Economic Planning Policies In Britain:

Economic Planning and Policies in Britain, France and Germany Geoffrey Denton, Murray Forsyth, Malcolm MacLennan, 2017-06-14 Examining the innovations of economic policy in the UK France and Germany in the 1960s this book originally published in 1968 assesses the degree of success of these policies and draws conclusion for the orientation of future policy The book contrasts the long history of national planning in France with the equally long history of anti planning ideology in Germany and by close examination of the actual policies brings out the realities that lie behind the public attitudes It discusses the problems which lead to planning interventions followed by a chapter on the UK France and Germany It examines in details particular adaptations of policy namely quantitative programming monetary policy fiscal policy public expenditures regional policy prices and incomes policy and the balance of payments comparing developments in all 3 countries It also looks at the beginning of economic planning at the level of the EEC with particular implications for British entry

Economic Planning and Policies in Britain, France and Germany Geoffrey Denton, Murray Forsyth, Malcolm MacLennan, 2017-06-14 This book originally published in 1968 contrasts the long history of national planning in France with the equally long history of anti planning ideology in Germany and by close examination of the actual policies brings out the realities that lie behind the public attitudes

Economics and Economic Policy in Britain, 1946-1966 Terence Wilmot Hutchison, 2003 Partly a survey of what has been written regarding Britain's policy problems since 1946 full employment the sources and methods of controlling inflation and the measures to promote economic growth partly an study of issues such as economic

British Planning Policy Mark Tewdwr-Jones, 2003-09-02 First Published in 1995 Routledge is an imprint of Taylor Francis an informal company

Managing the British Economy Richard Bailey, 2023-05-31 First published in 1968 Managing the British Economy attempts to trace the development of what has passed for economic planning in Britain in the 1960s and at the same time to observe the activities of those engaged in the operation and the effect of their actions on business and industry In writing this book the author has had in mind the difficulties of businessmen in keeping track of who does what in the Economy Experience in industry and in the field of management education has shown him that managers often have difficulties in placing their own operations in the national context and he attempts here to help the reader understand how the system works in practice How do the new arrangements tie in with the old How does any government influence the running of the economy What kind of system are we moving towards This is a must read for scholars and researchers of British economy and economic history of Britain

Industrial Policy in Britain 1945-1951 Martin Chick, 2002-04-30 This is a detailed archive based study of the economic planning of the Attlee governments in which the author seeks to analyse the interaction between the decisions of central planners and the micro economic effects of these decisions Throughout the book Martin Chick pays particular attention to the level pattern and quality of fixed capital investment At the same time there is a continuous concern with the struggle between politicians economists and

industrialists over the mix of pricing mechanisms and administrative orders which were to be used in this period This struggle permeated all discussions over matters such as the organisation of nationalised industries the monopoly structure of nationalised industries the allocation of resources and the promotion of higher productivity The author also asks what impact if any economic planning had on the productivity performance of the UK economy Economic Growth in Twentieth Century Britain Derek H. Aldcroft, Peter Fearon, 1969-11-01 *Regional Policy in Britain* Paul N. Balchin, 2021-07-11 Originally published in 1990 this book examines the extent to which the north south divide in the UK has been a reality in recent years It also reveals the degree to which the gap between the two parts of Britain has worsened An issue of enduring relevance particularly given the political drive to level up the regions the book focusses particularly on the 1980s a period when regional assistance became a victim of both monetarism and free market ideology The book reviews legislation and considers whether regional policy has been effective and consistent To widen the debate the author questions some common assumptions about regional imbalance and argues that intraregional disparities and the plight of Inner London were causes of concern no less serious than the problem of the north south imbalance Forum for Applied Research and Public Policy, 1988 **British Regionalism and Devolution** Jonathan Bradbury, John Mawson, 2014-02-04 This contributors provide a range of perspectives on the increasingly central issues of state reform European integration and British regionalism in the 1990s Using case material the contributors examine the effects of state reform and European integration on British regionalism and the devolution debate and the nature of recent central responses to the re emergence of regional and devolution issues with a particular focus on the recent policies of the Major governments and the policies of the Opposition parties They also present some evidence which suggests that state reform and EC EU developments have determined and accentuated important new trends in British regionalism and underpin the plausibility of far reaching regional and devolution reforms Policy Learning and British Governance in the 1960s Hugh Pemberton, 2004-07-12 Why did Britain's economic policy revolution in the 1960s achieve so little Drawing on the latest political science theories of policy networks and policy learning Hugh Pemberton outlines a new model of economic policy making and then uses it to interrogate recently released government documents In explaining both the radical shift in policy and its failure to achieve its full potential this book has much to say about the problems of British governance throughout the whole of the postwar period Labor and Industry in Britain, 1948 **British and Public Policy 1776-1939** S. G. Checkland, 1983 An account of the evolution of British public policy from the Industrial Revolution to 1939 **Michael Young, Social Science, and the British Left, 1945-1970** Lise Butler, 2020-09-02 In post war Britain left wing policy maker and sociologist Michael Young played a major role in shaping British intellectual political and cultural life using his study of the social sciences to inform his political thought In the mid twentieth century the social sciences significantly expanded and played a major role in shaping British intellectual political and cultural life Central to this intellectual shift was the left wing policy maker and sociologist Michael Young As a Labour

Party policy maker in the 1940s Young was a key architect of the Party's 1945 election manifesto *Let Us Face the Future*. He became a sociologist in the 1950s publishing a classic study of the East London working class *Family and Kinship in East London* with Peter Willmott in 1957 which he followed up with a dystopian satire *The Rise of the Meritocracy* about a future society in which social status was determined entirely by intelligence. Young was also a prolific social innovator founding or inspiring dozens of organisations including the Institute of Community Studies, the Consumers Association, *Which* magazine, the Social Science Research Council and the Open University. Moving between politics, social science and activism, Young believed that disciplines like sociology, psychology and anthropology could help policy makers and politicians understand human nature which in turn could help them to build better political and social institutions. This book examines the relationship between social science and public policy in left wing politics between the end of the Second World War and the end of the first Wilson government through the figure of Michael Young. Drawing on Young's prolific writings and his intellectual and political networks, it argues that he and other social scientists and policy makers drew on contemporary ideas from the social sciences to challenge key Labour values like full employment and nationalisation and to argue that the Labour Party should put more emphasis on relationships, family and community. Showing that the social sciences were embedded in the project of social democratic governance in post war Britain, it argues that historians and scholars should take their role in British politics and political thought seriously. *The Treasury and British Public Policy 1906-1959* G. C. Peden, 2000-03-02. This authoritative history of the Treasury provides a new perspective on public policy making in the twentieth century as it explores the role and functions of the Chancellor of the Exchequer and the consequent implications for the changing role of the Treasury. As the central department in British government, the Treasury plays a key role in decisions on public expenditure and on raising taxes and loans. Professor Peden traces the development of the Treasury's responsibility for managing the national economy and looks at how it became increasingly involved in international relations from the time of the First World War. In further examining the relations between ministers and their official advisers, this history explores the growing influence of economists in Whitehall. *British Macroeconomic Policy since 1940* Jim Tomlinson, 2014-06-03. Originally published in 1985, Jim Tomlinson charts the route of British macroeconomic policy in the post war era. This book argues that the objectives of macroeconomic policy have not been constant; that the emphasis has shifted from one item to another over time and that this uncertainty and inconsistency over objectives goes a long way to explaining why macroeconomics management has not been a startling success. *Inventing the Built Environment* Juliana Yat Shun Kei, 2024-06-28. Why and how was the term 'built environment' first introduced? *Inventing the Built Environment* retrieves the origin of this ubiquitous term. The articulation of the 'built environment' Kei demonstrates coincided with the redefinition of education, research and professional practices in architecture and town planning in the 1960s Britain. Concentrating on the half decade during which the term permeated the architectural and planning professions, this book recalls a time when the built

environment was conceived as a part of the British government's effort in national economic planning. *Inventing the Built Environment* unpacks the proposal for a Research Council for the Built Environment to mobilise architecture and town planning for political economy. How a relatively small group of architects, planners, politicians and researchers transposed scientific thoughts from biology, economics and computation into the built environment will be considered too. Kei highlights the assumptions about and classification of the population that were made when inventing the built environment. The architectural and biosocial implications of the making and remaking of this architectural environmental notion in Britain and beyond will be revealed through the works of pre-eminent architect-planners including Richard Llewelyn Davies and William Holford. At a time when environmental concerns again take the front seat of architectural and planning debates, this book offers for scholars and students an alternative lens to reflect on the assumptions and bias that can be embedded in our architectural lexicons.

Austerity in Britain Ina Zweiniger-Bargielowska, 2000-05-04. Austerity in Britain is the first book to explore the entire episode of rationing, austerity and fair shares from 1939 until 1955. These policies were central to the British war effort and to post-war reconstruction. The book analyses the connections between government policy, consumption, gender and party politics during and after the Second World War. The economic background to austerity, the policy's administration and changes in consumption standards are examined. Rationing resulted in at times extensive black markets and popular attitudes to the policy ranged from wartime acquiescence to post-war discontent. Austerity in Britain qualifies the myth of common sacrifice on the home front and highlights the limitations of the fair shares policy, which failed to achieve genuine equality between classes or between men and women. The continuation of rationing and austerity policies after 1945 was central to party politics. Disaffection, particularly among women, undermined Labour's popularity, while the Conservatives' critique of austerity was instrumental to the party's victories at the general elections of 1951 and 1955.

Spatial Planning Systems of Britain and France Philip Booth, Michelle Breuillard, Charles Fraser, Didier Paris, 2007-03-12. Exploring the similarities and differences between the spatial planning in Great Britain and France, this book draws on the outcomes of the Franco-British Planning Study Group. It features detailed analysis and case studies.

How Europe Shapes British Public Policy Janice Morphet, 2014-10-08. Britain's relationship with the European Union (EU) is frequently viewed as simple by the media and politicians. In ways never really explained, the EU has managed to take away Britain's sovereign powers and has the ability to determine much of its legislation. The history of how this has occurred is never discussed, unlike other countries in Europe. *How Europe shapes British public policy* examines the development of the EU as a sectarian issue in the UK. It discusses the effects of disengagement through the political practices of policy making and the implications that this has had for depoliticisation in government and the civil service. It considers the effects of EU membership in shaping key policy areas: trade and privatisation, the single market and the environment, and subsidiarity in the development and implementation of devolved and decentralised governance. This book gives new and essential insights for students and practitioners of politics.
