Through Writing to Reading Brigid Smith,2005-08-08 The question of how the problems of slow readers can be caught early and remedied has been much in the news lately In this very practical book for teachers and support teachers based on extensive work in the classroom Brigid Smith shows how to exploit the links between writing and reading to give children the all important experience of literacy The children with whom she works are encouraged to dictate their own stories to a helper and then to read these back From their success in this they are gradually guided towards the skills needed to decode unfamiliar text At the same time the stories increasingly acquire features characteristic of written rather than oral language and in editing them the children practice compositional skills which would otherwise be beyond their reach Brigid Smith explains how teachers can use this approach in their own classrooms with different kinds of texts with individuals with groups and with children of all abilities While her emphasis is on enjoyment and independence for the reader she also shows how the method she suggests can fulfil the requirements of the National Curriculum and how progress can be monitored for assessment purposes

Language, and Literacy Fran Lehr, Jean Osborn, 2012-10-12 The impetus for this book emerged from a conference that brought together publishers and reading researchers and educators for the purpose of examining the best available research evidence about what we know and what we have yet to learn about the teaching of reading and about how children learn to read The goal of the conference was to contribute to a sound research base upon which to develop classroom practices that will ensure that every American child will become fully literate Because the field is still so deeply divided over the best ways to translate belief into classroom practice the editors decided to highlight rather than gloss over these divisions It is hoped that the papers in this volume will promote thought and discussion that will lead to action in improving reading instruction for children now and into the new century *Forum*, 1988 [Tentative Outline in English for the Primary Grades](#)
