangers jusqu'à faire augmenter l'épargne intérieure et l'investissement La combinaison appropriée de politiques dans chaque pays dépend de leur

stade de transition démographique Etant la dernière région subir la transition démographique l'Afrique peut tirer les leçons des russites et des échecs des autres régions dans l'exploitation d'un dividende démographique Le succès exige i) l'accélération de la transition démographique ii) une économie dynamique produisant des revenus et des investissements plus élevés pour une jeunesse mieux éduquée et en meilleure santé

Circular - Office of Education United States. Office of Education, 1964

The World Bank's Role in Human Resource Development in Sub-Saharan Africa Ronald Gene Ridker, 1994 World Bank Discussion Paper 244 Although many studies have analyzed the gender gap in primary and secondary education in developing countries this study is one of the few that analyzes the gap at the tertiary or university level The authors track the patterns in women's access to and achievement in higher education including student enrollment and access to faculty and administrative positions The study also identifies successful strategies and measures for reducing the gender gap Two issues are examined in this paper Part I reviews how women have fared in the wake of expanded tertiary enrollments over the past three decades Despite evidence proving the importance of women's access to higher education for economic growth a pervasive gap remains especially in Sub-Saharan Africa the Middle East and South Asia The second part examines the World Bank's experience in projects designed to improve women's experience in higher education The extent and severity of constraints varied across regions Results are limited and many projects are still in progress The findings suggest that countries with low per capita income levels and difficult social settings for women may have the greatest barriers to female participation Even where social constraints are less severe the programs for improving female education must respond to the demands of the labor market

Border-crossing in Education Joëlle Droux, Rita Hofstetter, 2018-02-02 Border crossing in Education comprises a series of case studies covering a variety of cultural areas in order to reveal the density of connections and exchanges that inform educational practices policies and systems It attaches particular importance to individual and collective actors that govern these flows initiating promoting or reconfiguring transfers of policy models The contributors explore various aspects of the circulatory mechanisms that have been deployed in the field of education during the modern and contemporary period Varying the observation scales from local to international they demonstrate the multilateral character of the circulatory dynamics observed The implementation of rich and varied approaches to these complex processes offers a perspective that complements and renews our knowledge of the genesis and evolution of educational policies and systems most notably highlighting their foreign inspirations However these studies do not merely evoke borrowings and hybridization as if national borders proved porous or non-existent Instead they show that the phenomena of resistance reinterpretation and rejection are also an integral part of transnational mechanisms of exchanges The book thus demonstrates the relevance of a historical approach in addressing these transnational mechanisms in the field of education and childhood policy This book was originally published as a special issue of *Paedagogica Historica*

Random Thoughts on the Concept and Practice of Educational Planning and Reform Boris K. Kluchnikov, 1979
