## **Generative Marriage:**

**Science of Love with Key to Immortality** Ida Mingle, 1926      **American Awakening** Joshua Mitchell, 2022-12-13

America has always been committed to the idea that citizens can work together to build a common world. Today three afflictions keep us from pursuing that noble ideal. The first and most obvious affliction is identity politics which seeks to transform America by turning politics into a religious venue of sacrificial offering. For now the sacrificial scapegoat is the white heterosexual man. After he is humiliated and purged, who will be the object of cathartic rage? White women. Black men. Identity politics is the anti-egalitarian spiritual eugenics of our age. It demands that pure and innocent groups ascend and the stained transgressor groups be purged. The second affliction is that citizens oscillate back and forth in bipolar fashion at one moment feeling invincible on their social media platforms and the next feeling impotent to face the everyday problems of life without the guidance of experts and global managers. Third, Americans are afflicted by a disease that cannot quite be named, characterized by an addictive hope that they can find cheap shortcuts that bypass the difficult labors of everyday life. Instead of real friendship we seek social media friends. Instead of meals at home we order fast food. Instead of real shopping we shop online. Instead of counting on our families and neighbors to address our problems we look to the state to take care of us. In its many forms, this disease promises release from our labors yet impoverishes us all. *American Awakening* chronicles all of these problems yet gives us hope for the future.

**Medieval Marriage** David d'Avray, 2005-06-16. This study shows how marriage symbolism emerged from the world of texts to become a social force affecting ordinary people. It covers the whole medieval period but identifies the decades around 1200 as decisive. New arguments for regarding preaching as a mass medium from the thirteenth century are presented, building on the author's *Medieval Marriage Sermons*. In marriage preaching, symbolism was central. Marriage symbolism also became a social force through law and lay behind the combination of monogamy and indissolubility which made the medieval Church's marriage system a unique development in world history. Symbolism is not presented as an explanation on its own; it interacted with other causal factors, notably the eleventh-century Gregorian Reform's drive for celibacy which made the higher clergy like a third gender and less sympathetic to patriarchal polygamous tendencies. Sexual intercourse as a symbol of Christ's union with the Church became central not just in mysticism but in society as structured by Church law. Symbolism also explains apparently bizarre rules such as the exemption from capital punishment of clerics in minor orders provided that they married a virgin, not a widow. The rules about blessing second marriages are also connected with this nexus of thought. The book is based on a wide range of manuscript sources: sermons, canon law commentaries, Apostolic Penitentiary registers, papal bulls, a gaol delivery roll, and pastoral handbooks. The collection of documents at the end of the book expands the source base for the history of medieval marriage generally as well as underpinning the thesis about symbolism.

*The Marriage Guide, Or, Natural History of Generation* Frederick Hollick, 1850      **Marriage, Scripture, and the Church** Darrin W. Snyder Belousek, 2021-03-16. This book takes a

distinctive approach to the same sex union debate by framing the issue as a matter of marriage Darrin Snyder Belousek demonstrates that the interpretation of Scripture affects whether the church should revise its doctrine of marriage for the sake of sanctioning same sex union Engaging charitably yet critically with opposing viewpoints he delves deeply into what marriage is what it is for and what it means as presented in the biblical narrative and the theological tradition articulating a biblical traditional theology of marriage for the contemporary church Afterword by Wesley Hill     **A physiological view of marriage, with observations on the secret sin** Robert David Lalor, 1860     Marriage Matters Lotte Meinert, Julaina A. Obika, Nanna Schneidermann, 2025-07-21 Statistics show steep declines in formal partnerships in Uganda Yet marriage commitment love and relationships still matter profoundly to individuals family generations friends and wider society What does it mean to be married or not married in contemporary Uganda Marriage Matters engages with new and classic anthropological theory gender studies marriage relatedness and temporality Through rich empirical cases the book examines how partnership kinship child filiation and friendship are changing in Uganda as are ideas about love and commitment and in doing so contributes to the burgeoning scholarship on marriage and partnership structures in anthropology and beyond This volume presents collaborative ethnographies that brings together the voices of scholars from Uganda and Europe to discuss how Ugandan realities are changing and how anthropology has changed as well Geographically the volume covers Northern Uganda affected by long years of civil conflict and relatively peaceful Eastern Uganda that nevertheless shares many similar social and economic conditions with Northern Uganda These two different contexts provide a special opportunity to consider the dynamics between marriage violence love commitment economics and politics     **Handbook of Marriage and the Family** Gary W. **An Ordered Love** Louis J. Kern, 2014-07-01 An Ordered Love is the first detailed study of sex roles in the utopian communities that proposed alternatives to monogamous marriage The Shakers 1779 1890 the Mormons 1843 90 and the Oneida Community 1848 79 The lives of men and women changed substantially when they joined one of the utopian communities Louis J Kern challenges the commonly held belief that Mormon polygamy was uniformly downgrading to women and that Oneida pantagamy and Shaker celibacy were liberating for them Rather Kern asserts that changes in sexual behavior and roles for women occurred in ideological environments that assumed women were inferior and needed male guidance An elemental distrust of women denied the Victorian belief in their moral superiority attacked the sanctity of the maternal role and institutionalized the dominance of men over women These utopias accepted the revolutionary idea that the pleasure bond was the essence of marriage They provided their members with a highly developed theological and ideological position that helped them cope with the ambiguities and anxieties they felt during a difficult transitional stage in social mores Analysis of the theological doctrines of these communities indicates how pervasive sexual questions were in the minds of the utopians and how closely they were related to both reform social perfection and salvation individual perfection These communities saw sex as the point at which the demands of individual selfishness and the social requirements of self sacrifice were in most open conflict They did not offer their members sexual license but rather they established ideals of sexual orderliness and moral stability and sought to provide a refuge from the rampant sexual anxieties of Victorian culture Kern examines the critical importance of considerations of sexuality and sexual behavior in these communities recognizing their value as indications of larger social and cultural tensions Using the insights of history psychology and sociology he investigates the relationships between the individual and society ideology and behavior and thought and action as expressed in the sexual life of these three

communities Previously unused manuscript sources on the Oneida Community and Shaker journals and daybooks reveal interesting and sometimes startling information on sexual behavior and attitudes      *The Oxford Handbook of Elizabeth Anscombe* Roger Teichmann,2022 Elizabeth Anscombe was one of the most important philosophers of the twentieth century as well as a friend pupil and the main translator of Ludwig Wittgenstein She wrote on a wide range of philosophical topics publishing a handful of books and a large corpus of articles in her lifetime This collection of twenty two essays on the philosophy of Elizabeth Anscombe by an international array of experts in the field covers intention ethical theory human life the first person and Anscombe on other philosophers      *Imitating Authors* Colin Burrow,2019 People learn by imitating other people Authors do the same This book explains how authors from the earliest stages of Western literature to the present day have imitated each other
