Economic Priorities For A Labour Government:

Economic Priorities for a Labour Government Roy Hattersley, 1987-04-01 *The Politics of Recession* Maurice Mullard, 2011-01-01 This timely book utilizes the tools of politics economics and public policy to explore the causes of the recent global financial crisis which the author argues can be explained as the absence of a public interest perspective in policy making Maurice Mullard points out that recessions are not collective shared experiences Recessions create winners and losers Furthermore recessions are not an external event but reflect the outcomes of the policy process The author looks beyond economic explanations for the economic crisis and instead points towards a structural explanation He explores the concept of social structures the effects of the relationships between power and influence and the role of ideology and income inequalities as contributory factors The commitment to deregulated financial markets created an over the counter derivatives market worth some 640 trillion dollars compared to a global GDP worth 65 trillion dollars The growth of derivatives markets the role of credit rating agencies major shifts in policy making and growing income inequalities are described as major factors explaining the present economic recession The absence of a public interest perspective the breakdown of trust in institutions policy makers dependence on financial contributions the housing bubble and the increased concentration of income have distorted the democratic process Thought provoking and stimulating this book will provide a fascinating study for students and academics with an interest in politics economics political economy and public policy *Public Policy for the 21st Century* Fraser, Neil, Hills, John, 2000-12-06 This book draws together a collection of lively and authoritative essays on the future of public policy by distinguished academics in the field Compiled in memory of Henry Neuburger a leading economic analyst and adviser the essays together form an excellent introduction to key issues in contemporary policy making

Blaming the Government: Citizens and the Economy in Five European Democracies Christopher A. Anzalone, 2016-09-16 This work examines the impact of macroeconomic conditions on public support for the government in Britain France Netherlands Denmark and Germany *The Making of Eurosceptic Britain* Chris Gifford, 2020-09-10 What has been the political impact of the Eurozone Debt Crisis in the UK To what extent have the bank collapses and bailouts reinforced Britain's Eurosceptic trajectory In this revised and updated second edition Chris Gifford addresses these key questions reflecting on the Labour government's approach to Europe while exploring the extensive mobilisation of Eurosceptic forces in opposition to the Conservative led coalition government The book examines the extent to which Euroscepticism has become dominant within both the Conservative leadership and the bulk of its parliamentary party and how this has affected the relationship of the coalition government with the European Union By placing current attitudes to Europe in relation to the wider history of Britain's post war interaction with its continental neighbours the author shows how British Euroscepticism is structural in nature and a persistent and institutionalised feature of UK Politics *Best Practices Guidelines and Toolkit on Engaging the Private Sector in Skills Development* United Nations Development Programme

Istanbul International Center for Private Sector in Development (UNDP IICPSD), The Statistical, Economic and Social Research and Training Centre for Islamic Countries (SESRIC), 2017-01-01 Best Practices Guidelines and Toolkit on Engaging the Private Sector in Skills Development jointly developed by UNDP IICPSD and Statistical Economic and Social Research and Training Centre for Islamic Countries SESRIC will inspire motivate and mobilize the private sector for its active engagement in skills training for employment The guidelines and toolkit will help stakeholders to collaborate more closely with companies chambers of commerce and business associations It outlines how the private sector could contribute to the employability of individuals through providing labour market signals improving technical and practical skills acquisition integrating industry know how and expertise to every step of the trainings and help link skills to placement opportunities These will ensure that disadvantaged youth women and other marginalized groups are ready to enter the labour force with possessing the right skills they need to thrive The 2030 Agenda for Sustainable Development highlights the importance of skills and lifelong learning not only to make individuals competitive in the labour market but also to empower people Sustainable Development Goal SDG 4 reminds us that inclusive quality education is critical for human development SDG 8 reminds us that decent work and economic growth can only be achieved through productive capacities The relationship between skills and employability is fundamental to the success of the SDGs from eradicating poverty to achieving gender equality to empowering women and girls Bridging the skills mismatch for greater employability will be a huge leap forward in achieving the SDGs This publication guarantees to guide all stakeholders in the direction of improving the existing skills and reducing the skills mismatch for greater employability of the target groups The Guidelines and Toolkit will complement existing UNDP work on sustainable employment and inclusive growth and augments the related efforts of other international organizations

Unions and Employment in a Market Economy Andrew Brady, 2019-03-04 Due to the sharp declines in trade union density and collective bargaining coverage post 1979 the shift by trade unions towards political action has had significant implications for employment relations regulation in contemporary Britain Yet there remains insufficient discussion of the factors of influence affecting changes in the political action process from a historical and contemporary perspective Unions and Employment in a Market Economy will evidence how trade unions were able to offset environmental constraints through a progressive focus on political action despite diminished power in the Labour Party's structures and the wider economy The book presents four legislative events categorised as functional equivalents enacted in two different periods of Labour governance 1974-79 and 1997-2010 The selected events are the Social Contract 1974-79 National Minimum Wage 1998 Employment Relations Act 1999 and the Warwick Agreement 2004 The book's findings lend credence to the proposition that in a liberal market economy there is a valuable dividend associated with trade union political exchange through the Labour Party

Architects of Austerity Aaron Major, 2014-04-23 Architects of Austerity argues that the seeds of neoliberal politics were sown in the 1950s and 1960s Suggesting that the postwar era was less socially democratic than we think Aaron

Major presents a comparative historical analysis of economic policy in the United States the United Kingdom and Italy during the early 1960s In each of these cases domestic politics shifted to the left and national governments repudiated the conservative economic policies of the past promising a new way forward Yet these social democratic experiments were short lived and deeply compromised Why did the parties of change become the parties of austerity Studies of social welfare policy in these countries have emphasized domestic factors However Major reveals that international social forces profoundly shaped national decisions in these cases The turn toward more conservative economic policies resulted from two critical shifts on the international stage International monetary organizations converged around an orthodox set of ideas and a set of institutional transformations within the Bretton Woods system made the monetary community more central to financial management These changes gave central banks and treasuries the capacity to impose their ideas on national governments Architects of Austerity encourages us to critically consider the power that we vest in public financial authorities which have taken on an ever larger role in international economic regulation

The Political Economy of Postwar Reconstruction Peter Burnham,1990-02-19

Britain and the Economic Problem of the Cold War Till Geiger,2017-07-05 Many accounts of British development since 1945 have attempted to discover why Britain experienced slower rates of economic growth than other Western European countries In many cases the explanation for this phenomenon has been attributed to the high level of defence spending that successive British post war governments adhered to Yet is it fair to assume that Britain s relative economic decline could have been prevented if policy makers had not spent so much on defence Examining aspects of the political economy and economic impact of British defence expenditure in the period of the first cold war 1945 1955 this book challenges these widespread assumptions looking in detail at the link between defence spending and economic decline In contrast to earlier studies Till Geiger not only analyses the British effort within the framework of Anglo American relations but also places it within the wider context of European integration By reconsidering the previously accepted explanation of the economic impact of the British defence effort during the immediate post war period this book convincingly suggests that British foreign policy makers retained a large defence budget to offset a sense of increased national vulnerability brought about by a reduction in Britain s economic strength due to her war effort Furthermore it is shown that although this level of military spending may have slightly hampered post war recovery it was not in itself responsible for the decline of the British economy

Government and the Economy Today Graham P. Thomas,1992 An undergraduate textbook dealing with the role of government in the economy for a course on British politics Emphasizes the rise and fall of Keynesian demand management Distributed in the US and Canada by St Martin s Press Annotation copyright by Book News Inc Portland OR

Modern Social Politics in Britain and Sweden Hugh Heclø,2024-10-31 Modern Social Politics in Britain and Sweden was the winner of the 1974 Woodrow Wilson Foundation Book Award for the best book published in the United States on government politics or international affairs Heclø painstakingly analyses the evolution of income maintenance policies over the past 100 years in

Britain and Sweden in an effort to explain why these policies evolved as they did He thus poses a question of fundamental importance to both policy and political science and he produces an answer which is neither obvious nor dramatic but which is original discriminating and persuasive His book is an unusually judicious combination of political theory historical research comparative method and policy analysis And not to be overlooked is the fact that all this is expressed in a crisp literate prose style of the sort which has unfortunately become somewhat rare in our profession Modern Social Politics represents a major contribution to the discipline on not one but several fronts and stands as a model of how political scientists can tease out of history answers to the question why Samuel P Huntington Chairman of the Award Committee I only wish I had this book at my disposal when I was lecturing on comparative welfare states as a visiting professor Heclo has done his work thoroughly delving equally into the British records of which I have some knowledge and into the Swedish records where I have none I can only assume that he is bilingual a great advantage in a work of this kind he has put this facility to excellent use Edwin Lord Samuel Journal of Economic Literature This book is an important and significant contribution to our understanding of the politics of income maintenance policies on a cross national basis and it provides a fascinating study of the impact of political culture on the policymaking process A valuable contribution to all students of European politics and to students of comparative public policy Perspective

Central Debates in British Politics John Benyon, David Denver, Justin Fisher, 2014-09-25 Central Debates in British Politics focuses on British politics in a changing social economic and institutional context The book explores issues and debates using a variety of approaches and techniques It is written and edited by a team of leading experts who analyse key issues in a highly structured and thematic manner *Creating Freedom* Raoul Martinez, 2017-01-31 The ideal of freedom is at the heart of our political and economic system It is foundational to our sense of justice our way of life our conception of what it is to be human But are we free in the way that we think we are In *Creating Freedom* Raoul Martinez brings together a torrent of mind expanding ideas facts and arguments to dismantle sacred myths central to our society myths about free will free markets free media and free elections From the lottery of our birth to the consent manufacturing influence of concentrated power this far reaching manifesto lifts the veil on the mechanisms of control that pervade our lives It shows that the more we understand how the world shapes us the more effectively we can shape the world A highly original exploration of the most urgent questions of our time *Creating Freedom* reveals that we are far less free than we like to think but it also shows that freedom is something we can create together In fact our very survival may depend on our doing so

The Management of the British Economy, 1945-2001 Nicholas Woodward, 2004 Since 1945 British governments have played an active role in managing the economy in the interests of securing high employment economic growth and low inflation with their approach evolving in response to changing economic circumstances intellectual shifts and past policy failures This book provides an overview of economic management particularly financial management and addresses how it has changed and why it has not always been successful It examines

the actual policies that were introduced the problems that various governments faced in implementing them and how the approach to policymaking changed It also examines the main phases of economic policymaking and the conduct of policymaking as there is a widespread consensus that until recently short run economic management could have been more successful than it was

Much Governed Nation Pt1 Vol 3 W.H Greenleaf,2014-05-12 First published in 2003 Part of the British Political Tradition collection this is Part one Volume III This account of the emergence of contemporary political institutions in Britain follows volumes dealing with The Rise of Collectivism and The Ideological Heritage both of which appeared in 1983 It shows how in the perspective these other works describe the traditional machinery of government expanded notably and was in many ways completely altered

The Developing British Political System Ian Budge,2014-09-25 Examines the state of the British political system during the 1990s covering such areas as economic difficulties and government response bureaucratic networks parties and electors political communications and relations with outside governments

Conspicuous Corporation Neil J. Mitchell,2025-10-01 Why despite the political advantages of business in the policy process do business interests still sometimes lose policy fights in the political system Money mobility connections and incentives load the political system in favor of business interests Against the odds when the conspicuous corporation meets the virtuous politician business often loses in the policy struggle In answering this question Neil J Mitchell reassesses the dimensions of business power in the political system and provides a fresh consideration of how economic power translates into political power Charles Lindbloom s analysis of business power provides a point of departure for an examination of the evidence on business influence over public preferences on the importance of business confidence to politicians and on the financial and lobbying activities of business interests Mitchell then considers the position of labor unions the traditional opposition to business in contemporary policy making Finally he discusses the conditions under which business power breaks down This is accompanied by an analysis of a variety of cases in which business has attempted to influence the policy making process to test his findings Extensively researched this book sheds new light on the activities of business in politics on the strength of interests opposing business and on business policy failures in the United States and the United Kingdom The empirical analysis builds on survey data extensive interviews and archival research The relationship between business and government is a core topic for economists sociologists and political scientists taking us from heroic struggles over policy to sordid episodes of political corruption The book will be of interest to scholars in the social sciences and in business schools as well as to the general reader interested in power and influence in representative democracies Neil Mitchell is Professor of Political Science University of New Mexico

Federalism and European Union David H. McKay,1999 Federalism and European Union examines the decision to adopt EMU as a federal bargain by the European Union as designed to provide the countries of Europe with a bulwark against the volatility of the international economy Although the precise motives of the participants varied from country to country all were agreed that only federal like political

and economic arrangements would provide a guarantee of economic and political stability The author provides a coherent theoretical framework for understanding the decisions taken at Maastricht and later By making comparisons with other federations the book also examines the political and economic conditions under which federations succeed or fail It concludes that EMU will only be politically sustainable if novel ways are found to limit centrally imposed fiscal and spending policies

Labour's First Century Duncan Tanner, Pat Thane, Nick Tiratsoo, 2000-09-11 The Labour Party's centenary is an appropriate moment to evaluate its performance across the twentieth century and to reflect on why a party which has so many achievements to its credit nonetheless spent so much of the period in opposition Duncan Tanner Pat Thane and Nick Tiratsoo have assembled a team of acknowledged experts who cover a wide range of key issues from economic policy to gender The editors also provide a lucid accessible introduction Labour's First Century covers the most important areas of party policy and practice always placing these in a broader context Taken together these essays challenge those who minimize the party's contribution whilst they also explain why mistakes and weaknesses have occurred Everyone interested in British political history whether supporters or opponents of the Labour Party will need to read Labour's First Century
