Economic Crisis A Christian Perspective:

Economic Crisis John F. Sleeman, 1976 **Surviving a Global Economic Crisis** Hillary Dawes, 2008-09 Our country and the world are going through some very hard economic times and many people including Christians are distressed and are wondering what is going to happen next This book seeks to address some of those concerns from both a Biblical and experiential perspective In this book you will learn about false economic teachings that are prevalent in the world and church today You will learn about true Biblical prosperity and the Biblical economy of ancient Israel You will learn about the Biblical teachings concerning global recessions and whether a global economic recession will usher in the Anti Christ You will have opportunity to dissect some of the most controversial prophecies in the book of Revelation in order to get an economic forecast for the future All this and more will be discovered in this book as I unearth the secrets of surviving a global economic crisis Are you ready for the meltdown Hillary Dawes is a Christian writer who hails from Florida She is a graduate of Florida International University Miami Florida where she received her Bachelors of Science degree She is a certified Biblical Health Coach and a Christian Spiritual Teacher in her church Ms Dawes is a student of History especially ancient and Biblical history Since 2005 she has taken a deep interest in Biblical doctrine as it relates end time events She has written numerous articles on the internet and for public presentations and has her own blogsite Ms Dawes is especially gifted with giving prophetic insights into current Biblical teachings Ms Dawes has been a Christian since February 1990 and her writings are inspired from experience as well as from insight Ms Dawes can be contacted by E mail daughterofwisdom hotmail com Blog www daughterofwisdom blogspot com **Economics, Ethics and Religion** R. Wilson, 1997-02-24 There is a revival of interest by economists in ethical issues and beliefs and by moral philosophers and theologians in economics This book is intended to make a contribution to this cross fertilisation of ideas Rodney Wilson has undertaken an extensive survey of Jewish Christian and Muslim views on economics and reviewed the rapidly expanding business ethics literature from a religious perspective The juxtaposition of the work of theologians and moral philosophers with that of economists results in some interesting comparisons God the Economist M. Douglas Meeks, God does not appear in the modern market For most economists this is as it should be It is in no way necessary according to modern economic theory to consider God when thinking about economy Indeed the absence of God in economic matters is viewed as necessary to the great advances in modern economy The difficulty with modern market economies however is that human livelihood is also left out of the theory and practice of the market economy I propose to bring the church s teaching about God the doctrine of the Trinity to bear on the masked connections between God and economy I will treat the Trinity as the way of understanding what the Bible calls the economy of God *Islam and Economic Policy* Rodney Wilson, 2015-05-15 This textbook looks at the impact of Islamic teaching on public economic policy and asks how Islamic economics differs from mainstream micro and macroeconomics **Humanism in Economics and Business** Domènec Melé, Martin Schlag, 2015-02-25 This book offers

different perspectives on Humanism as developed by Catholic Social Teaching with a particular focus on its relevance in economics and business The work is composed of three sections covering what is meant by Christian Humanism how it links with economic activity and its practical relevance in the business world of today It reviews the historical development of Christian Humanism and discusses the arguments which justify it in the current cultural context and how it contributes to human development The book argues that the current recognition of human dignity and the existence of innate human rights are both ultimately rooted in Christian Humanism It sets out the importance of the concept for economic activities and how Christian Humanism can serve as a metaphysical foundation and ethical basis for a social market economy Applying Christian Humanism to business leads to the centrality of the person in organizations and to seeing the company as a community of persons working together for the common good Three thought provoking case studies illustrate the wide reaching positive impacts of applying Christian Humanism in the organization

Handbook on Islam and Economic Life M. Kabir

Hassan,Mervyn K. Lewis,2014-12-31 Handbook on Islam and Economic Life is a unique study one of the first of its kind to consider Islam within a broader economic sphere Covering a wide breadth of topics and research it explores how Islam impinges upon and seeks to shape major aspect

A Christian Perspective on Political Thought Stephen Charles

Mott,1993 The author seeks to advance the role of biblical and theological values in the political lives of individual Christians and the public discourse of American society He argues that Americans want to make choices in terms of standards of right and wrong but tend to lack the formulation of a theory

Christian Release , **Theology and Economics** Jeremy

Kidwell,2015-12-27 This volume brings together a prominent group of Christian economists and theologians to provide an interdisciplinary look at how we might use the tools of economic and theological reasoning to cultivate more just and moral economies for the 21st century

The Global Financial Crisis Noah Berlatsky,2010-01-15 This book explores possible causes of the global economic crisis including lack of banking regulation greed of financial institutions decisions of the Federal Reserve and the abandonment of the gold standard Examines the differing impacts of the crisis on wealthy nations and developing nations and why some nations are weathering the crisis better than others Discusses potential solutions to the crisis such as regulatory reform and lowering restrictions on trade

The Global Capitalist Crisis and Its Aftermath Berch

Berberoglu,2016-12-05 Written by a team of experts on the contemporary global capitalist political economy who are able to shed light on the inner workings of global capitalism and the capitalist globalization process that has led to the growth and development of capitalism from the national to the global level this groundbreaking volume provides critical analyses of the causes and consequences of the Great Recession of 2008 2009 Through a careful examination of the origin development and aftermath of the catastrophic economic crisis from which the world is still trying to recover editor Berch Berberoglu and his colleagues demonstrate that those most responsible for the economic collapse are the ones least affected by its devastating impact felt most severely by working people around the world Ultimately this book argues that it is only through the

systematic restructuring of the world economy by the working class that society will be able to prevent the boom and bust cycle of global capitalist crises and usher in a more egalitarian socialist economy and society

The Crisis and the Kingdom E. Philip Davis, 2012-01-01 The ongoing global financial crisis was not simply the fault of the financial sector Bankers households and governments had all entered a spiral of greed selfishness and impatience in pursuit of their respective aims of higher remuneration greater consumption and enhanced popularity The outcome besides costly bank bailouts has been rising private and public debt and stagnant economies Economics the ruling paradigm in today's society can explain their motivation of self interest but not the underlying irrationality of their behavior Taking a view from Scripture Philip Davis critiques the overall aims of individuals as assumed by economics wealth consumption and power in contrast to Jesus proclamation of the kingdom of God the love for God and neighbor and responsible stewardship of resources In doing so he aims to equip Christians to better understand the crisis from a kingdom perspective to provide the church with a distinctive voice in these troubled times and to press for radical Christian solutions to address the underlying difficulties This little book aims to redress the gap in Christians understanding that led the theologian Jurgen Moltmann to remark trenchantly The neglect of economics is a wound in the side of the church

The Financial Crisis Howard Davies, 2010-09-07 There is still no consensus on who or what caused the financial crisis which engulfed the world beginning in the summer of 2007 A huge number of suspects have been identified from greedy investment bankers through feckless borrowers dilatory regulators and myopic central bankers to violent video games and high levels of testosterone among the denizens of trading floors There is not even agreement on whether the crisis shows a need for more government intervention in markets or less some maintain that government encouragement of home ownership lay at the heart of the problem in the US in particular In *The Financial Crisis* Howard Davies charts a course through these arguments and the evidence advanced for each of them The reader can thereby assess the weight to be attached to each and the likely effectiveness of the remedies under development

Profitability and the Great Recession Ascension Mejorado, Manuel Roman, 2013-10-23 From the mid 1980s investors in the US increasingly directed capital towards the financial sector at the expense of non financial sectors lured by the perception of higher profits This flow of capital inflated asset prices creating the stock market and housing bubbles which burst when the imbalance between stagnant incomes and rising debts triggered the banking meltdown *Profitability and the Great Recession* analyses these trends in profitability and capital accumulation which the authors identify as the root cause of the financial crisis in the context of the US and other major OECD countries Drawing on insights from Adam Smith David Ricardo John Stuart Mill and Karl Marx the authors interpret the relationship between capital accumulation and profitability trends through the conceptual lens of classical political economy The book provides extensive empirical evidence of declining rates of US non financial corporate accumulations from the mid 1960s and profitability trends in that sector falling from post war highs In contrast to this it is shown that there was a vigorous rise of profitability in the

financial sector from a 1982 trough to the early part of the twenty first century which led to the bloating of that sector The authors conclude that the long term falling accumulation trend in the non financial corporate sector highlighted by the bankruptcy of major automobile corporations stands out as the underlying force that transformed the financial crisis into a fully fledged Great Recession This book will be of interest to students and researchers in the areas of economics political economy business and finance Innovation and Economic Crisis Daniele Archibugi,Andrea Filippetti,2013-03-01 The recent financial and economic crisis has spurred a lot of interest among scholars and public audience Strangely enough the impact of the crisis on innovation has been largely underestimated This books can be regarded as a complementary reading for those interested in the effect of the crisis with a particular focus on Europe *CHRISTIANS AND ECONOMICS* Kerby Anderson,2016-07-27 Economics affects our daily lives and Christians need to think about how to apply biblical principles to money investment borrowing and spending They also need to understand the free enterprise system and know how to defend capitalism Chapters in this book not only look at broad economic principles but a section of the book is devoted to the challenges we face in the 21st century from globalization and tough economic times A section of the book also provides an in depth look at other important social and economic issues gambling welfare that we face every day Some questions that Anderson will answer are What does the Bible say about economics How should Christians think about work How should the government deal with poverty Is America going broke How can we find financial security Are we headed down the road to serfdom How are we affected by materialism and consumerism Iceland's Financial Crisis Valur Ingimundarson,Philippe Urfalino,Irma Erlingsdóttir,2016-07-01 Being the first casualty of the international financial crisis Iceland was in many ways turned into a laboratory when it came to responding to one of the largest corporate failures on record This edited volume offers the most wide ranging treatment of the Icelandic financial crisis and its political economic social and constitutional consequences Interdisciplinary with contributions from historians economists sociologists legal scholars political scientists and philosophers it also compares and contrasts the Icelandic experience with other national and global crises It examines the economic magnitude of the crisis the social and political responses and the unique transitional justice mechanisms used to deal with it It looks at backward looking elements including a societal and legal reckoning which included the indictment of a Prime Minister and jailing of leading bankers for their part in the financial crisis and forward looking features such as an attempt to rewrite the Icelandic constitution Throughout it underscores the contemporary relevance of the Icelandic case While the Icelandic economic recovery has been much quicker than expected it shows that public faith in political elites has not been restored This text will be of key interest to scholars policy makers and students of the financial crisis in such fields as European politics international political economy comparative politics sociology economics contemporary history and more broadly the social sciences and humanities **Theonomics** Andrew Lightbown,Peter Sills,2014-07-15 Theonomics offers a series of reflections on how Christian ideas can be integrated into the economic sphere **The Human Rights**

Covenants at 50 Daniel Moeckli, Helen Keller, Corina Heri, 2018-06-06 Half a century ago on 16 December 1966 the UN General Assembly adopted the International Covenant on Civil and Political Rights ICCPR and the International Covenant on Economic Social and Cultural Rights ICESCR While the adoption of the two UN human rights covenants was celebrated all over the world their 50th anniversary has received very little attention from the international community The present book marks this anniversary by taking stock of the first half century of the existence of what are probably the world's two most important human rights treaties It does so by reflecting on what the covenants have achieved or failed to achieve in the years that have passed by determining and comparing their current influence in the various regions of the world and by assessing their potential roles in the future The book contains papers that were presented during a symposium held in Zurich in 2016 which brought together experts and stakeholders from a range of disciplines and world regions Some fundamental issues that are addressed by the contributors are as old as the two covenants themselves They concern for example the division of human rights into first and second generation rights and the question of whether there should be one central monitoring body possibly a world court or more than just one However the contributors go beyond such questions that have been explored before they develop new answers to old questions and point to new challenges
