The Fundamentals of Islamic Creed Ahmad ibn Muhammad Ṭaḥāwī, 1999 Islamic Creeds, 1994 There are no official creeds in Islam comparable to the Apostles creed and the Nicene creed in Christianity In mainstream Sunnite Islam however there is broad agreement about the chief doctrines and over the centuries these have been expressed in creeds by individuals and groups some of which have been widely recognised and used for instruction These creeds are basic material for the study of Islamic religion and a selection is given here in translation together with a historical introduction explanatory notes and a single Shi'ite creed to show the contrast **The Fundamentals of Islamic Creed** Abu Ja'far Ahmad Salamah Al-Ah-Tahawi, 2020-09-04 The Book in hand is a summary of the Faiths and beliefs of the mainstream Muslims Spread all over the globe Muslim Scholars are unanimous in opinion that the articles of faith as formulated by Imam Tahawi in the treatise reproduced here most accurately reflect the mind and understanding of the earliest Muslims It is free from incorrect interpretations over exemplification and any distortion of the ideas promulgated by Islam There is also a general agreement that the commentary on Tahawi's work as done by Abi Al Izz is an accurate elucidation of what Tahawi meant to express Also it strives to be very close to the texts of the Qur'an and the prophetic saying and without over stretching the meaning attempts to project the opinion of the great majority of scholars in matters pertaining to Islamic creed It would be interesting for the followers of other faith to compare their faith and beliefs with those of Islam as illustrated in this standard Textual work that dates back to the late third Islamic century Further since the Muslim creed truly dating back to the Prophetic times has never undergone revision this book should help the non Muslims to get an insight into the Muslim mind **Islam** Cenap Çakmak, 2017-05-18 This expansive four volume encyclopedia presents a broad introduction to Islam that enables learning about the fundamental role of Islam in world history and promotes greater respect for cultural diversity One of the most popular and widespread religions in the world Islam has attracted a great deal of attention in recent times particularly in the Western world With the ongoing tensions in the Middle East and a pervasive sense of hostility toward Arab Americans there is ever increasing need to examine and understand Islam as a religion and historical force Islam A Worldwide Encyclopedia provides some 700 entries on Islam written by expert contributors that cover the religion from the birth of Islam to the present time The set also includes 16 pages of color images per volume that serve to illustrate the diverse expressions of this important religious tradition Each entry begins with a basic introduction followed by a general discussion of the subject and a conclusion Each entry also features a further readings list for readers In addition to supplying a comprehensive authoritative overview of Islam this work also specifically addresses many controversial related issues including jihad violence in Islam polygamy and apostasy **Islamic Creed** Muhammad bin Jamil Zino, 199? **Commerce Reports**, 1930-08-18 *The Islamic World* John L. CONCEPT OF ALLAH IN THE ISLAMIC CREED Hasan Al Banna, 2005

The Attributes of God in Islamic Thought Mansoor Khalilzand, 2024-03-18 The debate over Allah's attribute the nature and the inner articulation of Allah is one of the focal debates in the intellectual history of Islam This edited collection aims to highlight and examine some aspects of this debate in their original context based on the relevant primary literature By showing that even an apparently self evident concept such as Allah which lies at the heart of every reading of Islam is highly ambiguous and polysemous the chapters also emphasise the plurality that has always existed in Islamic thought Through highlighting the philosophical and theological reflections on the concept of Allah the results of this study challenge the juristic reading of Islam in which Allah's function consists mainly in providing a detailed plan for the human life and also rewarding or punishing the ones who deviates from it The book also attempts to demonstrate the relevance and the actuality of the tradition and to stress its contemporaneity This volume makes a significant part of the intellectual tradition of Islam accessible for students and scholars of Islamic theology Islamic philosophy Islamic studies and the like as well as providing a secondary source for teaching on the debate in question

Islamic Democracy Farid Younos, 2020-09-28 Many scholars see democracy and Islam as incompatible However history has shown that Muslims were the pioneers of a democratic system 1400 years ago This book illustrates the fact that Muslim nations can establish a democratic political system based upon Islamic teachings and principles Democracy must be a homegrown political system that meets not only the political demands of a nation but also the cultural demands In order for a democracy to work in the nation it is being presented it must align with the people's values and culture simply being a worldwide political system is not enough The time has come for Muslim nations to adopt a system that meets the demands of Muslims and non Muslims alike for the sake of peace and justice for all This is the theme of Islamic democracy that this book is attempting to portray for the Middle East
