Islam Memory And Morality In Yemen Ruling Families In Transition:

Islam, Memory, and Morality in Yemen Gabriele Vom Bruck, 2016-09-23 *Islam Memory and Morality in Yemen* tells a story of a Yemeni hereditary elite which was overthrown in the 1962 revolution in North Yemen For over a millennium they had enjoyed exclusive rights to the leadership of the Imamate the religiously sanctioned state Following the violent removal from power of King Faysal of Iraq in 1958 the overthrow of the Yemeni Imamate the longest lasting Hashimite rule in the Middle East confirmed the decline of Hashimite power held by ruling generations claiming descent from the Prophet Muhammad However rather than concentrating on recent political history *Islam Memory and Morality in Yemen* highlights the personal predicament of those targeted by the revolution in which they served as the foil for the new regime s moral and political ascendancy Focusing on the cultural politics of memory the book explores how members of the elite remember in the process of making sense of their current lives and formulating responses to adversity [The Huthi Movement in Yemen](#) Abdullah Hamidaddin, 2022-06-30 The ebook editions of this book are available open access under a CC BY NC ND 4 0 licence on bloomsburycollections com Open access was funded by Islamic Publications Ltd The Huthi rebels in Yemen are a resistance movement going back decades Their coup against Yemeni President Abdrabbuh Mansur Hadi in 2015 and the subsequent Yemeni civil war and the intervention of the Arab coalition in support of Hadi has brought absolute devastation to the country But who are the Huthis and how can we understand the group away from armed conflict and war What has motivated their social movement to fundamentally re shape Yemen and what are the group s local and regional ambitions This book provides the first comprehensive critical analysis dedicated to the Huthis Across four parts and 17 chapters the book examines how the movement is challenging traditional religious authority re shaping tribal values and roles in Yemen constructing new collective memories and identities and infusing Yemen s mediascape with their ideological creed In examining the movement s specific ways of thinking and beliefs the book also highlights its foreign policy within a regional policy of resistance to the United States and it points towards what its impact on both Yemen and the security of the Arab Gulf region will be The book brings together the leading experts on Yemen from diverse disciplines to provide readers with a nuanced and multi layered approach to understanding the Huthi movement [Informal Politics in the Middle East](#) Suzi Mirgani, 2021-12-01 The culture of politics within any system of governance is influenced by how state and society interact and how these relationships are mediated by existing political institutions whether formal or informal The chapters in this volume highlight two broad types of informal political engagement in the Middle East civil action that works in tandem with the state apparatus and civil action that poses a challenge to the state In both cases these activities can and do achieve tangible results for particular groups of people as well as for the state For many informal politics and civil mobilization are not a choice but a necessity to secure collectively some kind of social security through communal reciprocity and everyday activism Ironically Middle Eastern authorities often turn a blind eye to informal organizing because self help schemes allow

certain social groups to survive reducing their instinct to make demands of or seek support from the state People are discouraged from political action and dissent yet they are simultaneously encouraged to seek their own betterment often leading to politicized groups and associations By analyzing these formations the contributors shed light on informal politics in the region

The Caliph and the Imam Toby Matthiesen, 2023-02-07 The authoritative account of the sectarian division that for centuries has shaped events in the Middle East and the Islamic world

In 632 soon after the prophet Muhammad died a struggle broke out among his followers as to who would succeed him The majority argued that the new leader of Islam should be elected by the community s elite Others believed only members of Muhammad s family could lead This dispute over who should guide Muslims the appointed Caliph or the bloodline Imam marks the origin of the Sunni Shii split in Islam Toby Matthiesen explores this hugely significant division from its origins to the present day Moving chronologically his book sheds light on the many ways that it has shaped the Islamic world outlining how over the centuries Sunnism and Shiism became Islams two main branches particularly after the Muslim Empires embraced sectarian identity It reveals how colonial rule institutionalised divisions between Sunnism and Shiism both on the Indian subcontinent and in the greater Middle East giving rise to pan Islamic resistance and Sunni and Shii revivalism It then focuses on the fall out from the 1979 revolution in Iran and the US led military intervention in Iraq As Matthiesen shows however though Sunnism and Shiism have had a long and antagonistic history most Muslims have led lives characterised by confessional ambiguity and peaceful co existence Tensions arise when sectarian identity becomes linked to politics Based on a synthesis of decades of scholarship in numerous languages The Caliph and the Imam will become the standard text for readers looking for a deeper understanding of contemporary sectarian conflict and its historical roots

Economic Statecraft and US Foreign Policy Leif Rosenberger, 2019-11-12 Explaining the connection between economics and violent extremism this book argues that American foreign policy must be rebalanced with a greater emphasis on social inclusion and shared prosperity in order to mitigate the root causes of conflict Rosenberger argues that economic coercion has usually proven counterproductive and that a militarized American foreign policy too often results in frustration and strategic failure He analyses this theory through a number of case studies from the Treaty of Versailles to the more recent issues of Israel in Gaza US sanctions against Iran the US backed Saudi led boycott of Qatar and Donald Trump s trade war against China He concludes that the economic logic of social inclusion and shared prosperity demonstrated in Jean Monnet s European Coal and Steel Community would be a more successful strategy in reducing the demand for violence in the civil wars in Afghanistan Iraq Yemen and Syria This book will be of particular relevance for courses on American Foreign Policy International Relations and International Political Economy and seminars on the Near East and South Asia Professional economists diplomats and military officers in America and in the Near East and South Asia will also find the argument useful

Yemen and the World Laurent Bonnefoy, 2018-10-05 Winner of the Acad mie Fran aise s Prix Eug ne Colas Contemporary Yemen has an image problem It has long fascinated travelers and artists and to many embodies both Arab and Muslim authenticity it stands at important geostrategic and commercial crossroads Yet strangely global perceptions of Yemen are of an entity that is somehow both marginal and passive yet also dangerous and problematic The Saudi offensive launched in 2015 has made Yemen a victim of regional power struggles while the global war on terror has labelled it a threat to international security This perception has had disastrous effects without generating real interest in the country or its people

On the contrary Yemen's complex political dynamics have been largely ignored by international observers resulting in problematic if not counterproductive international policies Yemen and the World offers a corrective to these misconceptions and omissions putting aside the nature of the world's interest in Yemen to focus on Yemen's role on the global stage Laurent Bonnefoy uses six areas of modern international exchange globalization diplomacy trade migration culture and militant Islamism to restore Yemen to its place at the heart of contemporary affairs To understand Yemen he argues is to understand the Middle East as a whole

The Logic of Cooperation in Autocracies Jens Heibach, 2024-05-15 This meticulously researched book offers a comprehensive analysis of strategic cooperation in authoritarian regimes specifically focusing on Yemen's Joint Meeting Parties an alliance composed of diverse Islamist Socialist and Arab nationalist parties Heibach presents a unique case study that explores the alliance's remarkable longevity and ultimate success shedding light on the reasons behind the emergence and endurance of opposition cooperation in autocracies To provide a nuanced understanding of strategic cooperation Heibach advocates for the separate examination of internal and external alliance performance The internal logic of cooperation which centers on the sustenance of the alliance and the external logic driven by goal attainment give rise to contradictions that significantly impact overall alliance performance Drawing on a wide range of primary sources and employing rigorous methodologies The Logic of Cooperation in Autocracies offers a vital addition to the academic discourse on authoritarianism opposition politics and coalition formation It is an indispensable resource for scholars researchers and students seeking deep insights into the complex world of strategic cooperation in autocratic systems and its profound implications for political conflicts

Islamist Parties and Political Normalization in the Muslim

World Quinn Mecham, Julie Chernov Hwang, 2014-05-22 Since 2000 more than twenty countries around the world have held elections in which parties that espouse a political agenda based on an Islamic worldview have competed for legislative seats. *Islamist Parties and Political Normalization in the Muslim World* examines the impact these parties have had on the political process in two different areas of the world with large Muslim populations: the Middle East and Asia. The book's contributors examine major cases of Islamist party evolution and participation in democratic and semidemocratic systems in Turkey, Morocco, Yemen, Indonesia, Malaysia, and Bangladesh. Collectively, they articulate a theoretical framework to understand the strategic behavior of Islamist parties, including the characteristics that distinguish them from other types of political parties, how they relate to other parties as potential competitors or collaborators, how ties to broader Islamist movements may affect party behavior in elections, and how participation in an electoral system can affect the behavior and ideology of an Islamist party over time. Through this framework, the contributors observe a general tendency in Islamist politics. Although Islamist parties represent diverse interests and behaviors that are tied to their particular domestic contexts, through repeated elections they often come to operate less as antiestablishment parties and more in line with the political norms of the regimes in which they compete. While a few parties have deliberately chosen to remain on the fringes of their political system, most have found significant political rewards in changing their messages and behavior to attract more centrist voters. As the impact of the Arab Spring continues to be felt, *Islamist Parties and Political Normalization in the Muslim World* offers a nuanced and timely perspective of Islamist politics in broader global context. This ebook is a static version of an article from *Oxford Bibliographies Online: Islamic Studies*, a dynamic, continuously updated online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study of the Islamic religion and Muslim cultures. *Oxford Bibliographies Online* covers most subject disciplines within the social science and humanities. Eastern and North African History Jens Hanssen, Amal N. Ghazal, 2020-11-30 The Oxford Handbook of Contemporary Middle Eastern and North African History critically examines the defining processes and structures of historical developments in North Africa and the Middle East over the past two centuries The Handbook pays particular attention to countries that have leapt out of the political shadows of dominant and better studied neighbours in the course of the unfolding uprisings in the Middle East and North Africa These dramatic and interconnected developments have exposed the dearth of informative analysis available in surveys and textbooks particularly on Tunisia Libya Yemen Bahrain and Syria **Mirrored Loss**

Gabriele vom Bruck, 2019-01-01 *Mirrored Loss* tells the story of Amat al Latif al Wazir only daughter of Abdullah al Wazir the leader of Yemen's constitutional movement of the mid twentieth century for democratisation of the autocratic imamate Her relationship with her adored father who was accused of treason takes centre stage in this biographical narrative Amat al Latif enjoyed a privileged childhood in a high ranking family at the heart of Yemeni politics yet the failed revolt of 1948 was the family's downfall leaving her and other close relatives exposed to social indignities and privation She then spent many years in exile where she suffered a personal calamity that compounded the earlier catastrophe Through one family's story Gabriele vom Bruck explores how violence translates into tragedy in the personal realm and how individual lives and larger cultural and political worlds intersect in Yemen Her narrative makes these tragic events compellingly tangible especially at the level of gendered subjectivity female Yemenis have been either unknown to or deemed insignificant by most male historians of this period *Mirrored Loss* is a significant step in righting that omission **Beyond the Arab Cold War**

Asher Orkaby, 2017 *Beyond the Arab Cold War* brings the Yemen Civil War 1962-68 to the forefront of modern Middle East History Yemen was a showcase for a new era of peacekeeping counterinsurgency and chemical warfare This book shows how the Yemen Civil War was not dominated by a single power or rivalry but rather became an arena for global conflict **The**

Bazaar in the Islamic City Mohammad Gharipour, 2012-10-01 The Middle Eastern bazaar is much more than a context for commerce the studies in this book illustrate that markets regardless of their location scale and permanency have also played important cultural roles within their societies reflecting historical evolution industrial development social and political conditions urban morphology and architectural functions This interdisciplinary volume explores the dynamics of the bazaar with a number of case studies from Cairo Damascus Aleppo Nablus Bursa Istanbul Sana'a Kabul Tehran and Yazd Although they share some contextual and functional characteristics each bazaar has its own unique and fascinating history traditions cultural practices and structure One of the most intriguing aspects revealed in this volume is the thread of continuity from past to present exhibited by the bazaar as a forum where a society meets and intermingles in the practice of goods exchange a social and cultural ritual that is as old as human history The Merchant Houses of Mocha

Nancy Um, 2011-12-01 Gaining prominence as a seaport under the Ottomans in the mid 1500s the city of Mocha on the Red Sea coast of Yemen pulsed with maritime commerce Its very name became synonymous with Yemen's most important revenue producing crop coffee After

the imams of the Qasimi dynasty ousted the Ottomans in 1635 Mocha's trade turned eastward toward the Indian Ocean and coastal India Merchants and shipowners from Asian African and European shores flocked to the city to trade in Arabian coffee and aromatics Indian textiles Asian spices and silver from the New World Nancy Um tells how and why Mocha's urban shape and architecture took the forms they did Mocha was a hub in a great trade network encompassing overseas cities agricultural hinterlands and inland market centers All these connected places together with the functional demands of commerce in the city the social stratification of its residents and the imam's desire for wealth contributed to Mocha's architectural and urban form Eventually in the mid 1800s the Ottomans regained control over Yemen and abandoned Mocha as their coastal base Its trade and its population diminished and its magnificent buildings began to crumble until few traces are left of them today This book helps bring Mocha to life once again *Sectarianization* Nader Hashemi, Danny

Postel, 2017-03-15 As the Middle East descends ever deeper into violence and chaos sectarianism has become a catch all explanation for the region's troubles The turmoil is attributed to ancient sectarian differences putatively primordial forces that make violent conflict intractable In media and policy discussions sectarianism has come to possess trans historical causal power This book trenchantly challenges the lazy use of sectarianism as a magic bullet explanation for the region's ills focusing on how various conflicts in the Middle East have morphed from non sectarian or cross sectarian and nonviolent movements into sectarian wars Through multiple case studies including Syria Iraq Lebanon Saudi Arabia Bahrain Yemen and Kuwait this book maps the dynamics of sectarianisation exploring not only how but also why it has taken hold The contributors examine the constellation of forces from those within societies to external factors such as the Saudi Iran rivalry that drive the sectarianisation process and explore how the region's politics can be de sectarianised Featuring leading scholars and including historians anthropologists political scientists and international relations theorists this book will redefine the terms of debate on one of the most critical issues in international affairs today **A Post-Exotic Anthropology**

of Soqatra, Volume II Serge D. Elie, 2020-06-22 This two volume book offers a panoramic explanatory narrative of Soqatra Island's rediscovery based on the global significance of its endemic biodiversity The first volume *A Post Exotic Anthropology of Soqatra A Mesography of an Indigenous Polity in Yemen* initiated the analytical inventory of the four key vectors of Soqatra's transition process through a discussion of the first two economic disarticulation and political incorporation This volume *A Post Exotic Anthropology of Soqatra Cultural Environmental Annexation of an Indigenous Community* completes the analytical inventory by exploring the other two pivotal vectors of transition cultural modernization and environmental annexation These two vectors encompass the critical sociocultural spheres and environmental domains in which Soqatra's transformation process is unfolding The origin of these vectors is situated within Soqatra's long history of exogenous mediations by external actors and their symbolic appropriation of the island into an imaginative geography The legacy is a symbolic curse which has made Soqatra into an ideal playground for fantasist cultural or environmental experiments

Accordingly this volume undertakes first a systematic inventory of the communal effects engendered within the domains of cultural modernization dissonant linguistic attitudes alienating consumption practices divergent religious affiliations and differentiating economic aspirations Second it anatomizes the process of environmental annexation through the reconstruction of the formulation and implementation process of a biodiversity conservation and sustainable development experiment in which the island and its residents are appropriated into an anachronistic paradigm a pastoral ecotopia as a blueprint of their future
