Sherwin, 2018-12-01 What does it mean to love What are the traits of character that support love s activity How does the economy of grace the mission of Christ and the action of the Holy Spirit elevate and transform human love virtue and the desire for happiness In *On Love and Virtue Theological Essays* the eminent Dominican theologian Michael Sherwin considers how the Catholic tradition has addressed these questions Fr Sherwin places this tradition in dialogue with contemporary questions Taking St Thomas Aquinas as his primary guide Fr Sherwin reads St Thomas in light of his biblical and patristic sources especially St Augustine and engages contemporary developments in philosophy in order to deepen our understanding of how grace both heals and elevates human nature Along the way Fr Sherwin considers the vocation of the theologian and the biblical and patristic understanding of the Christian call to moral apprenticeship and friendship with God

An Economic Theory of Greed, Love, Groups, and Networks Paul Frijters, 2013-03-07 Why are people loyal How do groups form and how do they create incentives for their members to abide by group norms Until now economics has only been able to partially answer these questions In this groundbreaking work Paul Frijters presents a new unified theory of human

behaviour To do so he incorporates comprehensive yet tractable definitions of love and power and the dynamics of groups and networks into the traditional mainstream economic view The result is an enhanced view of human societies that nevertheless retains the pursuit of self interest at its core This book provides a digestible but comprehensive theory of our socioeconomic system which condenses its immense complexity into simplified representations The result both illuminates humanity s history and suggests ways forward for policies today in areas as diverse as poverty reduction and tax compliance
