*Trade Liberalisation and Economic Development in Africa* Gift Mugano, 2021-09-30 This book provides a thorough and rigorous discussion on the impact of trade liberalisation on economic development with a special focus on the African continent The author presents the rationale for trade liberalisation trade liberalisation frameworks the trade liberalisation economic development nexus impediments to trade and contemporary issues of international trade In this book notwithstanding the benefits from trade liberalisation the author shows that African trade as a share of global trade has remained flat at 3% as in 1975 while the continent's exports have remained raw materials and its intra regional trade at less than 15% of total trade which is the lowest in the world UNCTAD 2020 With

respect to key economic development indicators such as economic growth poverty levels and employment levels this book shows that ironically and in direct contrast with the conventional views that trade liberalisation alleviates poverty trade liberalisation in Africa has resulted in high levels of unemployment and low economic growth which ultimately lead to increased poverty In addition this book provides a detailed analysis of why trade liberalisation has failed to yield meaningful benefits to Africa The binding constraints and blockages which prevent positive spin offs on trade liberalisation in Africa are discussed in detail in this book In the same vein the author provides practical strategies which must be adopted by African countries in order to gain from trade liberalisation making this work a must read for African governments academia trade experts regional trading blocs the World Trade Organization and development partners In view of this and as part of the disruptive and structural transformation policies the author discusses case studies and international experience contextualised to Africa as well as strategies for addressing the trade related infrastructure gap production capacities export promotion and aid for trade

*The Lion of Judah in the New World* Theodore M. Vestal Ph.D.,2011-02-02 This insightful book relates how Emperor Haile Selassie helped shape America s image of Africa and how that image continues to evolve in the United States today The Lion of Judah in the New World Emperor Haile Selassie of Ethiopia and the Shaping of Americans Attitudes toward Africa tells the story of a dynamic ruler who influenced the perception of an entire continent Documenting the Emperor s state visits to North America the book explores U S foreign policy towards Ethiopia and Africa over two decades At the same time it seeks to understand why Haile Selassie enjoyed such celebrity in the United States and how he became so important in determining U S attitudes toward Africa The book includes a brief biography of the Emperor and also explores the geography and long colorful history of Ethiopia The tensions and contradictions that marked Haile Selassie s life are highlighted in significant episodes that underscore his astute use of public relations and personal diplomacy His leadership of postcolonial Africa during the Cold War is examined as is his ultimate rejection by the United States in 1973 that marked the end of the monarchy and ushered in the tragic fratricide of Ethiopian civil war

agricultural and rural development strategy that if implemented would alleviate rural poverty in Ethiopia The author maintains that the keys for successful development are the provision of institutional savings and credit for small scale farmers and small business owners the deep involvement of the community in project planning implementation evaluation and sharing of the benefits and the use of development support communication for motivation information dissemination and training Getahun argues strongly that ethnic politics in Ethiopia are destructive to Ethiopian society and militates against sustainable development Rather the path to peace and sustainable development requires that ethnic politics be scrapped and replaced by a genuinely democratic and widely acceptable system of governance

Cheru,Christopher Cramer,Arkebe Oqubay,2019-01-10 From a war torn and famine plagued country at the beginning of the 1990s Ethiopia is today emerging as one of the fastest growing economies in Africa Growth in Ethiopia has surpassed that of every other sub Saharan country over the past decade and is forecast by the International Monetary Fund to exceed 8 percent over the next two years The government has set its eyes on transforming the country into a middle income country by 2025 and into a leading manufacturing hub in Africa The Oxford Handbook of the Ethiopian Economy studies this country s unique model of development where the state plays a central role and where a successful industrialization drive has challenged the long held erroneous assumption that industrial policy will never work in poor African countries While much of the volume is focused on post 1991 economic development policy and strategy the analysis is set against the background of the long history of Ethiopia and more specifically on the Imperial period that ended in 1974 the socialist development experiment of the Derg regime between 1974 and 1991 and the policies and strategies of the current EPRDF government that assumed power in 1991 Including a range of contributions from both academic and professional standpoints this volume is a key reference work on the economy of Ethiopia *Defense* ,1995 **Ethiopian Elites' Political Cultures: a critical juncture** Solomon Hailemariam PhD,2025-05-09 Recurrent ethnic conflicts have been seen in Ethiopia especially during the last three decades since the introduction of a governance structure of ethnic federalism in 1991 Attempts to bring political stability to the country have not been successful as competing political cultures constantly struggle for hegemony Political constituencies have fragmented based on sub national political cultures This book shows the influence of Amhara Oromo and Tigrayan political cultures in Ethiopia and their contribution to the recurrent ethnic conflict in the country The book used the

concepts of political culture and neo patrimonialism as analytical tools to understand the differences among and between the educated people from these ethnic groups The findings show that members of each ethnic group are deeply entrenched in their own culture with clear distrust of the political motives of other ethnicities Beyond the disagreements on political history the educated elites accuse each other when it comes to the many challenges faced by the country They accuse each other of state capture corruption inciting ethnic conflicts malpractice poor governance misguided policies divide and rule practices and misappropriation of the nation s economic wealth The elites themselves do not shoulder responsibility for any failure in the country and do not show any interest in understanding other points of view do not show sincere respect for the other s value but claim privileged political positions in present day Ethiopia for past accomplishments

**Development, Administration and Aid in the Middle East** Gerd Nonneman, 2013-04-15 Successful development in the Middle East remains elusive although considerable aid is poured into the region and extensive bureaucracies for managing development have been established This book is a concise political economy of Middle Eastern development and its administration A major focus is the nature and role of State and bureaucracy Special attention is also paid to the relation between aid and development In addition to providing an analytical framework this book brings together a wealth of up to date information in an easily accessible format about the region s economic development and the structure of the countries development machinery Extensive original research in the area combined with a balanced use of Western and Arabic sources allow the author to present the most comprehensive overview of the subject available yet The book encompasses most of the Arab countries plus Ethiopia The Arab donors are also examined in detail Especially valuable and not elsewhere available are the numerous organisational charts depicting the individual countries development administrations and the Arab donors aid administrations This book will be of interest to all students of Middle East politics economics and administration as well as to students of development

*Global Heritage Assemblages* Christoph Rausch, 2016-11-25 UNESCO aims to tackle Africa's under representation on its World Heritage List by inscribing instances of nineteenth and twentieth century modern architecture and urban planning there But what is one to make of the utopias of progress and development for which these buildings and sites stand After all concern for modern heritage invariably and paradoxically it seems has to reckon with those utopias as problematic futures of the past a circumstance complicating intentions to preserve a recent culture of modernization on the African continent This book a new title in Routledge's Studies in Culture and Development series introduces the concept of global heritage assemblages to analyse that problem Based on extensive anthropological fieldwork it describes how various governmental intergovernmental and non governmental actors engage with colonial and post colonial built heritage found in Eritrea Tanzania Niger and the Republic of the Congo Rausch argues that the global heritage assemblages emerging from those examples produce problematizations of the modern which ultimately indicate a contemporary need to rescue modernity from its dominant conception as an all encompassing epochal and spatial culture
