Venezuela Before Chávez Ricardo Hausmann, Francisco R. Rodríguez, 2015-06-13 At the beginning of the twentieth century Venezuela had one of the poorest economies in Latin America but by 1970 it had become the richest country in the region and one of the twenty richest countries in the world ahead of countries such as Greece Israel and Spain Between 1978 and 2001 however Venezuela s economy went sharply in reverse with non oil GDP declining by almost 19 percent and oil GDP by an astonishing 65 percent What accounts for this drastic turnabout The editors of *Venezuela Before Ch vez* who each played a policymaking role in the country s economy

during the past two decades have brought together a group of economists and political scientists to examine systematically the impact of a wide range of factors affecting the economy's collapse from the cost of labor regulation and the development of financial markets to the weakening of democratic governance and the politics of decisions about industrial policy. Aside from the editors, the contributors are Omar Bello, Adriana Bermudez Matas, Braun, Javier Corrales, Jonathan Di John, Rafael Di Tella, Javier Donna, Samuel Freije, Dan Levy, Robert MacCulloch, Osmel Manzano, Francisco Monaldi, María Antonia Moreno, Daniel Ortega, Michael Penfold, Jos Pineda, Lant Pritchett, Cameron A. Shelton, and Dean Yang. Inequality in Asia and the Pacific Ravi Kanbur, Changyong Rhee, Juzhong Zhuang, 2014-02-24. Asia's rapid economic growth has led to a significant reduction in extreme poverty but accompanied by rising inequality. This book deals with three questions: What have been the trends of inequality in Asia and the Pacific? What are the key drivers of rising inequality in the region? How should Asian countries respond to the rising inequality? Technological change, globalization, and market-oriented reform have been the key drivers of Asia's remarkable growth and poverty reduction but they have also had significant distribution consequences. These three drivers of growth cannot be hindered because they are the sources of productivity improvement and betterment of quality of life. This book will be useful to those interested in policy options that could be deployed by Asian countries in confronting rising inequality. *Encyclopedia of the Developing World* Thomas M. Leonard, 2013-10-18. A RUSA 2007 Outstanding Reference Title. The Encyclopedia of the Developing World is a comprehensive work on the historical and current status of developing countries. Containing more than 750 entries, the Encyclopedia encompasses primarily the years since 1945 and defines development broadly, addressing not only economics but also civil society and social progress. Entries cover the most important theories and measurements of development, relate historical events, movements, and concepts to development both internationally and regionally where applicable, examine the contributions of the most important persons and organizations, and detail the progress made within geographic regions and by individual countries. **Economic Systems of Innovation in the Arab Region** Samia Mohamed Nour, 2016-04-30. The Arab region has become a hotbed of economic growth in recent decades. While this growth has indisputably brought in wealth, there are still countless questions about the characteristics, constraints, and implications of the region's systems of innovation. Do these systems even exist in the Arab region? How does the current economic structure affect regional innovation? Is the presence of natural resources a help or a hindrance? *Economic Systems of Innovation in the Arab Region* discusses the causes, consequences, and implications of poor systems of innovation in the Middle East and North Africa. By examining the comparative weakness of innovation, the economic structure, and the diversity of the region, Nour shows that the development of Arab regional systems of innovation is contingent upon the development of adequate economic policies and incentives in the area. Her contribution is key for students and scholars of economics, innovation, and international relations. *Monthly Catalog of United States Government Publications*, 1989. **Monthly Catalogue, United States Public Documents**, 1989.
