First Seven Days A Philosophical Commentary On The Creation Of Genesis

Claire Elise Katz

First Seven Days A Philosophical Commentary On The Creation Of Genesis:

Norbert M. Samuelson: Reasoned Faith Hava Tirosh-Samuelson, Aaron W. Hughes, 2015-08-25 Norbert M Samuelson is Harold and Jean Grossman Chair of Jewish Studies and Professor of Religious Studies at Arizona State University in Tempe Arizona Trained as an analytic philosopher he went on to establish the Academy of Jewish Philosophy in 1980 which contributed greatly to the professionalization of Jewish philosophy in America An ordained Reform rabbi a constructive theologian and a public intellectual Samuelson has insisted that philosophy is the very heart of Judaism and that in order to survive in the 21st century Judaism must rethink itself in light of contemporary science Through his scholarship and organizational work he has brought a Jewish voice to the dialogue of religion and science Viewing Jewish philosophy as central to the understanding of the Jewish past Samuelson has explicated the philosophical dimension of Judaism from the Bible to the present

Judaism and the Doctrine of Creation Norbert M. Samuelson, 1994-11-24 The topic of this book is creation It breaks down into discussions of two distinct but interrelated questions what does the universe look like and what is its origin The opinions about creation considered by Norbert Samuelson come from the Hebrew scriptures Greek philosophy Jewish philosophy and contemporary physics His perspective is Jewish liberal and philosophical It is Jewish because the foundation of the discussion is biblical texts interpreted in the light of traditional rabbinic texts It is philosophical because the subject matter is important in both past and present philosophical texts and to Jewish philosophy in particular Finally it is liberal because the authorities consulted include heterodox as well as orthodox Jewish sources The ensuing discussion leads to original conclusions about a diversity of topics including the limits of human reason and religious faith and the relevance of scientific models to religious doctrine

Abraham Abulafia's Esotericism Moshe Idel, 2020-10-12 This book focuses on Abraham Abulafia's esoteric thought in relation to Maimonides Maimonideans and Islamic thought in the line of Leo Strauss theory of the history of philosophy A survey of Abulafia's sources leads into an analysis of the esoteric meaning on the famous parable of the three rings considering also the possible connection between this parable which Abulafia inserted into a book dedicated to his student the 13th century rabbi Nathan the wise and the Lessing's Play Nathan the Wise The book also examines Abulafia's universalistic understanding of the nature of the Bible the Hebrew language and the people of Israel or the Sinai revelation The universal aspects of Abulafia's thought have been put in relief against the more widespread Kabbalistic views which are predominantly particularistic A number of texts have also been identified here for the first time as authored by Abulafia

Jewish Philosophy Norbert Samuelson, 2006-09-19 Surveys the history of Jewish philosophy from the formation of the Hebrew Scriptures This book is intended for courses in Jewish philosophy as well as for more general courses in religious thought Judaism and philosophy It highlights the Hebrew Scriptures the Midrash medieval rabbinic commentaries and modern works of Jewish theology

Creation David Fergusson, 2014-09-21 This book explores anew the theme of creation in Scripture tradition and contemporary theology David Fergusson defends the classical account

of creation out of nothing but gives more sustained attention than the Christian tradition typically has given to the holistic significance of the created world Offering both doctrinal exposition and apologetic argument Fergusson discusses creation in relation to the problem of evil and the fall divine providence deism Darwinian evolution environmental ethics animal rights and other matters Unusually the book also touches on the topic of extraterrestrial intelligence Concise and accessible Fergusson's Creation will be particularly useful to students and others seeking a well informed overview of this important subject

The Death of Jacob Kerry Dwaine Lee, 2015-10-20 In The Death of Jacob Narrative Conventions in Genesis 47 28 50 26 Kerry Lee investigates the deathbed story of the patriarch Jacob and uncovers the presence of a variety of conventional structures underlying its composition especially a conventional deathbed story or type scene also found in numerous other texts in the Hebrew Bible and non canonical Jewish literature Finding fault both with traditional diachronic approaches as well as more recent synchronic studies Lee uses an eclectic but coherent blend of contemporary methods drawn from narratology linguistics ritual theory legal theory assyriology and other disciplines to show that despite its probably composite pre history the last three chapters of Genesis have been intentionally and artfully structured by the hand predominately responsible for their final form *Decolonizing the Theological Curriculum in an Online Age* Chimera Nyika, Y. Mvula, 2022-10-28 The second annual conference of the Theological Society of Malawi was held at the historic Ekwendeni Campus of the University of Livingstonia from 14 to 16 September 2021 It took up the urgent theme of the decolonization of the theological curriculum Though Malawi has been an independent country for 58 years coloniality still stalks the land This book calls theologians to take a lead in decolonization while navigating the educational task in an online age With more than twenty institutions teaching theology at tertiary level in Malawi and now united in the Theological Society of Malawi there is huge potential to learn from each other in developing the theological curriculum in the country While the primary audience is unashamedly a Malawian one this book might also prove relevant in other contexts where there is a reckoning with past and present experience of colonialism The book is a call to action and is published in the hope that it will have lasting impact on the teaching and learning of theology in Malawi and beyond

Encyclopedia of Comparative Iconography Helene E. Roberts, 2013-09-05 First published in 1998 Routledge is an imprint of Taylor Francis an informa company

Uncommon Unity Richard Lints, 2022-10-19 A crucial book Timothy Keller Our world is facing increasing hostilities Political and cultural differences rage even among people who otherwise show goodwill And the church is no stranger to extreme polarization theological backbiting and political squabbling Jesus's prayer in John 17 that the church be one as he and the Father are one seems increasingly unattainable But what if Scripture actually provides the key for thinking about unity in diversity In Uncommon Unity Wisdom for the Church in an Age of Division Richard Lints explores the nature of diversity and how Christians can think more clearly about unity in an increasingly polarized age Drawing on theological historical and sociological resources Lints exposes problems with the inclusion narrative of democracy and shows a better way forward for

fostering unity in the midst of extreme diversity If we are to think rightly about diversity wisdom is required for the church in our late modern world Through wisdom Christians can display real unity in diversity and bear witness of the God who made them for himself as diverse members of his one body Readers of *Uncommon Unity* will be heartened that Scripture and Christian tradition provide an antidote to division *Time Matters* T.M. Rudavsky,2012-02-01 Despite the importance of time and cosmology to Western thought surprisingly little attention has been paid to these issues in histories of Jewish philosophy Focusing on how medieval philosophers constructed a philosophical theology that was sensitive to religious constraints and yet also incorporated compelling elements of science and philosophy T M Rudavsky traces the development of the concepts of time cosmology and creation in the writings of Ibn Gabirol Maimonides Gersonides Crescas Spinoza and others

Science, Religion and Society Arri Eisen,Gary Laderman,2015-03-04 This unique encyclopedia explores the historical and contemporary controversies between science and religion It is designed to offer multicultural and multi religious views and provide wide ranging perspectives Science Religion and Society covers all aspects of the religion and science dichotomy from humanities to social sciences to natural sciences and includes articles by theologians religion scholars physicians scientists historians and psychologists among others The first section General Overviews contains essays that provide a road map for exploring the major challenges and questions in science and religion Following this the Historical Perspectives section grounds these major questions in the past and demonstrates how they have developed into the six broad areas of contemporary research and discussion that follow These sections Creation the Cosmos and Origins of the Universe Ecology Evolution and the Natural World Consciousness Mind and the Brain Healers and Healing Dying and Death and Genetics and Religion organize the questions and research that are the foundation of the enormous interest and controversy in science and religion today *Levinas, Judaism, and the Feminine* Claire Elise Katz,2003-11-14 Challenging previous interpretations of Levinas that gloss over his use of the feminine or show how he overlooks questions raised by feminists Claire Elise Katz explores the powerful and productive links between the feminine and religion in Levinas s work Rather than viewing the feminine as a metaphor with no significance for women or as a means to reinforce traditional stereotypes Katz goes beyond questions of sexual difference to reach a more profound understanding of the role of the feminine in Levinas s conception of ethical responsibility She combines feminist interpretations of Levinas with interpretations that focus on his Jewish writings to reveal that the feminine provides an important bridge between his philosophy and his Judaism Katz s reading of Levinas s conception of the feminine against the backdrop of discussions of women of the Hebrew bible points to important shifts in contemporary philosophy toward the creation of life and care for the other

The Creativity of God Oliver Davies,2004-08-05 We have as a theological community generally lost a language in which to speak of the created ness of the world As a consequence our discourses of reason cannot bridge the way we know God and the way we know the world Therefore argues Oliver Davies a primary task of contemporary theology is the regeneration of a Christian account of the

world as sacramental leading to the formation of a Christian conception of reason and a new Christocentric understanding of the real Both the Johannine tradition of creation through the Word and a Eucharistic semiotics of Christ as the embodied sacrificial and creative speech of God serve the project of a repairal of Christian cosmology The world itself is viewed as a creative text authored by God of which we as interpreters are an integral part This is a wide ranging and convincing book that makes an important contribution to modern theology Science and the World's Religions Patrick McNamara Ph.D., Wesley J. Wildman, 2012-07-19 This trio of volumes contains essays that explore vital existential moral or metaphysical issues surrounding the relationship between the sciences and the world's religions In Science and the World's Religions experts with scientific and religious backgrounds explore vital existential or practical issues drawing on whatever sciences are relevant and engaging at least two religious traditions The multidisciplinary essays exhibit rigorous intellectual scholarly thinking but are written to clearly communicate to educated adult lay readers The first volume addresses questions about the origins and purpose of the cosmos and the human project The second volume investigates the roles of religion and spirituality in human existence considering issues ranging from the brain and religious experience to the human life cycle The third volume tackles controversies in which both religion and science are stakeholders showing how both can deepen understanding and enrich human experience Together these three books present readers with powerful tools that enable them to think through the challenge of integrating science with their religious beliefs and spiritual practices Images of Cosmology in Jewish and Byzantine Art Shulamit Laderman, 2013-05-30 Does the design of the Tabernacle in the wilderness correspond to God's blueprint of Creation The Christian Topography a sixth century Byzantine Christian work presents such a cosmology Its theory is based on the pattern revealed to Moses on Mount Sinai when he was told to build the Tabernacle and its implements after their pattern which is being shown thee on the Mount Exod 25 40 The book demonstrates through texts and images the motifs that link the Tabernacle and Creation It traces the long chain of transmission that connects the Jewish and Christian traditions from Syria and ancient Israel to France and Spain from the first through the fourteenth century revealing new models of interaction between Judaism and Christianity **The Absent Image** Elina Gertsman, 2021-06-22 Winner of the 2022 Charles Rufus Morey Award from the College Art Association Winner of the 2023 Otto Gröndler Book Prize from Western Michigan University Guided by Aristotelian theories medieval philosophers believed that nature abhors a vacuum Medieval art according to modern scholars abhors the same The notion of horror vacui the fear of empty space is thus often construed as a definitive feature of Gothic material culture In The Absent Image Elina Gertsman argues that Gothic art in its attempts to grapple with the unrepresentability of the invisible actively engages emptiness voids gaps holes and erasures Exploring complex conversations among medieval philosophy physics mathematics piety and image making Gertsman considers the concept of nothingness in concert with the imaginary revealing profoundly inventive approaches to emptiness in late medieval visual culture from ingenious images of the world's creation ex nihilo to figurations

of absence as a replacement for the invisible forces of conception and death Innovative and challenging this book will find its primary audience with students and scholars of art religion physics philosophy and mathematics It will be particularly welcomed by those interested in phenomenological and cross disciplinary approaches to the visual culture of the later Middle Ages *The Documentary Form-history of Rabbinic Literature: The halakhic sector, the Talmud of the land of Israel* (3 v.) Jacob Neusner,1998 *Revelation and the God of Israel* Norbert M. Samuelson,2002-05-23 Revelation and the God of Israel explores the concept of revelation as it emerges from the Hebrew Scriptures and is interpreted in Jewish philosophy and theology The first part is a study in intellectual history that attempts to answer the question what is the best possible understanding of revelation The second part is a study in constructive theology and attempts to answer the question is it reasonable to affirm belief in revelation Here Norbert M Samuelson focuses on the challenges given from a variety of contemporary academic disciplines including evolutionary psychology political ethics analytic philosophy of religion and source critical studies of the Bible This important book offers a unique approach to theological questions and fresh solutions to them and will appeal to those interested in the history of philosophy religious thought and Judaism **Politics by Other Means** William Grassie,2010-03-08 Politics by Other Means explores profound issues at the interface of contemporary religion and science from a global perspective Brought together and thematically organized in this volume are twenty four essays that were originally presented at conferences in China Germany India Indonesia Iran Israel Lebanon and Sri Lanka Many of the essays are more journalistic in tone and content while others adopt a more academic prose style and approach All are provocative and iconoclastic challenging scientific and religious orthodoxies exploring the great cultural ambivalences at the intersection of the domains of science and religion and holding out the possibility of a transformative politics for addressing the great challenges of the twenty first century **Jewish Faith and Modern Science** Norbert M. Samuelson,2008-10-17 In Jewish Faith and Modern Science renowned Jewish philosopher and rabbi Norbert Samuelson argues that modern Jewish philosophy has died_ that it has failed to address the challenges to traditional beliefs posed by scientific advances and is therefore no longer relevant to Jews today Samuelson confronts these challenges head on critically reflecting on how all of the forms of contemporary Judaism from orthodox to liberal to secular to new age can address questions raised by the latest scientific advances Considering questions ranging from the existence of the soul to the relationship between God and particle physics to the debate over when life begins and ends Samuelson paves the way for a rebirth of Jewish philosophy applicable to life in the modern world
