Dreams of Difference, Songs of the Same Amy Herzog,2010 Musical spectacles are excessive and abstract reconfiguring time and space and creating intense bodily responses Amy Herzog s engaging work examines those instances where music and movement erupt from within more linear narrative frameworks The representational strategies found in these films are often formulaic repeating familiar story lines and stereotypical depictions of race gender and class Yet she finds the musical moment contains a powerful disruptive potential Dreams of Difference Songs of the Same investigates the tension and the fusion of difference and repetition in films to ask How does the musical moment work Herzog looks at an eclectic mix of works including the Soundie and Scopitone jukebox films the musicals of French director Jacques Demy the synchronized swimming spectacles of Esther Williams and an apocalyptic musical by Taiwanese director Tsai Ming liang Several refrains circulate among these texts their reliance on clich s their rewriting of cultural narratives and their hallucinatory treatment of memory and history Drawing on the philosophical work of Gilles Deleuze she explores all of these dissonances as productive forces and in doing so demonstrates the transformative power of the unexpected 5001

Matthew Lau, 2019-10-01 Classical music masterworks have long played a key supporting role in the movies silent films were

often accompanied by a pianist or even a full orchestra playing classical or theatrical repertory music yet the complexity of this role has thus far been underappreciated. *Sounds Like Helicopters* corrects this oversight through close interpretations of classical music works in key modernist films by Francis Ford Coppola, Werner Herzog, Luis Buñuel, Stanley Kubrick, Jean-Luc Godard, Michael Haneke, and Terrence Malick. Beginning with the famous example of Wagner's *Ride of the Valkyries* in *Apocalypse Now*, Matthew Lau demonstrates that there is a significant continuity between classical music and modernist cinema that belies their seemingly ironic juxtaposition. Though often regarded as a stuffy conservative art form, classical music has a venerable avant-garde tradition, and key films by important directors show that modernist cinema restores the original subversive energy of these classical masterworks. These films, Lau argues, remind us of what this music sounded like when it was still new and difficult; they remind us that great music remains new music. The pattern of reliance on classical music by modernist directors suggests it is not enough to watch modernist cinema; one must listen to its music to sense its prehistory, its history, and its obscure prophetic future.

Meaning and Interpretation of Music in Cinema David P. Neumeyer, 2015-08-17 By exploring the relationship between music and the moving image in film narrative, David Neumeyer shows that film music is not conceptually separate from sound or dialogue but that all three are manipulated and continually interact in the larger acoustical world of the sound track. In a medium in which the image has traditionally trumped sound, Neumeyer turns our attention to the voice as the mechanism through which narrative, dialog, speech, and sound effects music come together. Complemented by music examples, illustrations, and contributions by James Buhler, *Meaning and Interpretation of Music in Cinema* is the capstone of Neumeyer's 25-year project in the analysis and interpretation of music in film.

Dissenting Words Jacques Rancière, 2017-09-07 *Dissenting Words* is a lively and engaging collection of interviews that span the length of Jacques Rancière's trajectory from the critique of Althusserian Marxism and the work on proletarian thinking in the nineteenth century to the more recent reflections on politics and aesthetics. Across these pages, Rancière discusses the figures, concepts, and arguments he has introduced to the theoretical landscape over the past forty years; the themes and concerns that have animated his thinking; the positions he has defended; and the wide range of objects and discourses that have attracted his attention and through which his thought has unfolded: history, pedagogy, literature, art, cinema. But more than reflecting on the continuities, ruptures, and deviations in his thought, Rancière recasts his work in a different discursive register. And the pleasure we experience in reading these interviews, with their asides, displacements, and reconstructions, stems from the way Rancière transforms the voice of the thinker commenting on his texts and elucidating his concepts into another and equally rich manifestation of his thought. Core sections of this edition are translated from the French publication *Et tant pis pour le gens fatigués* by Jacques Rancière, Editions Amsterdam 2009, published by arrangement with Agence littéraire Pierre Astier Associés.
