The GP Trainer's Handbook Paul Middleton, Maurice Price, 2021-08-13

The ten years since the First Edition of this book have witnessed revolutionary changes in GP training: appraisal, the new MRCGP exam and competence-based assessments to name but three. Greater availability of information has also transformed the social context of General Practice as a profession. Despite this, the one-to-one relationship between trainer and trainee remains the lynchpin of GP education, and this manual's key principle—that GP trainers are the key source of expertise in this field and that their experiences and ideas are a vital and still underused resource—is as important as ever. This new edition, fully revised and updated to reflect the latest changes in both GP training and the profession, remains an essential comprehensive manual of useful advice for GP trainers, written by their peers. Outlining educational methods, training philosophies, and reflections from practitioners experienced in the entire spectrum of GP education, it provides a toolbox of resources to cover the practicalities of training, including e-portfolios, teaching consultation skills, and numerous tips and tricks. It is now augmented with an array of supporting online material that includes checklists, forms, and evaluation tools. This book is vital reading for GP tutors and GP trainers, as well as those considering such roles, and for all those who manage and oversee the training of GP registrars.
