Economics Of Heinrich Pesch:

The Economics of Heinrich Pesch Richard E. Mulcahy, 1952 Heinrich Pesch on Solidarist Economics Heinrich Pesch, 1998 Heinrich Pesch on Solidarist Economics presents excerpts from Lehrbuch der Nationalökonomie written by Pesch and probably the longest economics textbook ever written in English for the first time This five volume work appeared in several editions in German between 1905 and 1926 With this text Pesch created one of the few original economics works in which he proposed the solidarist system of human work in juxtaposition to individualistic capitalism and collectivistic socialism both of which he critiqued and opposed Through this proposal he also introduced a social philosophy solidarism The translator provides some of the most representative excerpts to demonstrate the nucleus of what the German Jesuit scholar attempted to accomplish in his textbook His ideas prominently impacted the Roman Catholic Church's social teachings from 1931 through the present teachings of Pope John Paul II **The Economics of Heinrich Pesch. Social Economics: Retrospect and Prospect Mark A. Lutz, 2012-12-06 At the very heart of the conception of the present volume lies the conviction that social economics is a highly pluralistic discipline inspired and enriched by several

often radically different world views Schumpeterian visions and at times even quite antagonistic social doctrines Yet in spite of all these differences social economists can nevertheless be seen and also approached as some kind of economic brotherhood for various reasons dissatisfied with the austere value free diet offered by the pOSitivistic neoclassical paradigm What all social economists seem to have in common is a profound interest in values and the process of valuation in order to more fully understand both economic behavior and the possibilities of improving the economic system Such a distinguishing characteristic is also well articulated and enshrined in Article I of the Constitution of the Association of Social Economics where we are told that the aims and objectives of the Association shall be 1 To foster research and publication centered on the reciprocal relationship between economic science and broader questions of human dignity ethical values and social philosophy and to encourage the efforts of all scholars who are dedicated to exploring the ethical presuppositions and implications of economic science 2 To consider the personal and social dimensions of economic problems and to assist in the formulation of economic policies consistent with a concern for ethical values and pluralistic community and the demands of personal dignity
