First The Good News Pb 2001:

Participatory Budgeting in Global Perspective Brian Wampler, Stephanie McNulty, Stephanie L. McNulty, Michael Touchton, 2021 Participatory Budgeting continues to spread across the globe as government officials and citizens adopt this innovative democratic program in the hopes of strengthening accountability civil society and well being Governments often adapt PB s basic program design to meet local needs thus creating wide variation in how PB programs function Some programs retain features of radical democracy others focus on community mobilization and yet other programs seek to promote participatory development Participatory Budgeting in Global Perspective provides a theoretical and empirical explanation to account for widespread variation in PB s adoption adaptation and impacts This book develops six PB types to account for the wide variation in how PB programs function as well as the outcomes they produce To illustrate the similar patterns across the globe four empirical chapters present a rich set of case studies that illuminate the wide differences among these programs chapters are organized regionally with chapters on Latin America Asia Sub Saharan Africa Europe and North America By organizing the chapters regionally it becomes clear that there are temporal spatial economic and organizational factors that produce different programs across regions but similar programs within each region A key empirical finding is that the change in PB rules and design is now leading to significant differences in the outcomes these programs produce We find that some programs successfully promote accountability expand civil society and improve well being but too often researchers do not have any evidence tying PB to significant social or political change *Good News - Bad News: The Two Faces of Immune Privilege* Rachel R. Caspi, Joan Stein-Streilein, 2014-11-19 Immune privilege was once thought to be the property of a few select sites that include the eye brain testis pregnant uterus and of all things the hamster cheek pouch and was believed to be mainly based on sequestration behind blood tissue barriers This view has changed Immune privilege is now considered to constitute a more general phenomenon through which tissues are able to actively direct and control immune responses taking place in their territory to preserve their structural and functional integrity in the face of inflammatory processes These positive aspects of immune privilege can be hijacked by tumors to their survival advantage and to the detriment of the host This Research Topic dissects the beneficial and deleterious consequences of immune privilege in terms of the cellular and molecular mechanisms that various tissues and tumors use each in its own fashion to regulate immune processes that affect them at the local and the systemic level **Terrorism and Public Health** Barry S. Levy M.D., Victor W. Sidel M.D., 2002-11-14 In a wide ranging timely discussion of urgent issues this volume examines the health consequences of the recent terrorist attacks in the United States and systematically reviews information on explosives incendiaries and small arms as well as biologic chemical nuclear radiologic and other radioactive weapons that may be used by terrorists In a constructive approach the authors discuss what needs to be done to improve the public health and medical care systems in preparation for possible future terrorist attacks and threats and for addressing widespread

public health problems more effectively They also explore the origins of terrorism and discuss the civil rights and human rights issues related to government responses to terrorism Well written well organized and up to date the book should be essential reading for many health professionals students and others concerned with terrorism and its health consequences

causes of violence against aid workers and the consequences of the approaches aid agencies use to protect themselves from attack Based on more than a decade of research Aid in Danger explores the assumptions underpinning existing explanations of and responses to violence against aid workers According to Fast most explanations of attacks locate the causes externally and maintain an image of aid workers as an exceptional category of civilians The resulting approaches to security rely on separation and fortification and alienate aid workers from those in need representing both a symptom and a cause of crisis in the humanitarian system Missing from most analyses are the internal vulnerabilities exemplified in the everyday decisions and ordinary human frailties and organizational mistakes that sometimes contribute to the conditions leading to violence This oversight contributes to the normalization of danger in aid work and undermines the humanitarian ethos As an alternative Fast proposes a relational framework that captures both external threats and internal vulnerabilities By uncovering overlooked causes of violence Aid in Danger offers a unique perspective on the challenges of providing aid in perilous settings and on the prospects of reforming the system in service of core humanitarian values

Transitional Justice and Socio-Economic Harm Huma Saeed, 2022-09-19 Maintaining the importance of socio economic issues in devising transitional justice mechanisms this book examines the widespread practice of land grabbing in Afghanistan On 3 September 2003 100 armed police officers bulldozed around 30 homes in the Sherpur neighborhood of Kabul Afghanistan evicting over 250 people Historically the land was part of the property of the Ministry of Defense of which a zone was allocated to the ministry's employees who had built homes and had lived there for nearly 30 years After the demolition however the land was distributed among 300 high ranking government officials including ministers deputy ministers governors and other powerful warlords Land grabbing in Afghanistan has become a widespread practice across the country Based on over 50 semi structured interviews with key informants and group discussions with war victims and local experts in Kabul the current book examines the relevance of transitional justice discourse and practice in response to this situation Following a critical criminological concern with social harm the book maintains that it is not enough to consider a country's political history of violent conflict and the violation of civil and political rights alone Rather to decide on appropriate transitional justice mechanisms it is crucial to consider a country's socio economic background and above all the socio economic harm inflicted on people during periods of violent conflict This original and detailed account of the socio economic challenges faced by transitional justice mechanisms will be of interest to those studying and working in this area in law politics development

studies and criminology **Pioneering Innovation in Early British Computers** Stephen H. Kaisler, 2025-06-09 This volume of a multi volume set on English Computer Systems examines the major pioneering efforts in England during the period from the late 1950s until the late 1970s These three firms English Electric Elliott Automation and Lyons Electric disappeared through mergers as the computer industry consolidated through government intervention Each of these firms contributed innovative hardware and software architectural concepts to computing in England and around the world such as stack based machines time sharing and multiprogramming as well as advances in programming languages LEO I was the first business computer used to support business operations yet it did not arise from academia or a commercial electronics company but from a Tea Shoppe *Recovering Police Legitimacy* Rafe McGregor, 2024-07-11 Transatlantic policing is experiencing an unprecedented crisis of legitimacy epitomised by public responses to the murders of George Floyd and Sarah Everard during the COVID 19 pandemic Legitimacy is lost when the police either fail to protect the public or rely on coercion rather than consent to achieve that protection *Recovering Police Legitimacy* challenges conventional criminological political and public solutions to the problem by approaching it from the bottom up beginning with policing as a practice constituted by a unique set of excellences skills and characteristics The author draws on his experience as a police officer and on the serial fictions of James Ellroy David Peace and Nic Pizzolatto to characterise the practice in terms of heroic struggle edgework absolute sacrifice and worldmaking These characteristics provide an analytic tool for revolutionising our understanding of the relations among policing as a situated practice public protection and police legitimacy and for identifying the different levels at which legitimacy is undermined His conclusion is that recovery is possible but will be slow in pace and incomplete in scope Written accessibly for students police officers policymakers scholars and anyone with an interest in police legitimacy this is a groundbreaking study of a pressing social problem **Transitional Justice in Rwanda** Gerald Gahima, 2013 *Transitional Justice in Rwanda Accountability for Atrocity* comprehensively analyzes the full range of the transitional justice processes undertaken for the Rwandan genocide Drawing on the author s extensive professional experience as the principal justice policy maker and the leading law enforcement officer in Rwanda from 1996 2003 the book provides an in depth analysis of the social political and legal challenges faced by Rwanda in the aftermath of the genocide and the aspirations and legacy of transitional justice The book explores the role played by the accountability processes not just in pursuing accountability but also in shaping the reconstruction of Rwanda s institutions of democratic governance and political reconciliation Central to this exploration will be the examination of whether or not transitional justice in Rwanda has contributed to a foundational rule of law reform process While recognizing the necessity of pursuing accountability for mass atrocity the book argues that a maximal approach to accountability for genocide may undermine the promotion of core objectives of transitional justice Taking on one of the key questions facing practitioners and scholars of transitional justice today the book suggests that the pursuit of mass accountability particularly where socio economic resources and legal

capacity is limited may destabilize the process of rule of law reform endangering core human rights norms Moreover the book suggests that pursuing a strategy of mass accountability may undermine the process of democratic transition particularly in a context where impunity for crimes committed by the victors of armed conflicts persists Highlighting the ongoing democratic deficit in Rwanda and resulting political instability in the Great Lakes region the book argues that the effectiveness of transitional justice ultimately hinges on the nature and success of political transition *Violence* Alex Alvarez, Ronet D.
