Learning Skills for Success Probst,1990-02 **Learning Skills for Success** Gary K. Probst,1994-08-01 **Learn Better** Ulrich Boser,2017-03-07 For centuries experts have argued that learning was about memorizing information You re supposed to study facts dates and details burn them into your memory and then apply that knowledge at opportune times But this approach to learning isn t nearly enough for the world that we live in today and in Learn Better journalist and education researcher Ulrich Boser demonstrates that how we learn can matter just as much as what we learn In this brilliantly researched book Boser maps out the new science of learning showing how simple techniques like comprehension check ins and making material personally relatable can help people gain expertise in dramatically better ways He covers six key steps to help you learn how to learn all illuminated with fascinating stories like how Jackson Pollock developed his unique painting style and why an ancient Japanese counting device allows kids to do math at superhuman speeds Boser s witty engaging writing makes this book feel like a guilty pleasure not homework Learn Better will revolutionize the way students and society alike approach learning and makes the case that being smart is not an innate ability learning is a skill everyone can master With Boser as your guide you will be able to fully capitalize on your brain s remarkable ability to gain new skills and open up a whole new world of possibilities *Keys to Effective Learning* Carol Carter,Joyce L.
