Toward a New Mission Statement for Canadian Fiscal Federalism Harvey Lazar, 2000 Canada State of the Federation 1999 2000 identifies and explains major threads in Canadian fiscal federalism Set against the cacophony over domineering and arrogant centralization from supporters of Quebec sovereignty session on the one hand and fears that excessive decentralization is fuelling an obsessively neo liberal agenda on the other these essays replace much of this heat with new light The authors begin with an examination of recent developments in the theoretical literature surrounding fiscal federalism They then examine some of the major issues facing the federation Is there a vertical imbalance between federal and provincial governments Does Ottawa collect more revenues than are needed relative to its spending responsibilities while the provinces are under funded How do federal provincial struggles over money and jurisdictional power affect local government or the para public sector emerging aboriginal governments and citizens Federal government actions in 1999 suggest that Ottawa has not lost all of its interest in social outcomes It is however seeking to influence the well being of citizens by transferring money to them directly rather than through transfers to provinces The authors suggest that if this trend continues the approach to the millennium will be seen as a watershed in public policy given that current trends in Canadian fiscal federalism are as much about re balancing the federation as they are about decentralization

Studies in Comparative Federalism, Canada Richard H. Leach,1981 *The Emergence of Social Security in Canada* Dennis T. Guest,1997-01-01 This book analyzes the major influences shaping the Canadian welfare state A central trend in Canadian social security over most of the twentieth century has been a shift from a residual to an institutional concept The residual approach which dominated until the Second World War posited that the causes of poverty and joblessness were to be found within individuals and were best remedied by personal initiative and reliance on the private market However the dramatic changes brought about by the Great Depression and the Second World War resulted in the rise of an institutional approach to social security Poverty and joblessness began to be viewed as the results of systemic failure and the public began to demand that governments take action to establish front rank institutions guaranteeing a level of protection against the common risks to livelihood Thus the foundations of the Canadian welfare state were established The Emergence of Social Security in Canada is both an important historical resource and an engrossing tale in its own right and it will be of great interest to anyone concerned about Canadian social policy
