The Dodgers Michael Schiavone, 2018-05-01 In 1957 the Dodgers left their home of Brooklyn New York where they had been since their inception in 1884 for the sunny hills of Los Angeles California Since arriving in LA the team has won five World Series and ten NL Pennants and become one of the top grossing organizations in Major League Baseball The Dodgers 60 Years in LA chronicles the team's impressive history since arriving in the West Coast Covering the amazing feats of Dodgers greats such as Steve Garvey Fernando Valenzuela and Kirk Gibson author Michael Schiavone offers an in depth history of the team since their arrival in 1958 and through the 2017 season With highlights of each season the moments fans love to remember or wish to forget as well as those who have graced the field of Chavez Ravine The Dodgers 60 Years in LA shares the wonderful history of the boys in blue in the most comprehensive book available Whether you're a fan of the Dodgers of old or today's team this book offers the most information of the team's time in California than any other on the market **Life Inc** Douglas Rushkoff, 2011-01-04 Now includes The Life Inc Guide to Reclaiming the Value You Create In Life Inc award winning writer Douglas Rushkoff traces how corporations went from being convenient legal fictions to being the dominant fact of contemporary life The resulting ideology corporatism has infiltrated all aspects of civics commerce and culture from the founding of the first chartered monopoly to the branding of the self from the invention of central currency to the privatization of banking from the Victorian Great Exhibition to the solipsism of Facebook Life Inc explains why we see our homes as investments rather than places to live our 401 k plans as the ultimate measure of success and the Internet as just another place to do business Most important Rushkoff illuminates both how we've become disconnected from our world and how we can reconnect to our towns to the value we can create and mostly to one another As the speculative economy collapses under its own weight Life Inc shows us how to build a real and human scaled society to take its place *Jonathan Lethem* James Peacock, 2013-07-19 Jonathan Lethem is the first full length study dedicated to the work of an exciting genre busting contemporary writer with an increasingly high profile in American literature Examining all of Lethem's novels as well as a number of his short fictions essays and critical works this study shows how the author's prolific output his restlessness and his desire always to be subverting literary forms and genres are consistent with his interest in subcultural identities The

human need to break off into small groupings subcultures or miniature utopias is mirrored in the critical tendency to enforce generic boundaries To break down the boundaries between genres then is partly to make a nonsense of critical distinctions between high and low literature and partly to reflect the wider need to recognise difference to appreciate that other people no matter how outlandish and alien they may appear share similar desires experiences and problems With this in mind James Peacock argues that Lethem s experiments with genre are not merely games or elaborate literary jokes but ethical necessities particularly when viewed in the light of the losses and traumas that shadow all of his writing Jonathan Lethem therefore makes an important contribution not just to Lethem studies but also to debates about genre and its position in postmodern or post postmodern literature It will be of interest to all scholars and students of contemporary American writing as well as those interested in genre fiction and literature s relationship with subcultures *Hearings* United States.
