Final Lectures:

Neville Goddard's Final Lectures Neville Goddard, 2022-11-01 The Legacy of a Visionary Mystic In Neville Goddard's Final Lectures scholar of esotericism Mitch Horowitz introduces, annotates and collects the fullest record yet of talks the mystic giant Neville Goddard delivered in the closing months of his life in 1972. Mitch also reveals previously unknown details of Neville's death. Many of these valuable lectures have never before been transcribed or anthologized. Within them you will discover Neville at the peak of his cosmic and personal vision. The teacher compellingly describes the purpose of your human journey from sleep-like ignorance to resplendent awareness and he offers practical and compelling instructions on how to use the causative powers of your imagination, the source of all creation. Mitch's introduction *Into the Silence* newly documents the circumstances of Neville's death and surveys the depth and range of his closing ideas left as a testament to seekers everywhere. Mitch also annotates these lectures providing clarifying historical and literary references. The book is rounded out with Mitch's updated timeline of the mystic's life. *Neville Goddard's Final Lectures* is a capstone and legacy capturing some of the teacher's most supple thought. It is finally a tribute and testimony to a man who gave us a vastly greater understanding of humanity's purpose and destiny.

Last Lectures on the Prevention and Intervention of Genocide Samuel Totten, 2017-09-29 *Last Lectures on the Prevention and Intervention of Genocide* is a collection of hypothetical last lectures by some of the top scholars and practitioners across the globe in the fields of human rights and genocide studies. Each lecture purportedly constitutes the last thing the author will ever say about the prevention and intervention of genocide. The contributions to this volume are thought-provoking, engaging and at times controversial, reflecting the scholars' most advanced thinking about issues of human rights and genocide. This book will be of great interest to professors, researchers and students of political science, international relations, psychology, sociology, history, human rights and genocide studies.

The Final Foucault James Bernauer, David Rasmussen, 1988-03-18 *The Final Foucault* is devoted to his last published and some as yet unpublished work and includes a translation of one of his last interviews, a comprehensive bibliography of his publications and a biographical chronology. Michel Foucault left a rich legacy of ideas and approaches, many of which still await exposition and analysis. *The Final Foucault* is devoted to his last published and some as yet unpublished work and includes a translation of one of his last interviews, a comprehensive bibliography of his publications and a biographical chronology. Foucault was still working on his history of sexuality when he died in 1984, but his main concern remained as throughout his career, a deeper understanding of the nature of truth. His final set of lectures at the Collège de France, described here by Thomas Flynn, focused on the concept of truth-telling as a moral virtue in the ancient world. In the other essays, Karlis Racevskis examines the questions of identity at the core of Foucault's work, Garth Gillan takes up the problems inherent in any attempt to characterize Foucault's philosophy, James Bernauer explores the ethical basis of Foucault's work and offers a context for understanding his late interest in the Christian experience, and Diane Rubenstein offers a Lacanian

interpretation of the last work *The Final Foucault* is based on a special issue of the *Journal Philosophy and Social Criticism* edited by David Rasmussen and published at Boston College

Lectures on Don Quixote Vladimir Nabokov, 2016-08-23 One of the twentieth century's greatest novelists offers his take on the Spanish classic. The author of *Lolita* and *Pale Fire* was not only a master of fiction but a distinguished literary critic as well. In this collection of lectures which he delivered at Harvard in the early 1950s Vladimir Nabokov shares insights based on a chapter by chapter synopsis of the seventeenth century novel by Miguel de Cervantes a timeless classic and one of the most deeply influential works in all of Western literature. Rejecting the common interpretation of *Don Quixote* as a warm satire Nabokov perceives the work as a catalog of cruelty through which the gaunt knight passes. Edited and with a preface by Fredson Bowers this volume offers a powerful critical and dramatic elaboration of the theme of illusion.

The Voice of Science Diarmid A. Finnegan, 2021-10-12 For many in the nineteenth century the spoken word had a vivacity and power that exceeded other modes of communication. This conviction helped to sustain a diverse and dynamic lecture culture that provided a crucial vehicle for shaping and contesting cultural norms and beliefs. As science increasingly became part of public culture and debate its spokespersons recognized the need to harness the presumed power of public speech to recommend the moral relevance of scientific ideas and attitudes. With this wider context in mind *The Voice of Science* explores the efforts of five celebrity British scientists John Tyndall Thomas Henry Huxley Richard Proctor Alfred Russel Wallace and Henry Drummond to articulate and embody a moral vision of the scientific life on American lecture platforms. These evangelists for science negotiated the fraught but intimate relationship between platform and newsprint culture and faced the demands of audiences searching for meaningful and memorable lecture performances. As Diarmid Finnegan reveals all five attracted unrivaled attention provoking responses in the press from church pulpits and on other platforms. Their lectures became potent cultural catalysts provoking far reaching debate on the consequences and relevance of scientific thought for reconstructing cultural meaning and moral purpose.

The 1903 Lowell Lectures Ahti-Veikko Pietarinen, 2021-05-10 In three comprehensive volumes *Logic of the Future* presents a full panorama of Charles S Peirce's important late writings. Among the most influential American thinkers Peirce took his existential graphs to be his greatest contribution to human thought. The manuscripts from 1895-1913 most of which are published here for the first time testify the richness and open endedness of his theory of logic and its applications. They also invite us to reconsider our ordinary conceptions of reasoning as well as the conventional stories told about the evolution of modern logic. This second volume collects Peirce's writings on existential graphs related to his Lowell Lectures of 1903 the *annus mirabilis* of his that became decisive in the development of the mature theory of the graphical method of logic.

Lectures on Imagination Paul Ricoeur, 2024-03-11 When Paul Ricoeur died in 2005 the *New York Times* described him as one of the most eminent philosophers of the twentieth century. In his lifetime Ricoeur published influential works on language memory identity and history creating an innovative blend of hermeneutics.

and phenomenology Despite his major interest in the imagination however he never wrote a complete text on the topic The present volume *Lectures on Imagination* fills this gap providing an indispensable resource for philosophically inclined readers from all backgrounds Over the course of these lectures Ricoeur examines classical and contemporary philosophical theories of imagination ranging from thinkers such as Aristotle Pascal Spinoza Hume and Kant to Husserl Wittgenstein Sartre and Ryle He argues that with few exceptions Western philosophy has focused on reproductive rather than productive imagination thus diminishing the creative capacity of the human mind For Ricoeur productive imagination is a form of fiction a new dimension of reality generated by the human mind His theory has far reaching implications In all domains we are not restricted by existing structures or institutions because the productive imagination has the power to break through and transform our sense of our own horizons

Projecting Citizenship Gabrielle Moser, 2019-01-11 In *Projecting Citizenship* Gabrielle Moser gives a comprehensive account of an unusual project produced by the British government's Colonial Office Visual Instruction Committee at the beginning of the twentieth century a series of lantern slide lectures that combined geography education and photography to teach schoolchildren around the world what it meant to look and to feel like an imperial citizen Through detailed archival research and close readings Moser elucidates the impact of this vast collection of photographs documenting the land and peoples of the British Empire circulated between 1902 and 1945 in classrooms from Canada to Hong Kong from the West Indies to Australia Moser argues that these photographs played a

central role in the invention and representation of imperial citizenship She shows how citizenship became a photographable and teachable subject by tracing the intended readings of the images that the committee hoped to impart to viewers and analyzing how spectators may have used their encounters with these photographs for protest and resistance Interweaving political and economic history history of pedagogy and theories of citizenship with a consideration of the aesthetic and affective dimensions of viewing the lectures *Projecting Citizenship* offers important insights into the social inequalities and visual language of colonial rule Works John Ruskin,1908 *Postcapitalist Desire* Mark Fisher,2020-09-22 A collection of transcripts from Mark Fisher s final series of lectures at Goldsmiths University of London in late 2016 Edited with an introduction by Matt Colquhoun this collection of lecture notes and transcriptions reveals acclaimed writer and blogger Mark Fisher in his element the classroom outlining a project that Fisher s death left so bittersweetly unfinished Beginning with that most fundamental of questions Do we really want what we say we want Fisher explores the relationship between desire and capitalism and wonders what new forms of desire we might still excavate from the past present and future From the emergence and failure of the counterculture in the 1970s to the continued development of his left accelerationist line of thinking this volume charts a tragically interrupted course for thinking about the raising of a new kind of consciousness and the cultural and political implications of doing so For Fisher this process of consciousness raising was always fundamentally psychedelic just not in the way that we might think *Gay-Lussac* Maurice P. Crosland,2004-02-12 This is the first work to examine critically both the scientific work and the man behind it and as well as providing the historian of science with a comprehensive account of the life and work of a major nineteenth century scientist the book will also be of value to the social and economic historian Directions in Technical Writing and Communication Jay Gould,2020-03-25 Teachers of technical writing are frequently handicapped by a lack of material to back up discussions in the classroom and in textbooks This title helps to overcome this weakness *Heaven, Hell, and the Afterlife* J. Harold Ellens,2013-07-25 Christianity Islam and Judaism all feature ideas about heaven hell and afterlife and these concepts have evolved over time within these religions This work supplies a detailed and coherent understanding of the broad scope of spiritual thinking in the last 3 000 years within the Abrahamic traditions Heaven Hell and the Afterlife Eternity in Judaism Christianity and Islam provides an all encompassing examination of historic and contemporary perspectives on afterlife in Western religions In these three volumes Judaic Christian and Muslim scholars join forces providing an unprecedented review of their individual faith s traditions Every significant issue and major theme is discussed no controversial topic is avoided From ancient doctrines to modern day outlooks of conservatives progressives and liberals in all three religions all are analyzed and presented here The framework of the volumes underscores how the ethics and concepts of eternity in the Western action religions contrast with Eastern religions that tend to be characterized as passive or withdrawal religions in their ethics and their notions of afterlife as absorption within universal spirit Nirvana or nonexistence This work is well suited for undergraduate and graduate students
