Islamic Quest For Democracy Pluralism And Human Rights:

The Islamic Quest for Democracy, Pluralism, and Human Rights Ahmad Mawṣilīlī, 2001 **Festschrift Harald Motzki**

Nicolet Boekhoff-van der Voort, C. H. M. Versteegh, Joas Wagemakers, 2011-08-11 This volume provides new insights into the transmission of the textual sources of Islam and combines this with the dynamics of these scriptures by paying close attention to how believers interpret and apply them **Routledge Handbook on Human Rights and the Middle East and North Africa** Anthony Chase, 2016-11-10 Recent events such as Iran's Green Revolution and the Arab Uprisings have exploded notions that human rights are irrelevant to Middle Eastern and North African politics Increasingly seen as a global concern human rights are at the fulcrum of the region's on the ground politics transnational intellectual debates and global political intersections The Routledge Handbook on Human Rights and the Middle East and North Africa emphasises the need to consider human rights in all their dimensions rather than solely focusing on the political dimension in order to understand the structural reasons behind the persistence of human rights violations explores the various frameworks in which to consider human rights conceptual political and transnational international discusses issue areas subject to particularly intense debate gender religion sexuality transitions and accountability contains contributions from perspectives that span from global theory to grassroots reflections emphasising the need for academic work on human rights to seriously engage with the thoughts and practices of those working on the ground A multidisciplinary approach from scholars with a wide range of expertise allows the book to capture the complex dynamics by which human rights have had or could have an impact on Middle Eastern and North African politics This book will therefore be a key resource for students and scholars of Middle Eastern and North African politics and society as well as anyone with a concern for Human Rights across the globe **The Ashgate Research Companion to Islamic Law** Peri Bearman, 2016-03-16 This unparalleled Companion provides a comprehensive and authoritative guide to Islamic law to all with an interest in this increasingly relevant and developing field The volume presents classical Islamic law through a historiographical introduction to and analysis of Western scholarship while key debates about hot button issues in modern day circumstances are also addressed In twenty one chapters distinguished authors offer an overview of their particular specialty reflect on past and current thinking and point to directions for future research The Companion is divided into four parts The first offers an introduction to the history of Islamic law as well as a discussion of how Western scholarship and historiography have evolved over time The second part delves into the substance of Islamic law Legal rules for the areas of legal status family law socio economic justice penal law constitutional authority and the law of war are all discussed in this section Part three examines the adaptation of Islamic law in light of colonialism and the modern nation state as well as the subsequent re-Islamization of national legal systems The final section presents contemporary debates on the role of Islamic law in areas such as finance the diaspora modern governance and medical ethics and the volume concludes by questioning the role of Sharia law as a legal authority in the

modern context By outlining the history of Islamic law through a linear study of research this collection is unique in its examination of past and present scholarship and the lessons we can draw from this for the future It introduces scholars and students to the challenges posed in the past to the magnitude of milestones that were achieved in the reinterpretation and revision of established ideas and ultimately to a thorough conceptual understanding of Islamic law *Human Rights in the Middle East* M. Monshipouri, 2011-12-07 The authors provide a systematic analysis of looking beyond the abuses of human rights in the Middle East with a view toward problematizing traditional doctrinal thinking and concepts in the region ascertaining comparative and historical roots of human rights abuses in the Middle East Democratization in the Muslim World Frederic Volpi, Francesco Cavatorta, 2013-09-13 This book examines the role that political Islam plays in processes of democratization in the Muslim world detailing the political processes that facilitate the collective learning of democratic ways of solving the practical problems of those polities Democratization in the Muslim World represents an important contribution to the debate on democratization and political Islam that emphasises the synergetic effects and global reach of both Islamist and democratic politics It comes to terms with the problematic relationship between Islam and democracy in the uncertain post Cold War post 9 11 world order by highlighting the malleability of Islamic discourses and of its institutional resources as well as the diversity of the political strategies of incumbent regimes to remain in power It combines key theoretical issues and country specific studies of some of the most relevant Muslim polities of the post Cold War and post 9 11 era This text was previously published as a special issue of Democratization and will be of interest to students of Middle East politics governance democracy and human rights The First Muslims Asma Afsaruddin, 2013-10-01 A fresh look at the origins and development of Islam this is a fascinating reconstruction of the era of the first three generations of Muslims Using a wealth of classical Arabic sources it chronicles the lives of the Prophet Muhammad his Companions and the subsequent two generations of Muslims together known as the the Pious Forebears Examining the adoption in contemporary times of these early Muslims as legitimizing figureheads for a variety of causes both religious and political Afsaruddin tries to establish where their sympathies really lay Essential reading for anyone interested in the inception of the Islam this important book will captivate the general reader and student alike **The Imperatives of Progressive Islam** Adis Duderija, 2017-02-03 Cover Title Copyright Dedication Contents Note on transliteration Foreword Introduction broader contextualisation of progressive Islam 1 The poiesis imperative 2 The epistemological imperative 3 The religious pluralism imperative 4 The Islamic liberation theology imperative 5 The human rights imperative 6 The ethical imperative in Islamic jurisprudence law 7 The gender justice imperative 8 The imperative of non patriarchal Islamic hermeneutics Conclusion the future of progressive Islam Select Bibliography Index *The Caliphate of Man* Andrew F. March, 2019-09-17 A political theorist teases out the century old ideological transformation at the heart of contemporary discourse in Muslim nations undergoing political change The Arab Spring precipitated a crisis in political Islam In Egypt Islamists have been crushed In

Turkey they have descended into authoritarianism In Tunisia they govern but without the label of political Islam Andrew March explores how before this crisis Islamists developed a unique theory of popular sovereignty one that promised to determine the future of democracy in the Middle East This began with the claim of divine sovereignty the demand to restore the shar a in modern societies But prominent theorists of political Islam also advanced another principle the Quranic notion that God s authority on earth rests not with sultans or with scholars interpretation of written law but with the entirety of the Muslim people the umma Drawing on this argument utopian theorists such as Ab l A l Mawd d and Sayyid Qu b released into the intellectual bloodstream the doctrine of the caliphate of man while God is sovereign He has appointed the multitude of believers as His vicegerent The Caliphate of Man argues that the doctrine of the universal human caliphate underpins a specific democratic theory a kind of Islamic republic of virtue in which the people have authority over the government and religious leaders But is this an ideal regime destined to survive only as theory

Islam and the West Michael Thompson,2003 The essays in Islam and the West Critical Perspectives on Modernity approach the interactions of Islam the West and modernity through overlapping social historical economic cultural and philosophical layers Viewed through this complex prism of analysis the full dimensions of the relationship become clear and the result is a deeper understanding of the nature of modernity and how other societies can relate to each other

Islam and the West Michael J. Thompson,2003-08-18 Since the terrorist attacks of September 11th the topic of Islam s political cultural religious and spiritual tendencies and beliefs has been thrust into the spotlight However most discussions concerning Islam s relation to the West tend to simplify and distort the intricate nature of the problem The essays in Islam and the West approach the interactions of Islam the West and modernity through overlapping social historical economic cultural and philosophical layers Viewed through this complex prism of analysis the full dimensions of the relationship become clear The result is a deeper understanding of the nature of modernity and how other societies can relate to each other in an increasingly complex globalizing world

The Penguin Dictionary of Islam Azim Nanji,2008-04-24 Islam today is a truly global faith yet it remains somewhat of an enigma to many of us Each and every day our newspapers are saturated with references to Islam Quran Taliban Hijab Fatwa Allah Sunni Jihad Shia the list goes on But how much do we really understand Are we in fact misunderstanding The Penguin Dictionary of Islam provides complete impartial answers It includes extensive coverage of the historical formations of the worldwide Muslim community and highlights key modern Muslim figures and events Understanding Islam is vital to understanding our world and this text is the definitive authority designed for both general and academic readers

The Middle East Professor Shahrough Akhavi,2009-10-15 Amidst recent hype about events in the Middle East there have been few attempts to get below the surface and develop a fuller understanding of what politics means there The Middle East The Politics of the Sacred and Secular redresses this balance and provides essential historical and theoretical context In this book Shahrough Akhavi shows that the way people think about politics in the Middle East has

developed in response to historical experience Islam has obviously played a pivotal role and the book does much to disentangle myth and reality about Islamic responses to politics Refreshingly however the book focuses on the universal concepts of the individual civil society the state justice authority and obligation and how these have been interpreted by Middle Eastern thinkers in the twentieth and twenty first centuries Akhavi builds a dynamic picture of a politically exciting and engaged region The fresh perspective this book brings to global political theory and the background it gives students of politics in the Middle East make it an important addition to the World Political Theories series A Path Out of the Desert Kenneth Pollack,2009-08-25 The greatest danger to America s peace and prosperity notes leading Middle East policy analyst Kenneth M Pollack lies in the political repression economic stagnation and cultural conflict running rampant in Arab and Muslim nations Pollack asserts that we must continue to make the Middle East a priority in our policy but in a humbler more realistic and more cohesive way In his long term strategy Pollack suggests that America engage directly with the governments of the Middle East and indirectly with its people by means of cultural exchange commerce and other soft approaches He carefully examines each of the region s most contested areas as well as the Israeli Palestinian peace process and explains how the United States can address each through mutually reinforcing policies At a time when the nation is facing critical decisions about our continued presence in Iraq and Afghanistan A Path Out of the Desert is guaranteed to stimulate debate about America s humanitarian diplomatic and military involvement in the Middle East Fresh Perspectives on the 'War on Terror' Miriam Gani, Penelope Mathew,2008-07-01 On 20 September 2001 in an address to a Joint Session of Congress and the American people President George W Bush declared a war on terror The concept of the war on terror has proven to be both an attractive and a potent rhetorical device It has been adopted and elaborated upon by political leaders around the world particularly in the context of military action in Afghanistan and Iraq But use of the rhetoric has not been confined to the military context The war on terror is a domestic one also and the phrase has been used to account for broad criminal legislation sweeping agency powers and potential human rights abuses throughout much of the world This collection seeks both to draw on and to engage critically with the metaphor of war in the context of terrorism It brings together a group of experts from Australia Canada the United Kingdom France and Germany who write about terrorism from a variety of disciplinary perspectives including international law and international relations public and constitutional law criminal law and criminology legal theory and psychology and law *American Journal of Islamic Social Sciences* 19:3 Murad Wilfried Hofmann,Kamran A. Bokhari,David D. Grafton,Mohamed Aslam Haneef, Selamah Abdullah Yusof, Ruzita Mohd.Amin, Hazizan Md. Noon, The American Journal of Islamic Social Sciences AJISS established in 1984 is a quarterly double blind peer reviewed and interdisciplinary journal published by the International Institute of Islamic Thought IIIT and distributed worldwide The journal showcases a wide variety of scholarly research on all facets of Islam and the Muslim world including subjects such as anthropology history philosophy and metaphysics politics psychology religious law

and traditional Islam **Muslim Reformers in Iran and Turkey** Günes Murat Tezcür,2010-06-15 Moderation theory describes the process through which radical political actors develop commitments to electoral competition political pluralism human rights and rule of law and come to prefer negotiation reconciliation and electoral politics over provocation confrontation and contentious action Revisiting this theory through an examination of two of the most prominent moderate Islamic political forces in recent history Muslim Reformers in Iran and Turkey analyzes the gains made and methods implemented by the Reform Front in the Islamic Republic of Iran and the Justice and Development Party in Turkey Both of these groups represent Muslim reformers who came into continual conflict with unelected adversaries who attempted to block their reformist agendas Based on extensive field research in both locales Muslim Reformers in Iran and Turkey argues that behavioral moderation as practiced by these groups may actually inhibit democratic progress Political scientist Güneş Murat Tezcür observes that the ability to implement conciliatory tactics organize electoral parties and make political compromises impeded democracy when pursued by the Reform Front and the Justice and Development Party Challenging conventional wisdom Tezcür's findings have broad implications for the dynamics of democratic progress *Liberalism and the Contestation of Islamic Sovereignty* Amr Sabet,2003-08-07 Islam is self contained with a self referential methodological imperative Thus secularizing Islam effectively means its subjugation Some Muslim scholars reacting to a general crisis in the Muslim world have come to project Western historical experience on revelation under the rubric of liberal Islam while overlooking God's plans for history The process of emulating and adapting to the values of another force will not be the source of salvation As the power of such a force runs its course so will its values Politics is the institutional realm in which the contests between interpretations and conceptions are played out re infusing faith with epistemological vigor It is in this sense and because of its principled ijtihad that the Grand Ayatollah Khomeini's theory of Wilayat al Faqih or the rule of jurists has come to constitute a crisis solving principle Liberals fail to show how the values of democracy and liberalism or pluralism may necessarily lead to positive outcomes for Islam and Muslims While Islam as a religion is capable of explaining tangible worldly sufferings in terms of intangible otherworldly justifications secular values do not enjoy this privilege They are pragmatic non theological values and unless they are capable of delivering what they claim or promise in this world they are likely to lose much of their raison d'être in Muslim societies Islamic Democratic Discourse M. A. Muqtedar Khan,2006-01-01 There is a growing consensus among experts and the educated public alike that democratization will reduce the many problems of the Muslim world The question that remains is how Islam should be incorporated into the public sphere Islamic Democratic Discourse is in itself a dialogue that explores the multi faceted relationship between Islam and democracy Each chapter by a preeminent scholar of the Muslim tradition and its contemporary challenges provides insight into Islamic political thought and its connection to Western democracy Tamara Sonn and Tarek Ramdan consider the elements of government in classical Islam Osman Bakar and Ali Paya provide regional studies of the search for compatibility

between Islam and democracy And finally editor Muqtedar Khan and Marc Lynch are among those who offer a global perspective on the discourse on Islam and democracy Unlike many recent efforts which seek to either underscore or dispute the compatibility of Islam and democracy this eclectic collection begins a comprehensive conversation on Islam's role in the public sphere and charts a course toward an authentic Islamic theory of democracy Islamic Democratic Discourse is a crucial addition to the libraries of scholars interested in the future of Islam in the modern world

A Comparative Study of Islamic Finance in Australia and the UK Imran Lum, 2021-09-28 This book provides valuable insights into the practical challenges faced by the nascent Islamic finance industry and compares the Australian experience to developments in the UK It contributes to a greater understanding of how Muslims living as a minority in Australia and the UK negotiate Islamic doctrine in secular societies by focusing on one aspect of this negotiation namely the prohibition of rib There is little debate in the Islamic tradition on the prohibition of rib The differences however lie in the interpretation of rib and the question of how Muslims live in a society that is heavily reliant on interest and conventional banking yet at the same time adhere to Islamic guidelines Through the words of religious leaders Muslim professionals and university students Imran Lum provides real accounts of how Muslims in Australia and the UK practically deal with conventional banking and finance products such as home loans savings accounts and credit cards He also explores Muslim attitudes towards Islamic finance and queries whether religion is the sole determining factor when it comes to its uptake Drawing on his own unique experience as a practitioner responsible for growing an Islamic business in a conventional bank Lum provides a firsthand account of the complexities associated with structuring Islamic finance products that are not only sharia compliant but also competitive in a non Muslim jurisdiction Using uk suk bonds as a case study he highlights the tangible and non tangible barriers to product development such as tax and regulatory requirements and the rise of Islamophobia Combining academic and industry experience Lum unpacks the relationship of Islamic finance with Muslim identity construction in the West and how certain modalities of religiosity can lead to an uptake of Islamic finance while others can lead to its rejection

Immerse yourself in the artistry of words with Experience Art with its expressive creation, Discover the Artistry of **Islamic Quest For Democracy Pluralism And Human Rights** .
