## **First World Hunger:**

First World Hunger Revisited G. Riches, T. Silvasti, 2014-09-11 Is food aid the way of the future What are the prospects for integrated public policies informed by the right to food First World Hunger Revisited investigates the rise of food charity and corporately sponsored food banks as effective and sustainable responses to increasing hunger and food poverty in twelve rich food secure societies

First World Hunger Graham Riches, 2016-07-27 First World Hunger examines hunger and the politics of food security and welfare reform 1980-95 in five liberal welfare states Australia Canada New Zealand the UK and the USA Through national case studies it explores the depoliticization of hunger as a human rights issue and the failure of New Right policies and charitable emergency relief to guarantee household food security The need for alternative integrated policies and the necessity of public action are considered essential if hunger is to be eliminated

**World Hunger** Suzanne C. Toton, 1982

**Hungry Britain** Hannah Lambie-Mumford, 2017-07-05 Examining the prolific growth of UK charitable emergency food provision over the past fifteen years Hungry Britain uses the human right to food as a pathway to developing solutions to food poverty Hannah Lambie Mumford draws on data from the country's two largest charitable food providers to explore the effectiveness of this emerging system of food acquisition its enduring sustainability and most importantly where responsibility lies for ensuring that all people can realize their human right to food She shows that the increasing tendency of charitable food providers to take responsibility for protecting people against food poverty occurs in tandem with significant cuts to the welfare state cuts shaping both the need for and nature of emergency food provision Arguing for a clear rights based framework this book envisions a future where a range of actors from the state to charities and the food industry will be jointly accountable in combating food poverty

*Know your food* Diana Elena Dumitras, Ionel Mugurel Jitea, Stef Aerts, 2023-08-07 Food production and consumption is no longer a traditional activity Every day we make choices that influence not only our health but also that of other living beings and our planet Our food cultures are changing rapidly Do we still know our food And if not is that a bad thing This book presents the state of the art in agriculture and food ethics It considers a wide range of ethics and innovation topics in agriculture aquaculture markets consumption and food culture Its multi disciplinary analysis by the many authors helps to understand our current global challenges At the same time it opens a wide range of new possibilities for future debate research and reflection towards a sustainable world The book will appeal to anyone interested in agriculture animal and food ethics To students and people looking for a quick overview it offers a wide range of issues Experienced readers will find a deepened analysis and new themes and perspectives adding to the existing body of knowledge

Food Bank Nations Graham Riches, 2018-04-19 In the world's most affluent and food secure societies why is it now publicly acceptable to feed donated surplus food dependent on corporate food waste to millions of hungry people While recognizing the moral imperative to feed hungry people this book challenges the effectiveness sustainability and moral legitimacy of globally entrenched corporate food banking as the primary response to rich world food poverty It

investigates the prevalence and causes of domestic hunger and food waste in OECD member states the origins and thirty year rise of US style charitable food banking and its institutionalization and corporatization It unmasks the hidden functions of transnational corporate food banking which construct domestic hunger as a matter for charity thereby allowing indifferent and austerity minded governments to ignore increasing poverty and food insecurity and their moral legal and political obligations under international law to realize the right to food The book s unifying theme is understanding the food bank nation as a powerful metaphor for the deep hole at the centre of neoliberalism illustrating the de politicization of hunger the abandonment of social rights the stigma of begging and loss of human dignity broken social safety nets the dysfunctional food system the shift from income security to charitable food relief and public policy neglect It exposes the hazards of corporate food philanthropy and the moral vacuum within negligent governments and their lack of public accountability The advocacy of civil society with a right to food bite is urgently needed to gather political will and advance joined up policies and courses of action to ensure food security for all Ethics of Charitable Food Leire Escajedo San-Epifanio, Esther M. Rebato

Ochoa, 2022-05-10 This book provides an in depth analysis of different dimensions of contemporary food charity It does so against the background of an increasing number of food banks and other forms of food philanthropy The book examines the incongruity of considering food donation as an expression of pure altruism Taking into account the dignity and rights of people it addresses how hunger is seen and explained in rich countries and how philanthropy and democracy coexist It looks at the relationship that exists between religious traditions and the current food donation narrative It discusses the risks of stigmatizing food recipients and clarifies ways to better deal with food poverty and food waste Paradoxically food insecurity and food waste have grown exponentially in the last decade More and more people are not able to access food properly The amount of perfectly edible food that is discarded also grows The consolidation of democracies welfare policies and economic growth do not guarantee that all citizens can meet their basic needs in the so called rich countries This book analyses the current state of affairs and presents facts and reflections from diverse sources and from a cross disciplinary perspective

*Routledge Handbook of Food as a Commons* Jose Luis Vivero-Pol, Tomaso Ferrando, Olivier De Schutter, Ugo Mattei, 2018-12-17 This Handbook provides the first comprehensive review and synthesis of knowledge and new thinking on how food and food systems can be thought interpreted and practiced around the old new paradigms of commons and commoning The overall aim is to investigate the multiple constraints that occur within and sustain the dominant food and nutrition regime and to explore how it can change when different elements of the current food systems are explored and re imagined from a commons perspective The book sparks the debate on food as a commons between and within disciplines with particular attention to spaces of resistance food sovereignty de growth open knowledge transition town occupations bottom up social innovations and organizational scales local food national policies South South collaborations international governance and multi national agreements Overall it shows the consequences of a shift to the alternative paradigm of food as

a commons in terms of food the planet and living beings Chapters 1 and 24 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

**The Routledge Handbook of Food Ethics** Mary Rawlinson, Caleb Ward, 2016-07-01 While the history of philosophy has traditionally given scant attention to food and the ethics of eating in the last few decades the subject of food ethics has emerged as a major topic encompassing a wide array of issues including labor justice public health social inequity animal rights and environmental ethics This handbook provides a much needed philosophical analysis of the ethical implications of the need to eat and the role that food plays in social cultural and political life Unlike other books on the topic this text integrates traditional approaches to the subject with cutting edge research in order to set a new agenda for philosophical discussions of food ethics The Routledge Handbook of Food Ethics is an outstanding reference source to the key topics problems and debates in this exciting subject and is the first collection of its kind Comprising over 35 chapters by a team of international contributors the Handbook is divided into 7 parts the phenomenology of food gender and food food and cultural diversity liberty choice and food policy food and the environment farming and eating other animals food justice Essential reading for students and researchers in food ethics it is also an invaluable resource for those in related disciplines such as environmental ethics and bioethics

*Sharing Economies in Times of Crisis* Anthony Ince, Sarah Marie Hall, 2017-09-05 The new sharing economy is a growing phenomenon across the Global North It claims to transform relationships of production and consumption in a way that can improve our lives reduce environmental impacts and reduce the cost of living Amidst various economic environmental and other crises this message has strong resonance Yet it is not without controversy and there have been heated debates over negative dimensions for workers and consumers alike This book stretches far beyond the sharing economy as it is popularly defined and explores the complex intersections of sharing and the economy and how a better understanding of these relationships might help us address the multiple crises that confront contemporary societies The contributors to this book explore a wide diversity of sharing systems and practices from various empirical case studies ranging from hospitality to seed swapping and from indigenous land rights to alcohol consumption In each chapter a different crisis or vulnerability frames and shapes the study allowing contributors to unpick the ways in which crisis and sharing relate to each other in real life The book is divided into three thematic sections Following an extended introduction to the themes and ideas of the book by the editors the first section foregrounds the shaping of sharing practices by already existing or anticipated crises The second section focuses on the lived relations between sharing and economic practice In the third section authors conclude the book by exploring the possibilities and challenges for creating alternative economic forms grounded in practices of sharing This edited volume makes a major original contribution towards academic understandings of sharing economies in the context of crises It is suitable for both students and academics who are interested in political economy economic geography and consumption

*Congressional*

*Record* United States. Congress, 1982 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873      **The Ecosocial**

**Transition of Societies** Aila-Leena Matthies, Kati Närhi, 2016-10-04 This groundbreaking book both explains and expands the growing debate on ecological environmental social work at the global level In order to achieve this the book strengthens the environmental paradigm in social work and social policy by undertaking further research on theoretical and conceptual clarification as well as distinct reflections on its practical directions Divided into five parts concepts the impact of environmental crises sustainable communities and lifestyles food politics and the profession in transition this work's main objective is to place ecological social work as a part of the more comprehensive and interdisciplinary eco social transition of societies towards sustainability balancing economic and social development with the limited resources of the natural environment By focussing on these five core concepts it shows how social work and social policy contribute to this transition through having a research based approach and orientation on solutions rather than problem analysis The book will be of interest to scholars from a broad range of disciplines including those in social work and social policy sustainability economics agriculture and environmental studies      *International Human Rights Law and Destitution* Luke Graham, 2022-08-18 This book explores destitution from the perspective of international human rights law and more specifically economic social and cultural rights The experience of destitution correlates to the non realisation of a range of economic social and cultural rights However destitution has not been defined from this perspective Consequently the nexus between destitution and the denial of economic social and cultural rights remains unrecognised within academia and policy and practice This book expressly addresses this issue and in so doing renders the nexus between destitution and the non realisation of these rights visible The book proposes a new human rights based definition of destitution composed of two parts The rights which must be realised the component rights and the level of realisation of these rights which must be met the destitution threshold to avoid destitution This human rights based understanding of destitution is then applied to a UK case study to highlight the relationship between government policy and destitution to illustrate how destitution manifests itself and to make recommendations founded upon engendering the realisation of economic social and cultural rights aimed towards addressing destitution This book will have global and cross sectoral appeal to anti poverty advocates policy makers as well as to researchers academics and students in the fields of human rights law poverty studies and social policy      **Social Work in Health and Mental Health** Tuula Heinonen, Anna Metteri, 2005 Social Work in Health and Mental Health Issues Developments and Actions was created for final year undergraduate and master's level students in the health and mental health fields It is primarily a book on social work practice discussing how one might approach a specific health or mental
