Party Ballots, Reform, and the Transformation of America's Electoral System Erik J. Engstrom, Samuel Kernell, 2014-10-27 This book demonstrates that nineteenth century electoral politics were the product of institutions that prescribed how votes were cast and were converted into political offices

The Industrial Revolution Lee T. Wyatt III, 2008-11-30 The Industrial Revolution that began in Great Britain in the mid seventeenth century transformed the British economy and later the economies of Western Europe and the U S from a rural agricultural system into an industrial society centered around the factory system of mass production and specialized labor the right mix of social political and legal conditions in Britain at the time led to the discovery of labor The right mix of social political and legal conditions in Britain at the time led to the discovery of fresh sources of power and energy and to advances in agriculture manufacturing communication and transportation Notable results included the steam engine which made possible everything from textile factories to railroads and later in the U S the cotton gin electric light and automobiles This comprehensive volume explores all these events and more including the aftermath of the Revolution its spread beyond Britain and the U S to Asia and throughout the world allowing for a higher standard of living while challenging that standard with increased pollution and health problems a widened economic and social class gap and a weakening of traditional family structure Biographical sketches of key figures a chronology of events primary document excerpts from the period and a print and nonprint source bibliography supplement the work

The Robber Barons and the Sherman Antitrust Act Tim McNeese, 2009 During the decades following the American Civil War the economy of the United States experienced phenomenal growth At every turn in agriculture shipping merchandizing manufacturing and transportation a new American system of production and distribution was born As the economy grew so did the personal wealth of a handful of intrepid investors dealmakers and Wall Street financiers A new class of business leaders was born dominating their sectors of the nation s ever expanding industrial base To some they were the mighty titans of industry To others they were greedy robber

barons As the American people came to question the robber barons self serving business practices observers called for reform The call was answered in 1890 with the passage of the Sherman Antitrust Act a piece of legislation designed to bring down these controlling interests in the U S economy The Robber Barons and the Sherman Antitrust Act explores the foundations and repercussions of the law that reshaped American business Dialectical Democracy through Christian Thought D. Brockman,2016-04-29 Dialectical Democracy through Christian Thought offers an accessible yet theologically groundbreaking intervention into the battle over the role of government in the market This book shows that the fight over policy involves a fundamental disagreement about who we are as human beings independent individuals or essentially social creatures **Overripe Economy** Alan Nasser,2018-06-20 From industrialisation to the present day Overripe Economy is a genealogy of the emergence of a finance ridden authoritarian austerity plagued American capitalism This panoramic political economic history of the country surveys the ruthlessly competitive capitalism of the nineteenth century the maturation of industrial capitalism in the 1920s the rise and fall of capitalism s Golden Age and the ensuing decline towards the modern era Alan Nasser shows why the emergence of the persistent austerity of financialised neoliberal capitalism is the natural outcome of mature capitalism s evolution revealing both the key structural and political vulnerabilities of capitalism itself and points towards the kind of system that can transcend it At the centre of the argument is capitalism s ultimatum either a new normal of persistent austerity declining democracy and a privatised state or a polity and economy characterised by an economic democracy that can ensure both higher wages and a shorter working week **Less Than Conquerors** Doug Frank,2009-08-01 Although evangelicals enjoyed respect and leadership in American society in the decades before the Civil War their fortunes declined precipitately in the wake of the industrialism modernism and secularism of the next half century But the 1920s evangelicals felt like an embattled minority within a largely unbelieving culture and perceived that history was very much out of their control Frank examines the spiritual significance of these events by placing them against a biblical understanding of the gospel He sees in the confidence and self congratulation of the turn of the century evangelicals a portrait of the spiritually rich of the Bible who must lose their riches before they can come to know God truly Harmful uses of the gospel are explored through dispensational premillennialism the victorious life theology and the revivalism of Billy Sunday Altogether Less Than Conquerors is a call to replace the blurred and self serving gospel of a besieged subculture with the genuine gospel of Jesus Christ **Politicians and Economic Reform in New Democracies** Kent Eaton,2010-11 As economic reform in developing countries has shifted from macroeconomic stabilization to liberalization opportunities for legislators to influence the process and outcome of reform have increased and their role has become more important This book focuses attention on differences in institutional structure in political parties and electoral rules to show how they create incentives that can explain the varying ways in which legislators respond to policy initiatives from the executive branch In Argentina and the Philippines presidents proposed similar fiscal reforms in the 1990s expanding tax bases strengthening tax

administration and redesigning tax revenue sharing with subnational governments Drawing on archival research and interviews with policy makers Kent Eaton follows the path of legislation in these three areas from initial proposal to final law to reveal how it was shaped by the legislators participating in the process Obstacles to the adoption of reform he demonstrates are greater in candidate centered systems like the Philippines where the cultivation of personal reputations is paramount than in party centered systems like Argentina s where loyalty to party leaders is emphasized To test his argument further Eaton looks finally at other kinds of reform ventured in these two countries and at tax reforms attempted in some other countries

Urban Policy in Twentieth-century America Arnold Richard Hirsch, Raymond A. Mohl, 1993 The recent riots in Los Angeles brought the urban crisis back to the center of public policy debates in Washington D C and in urban areas throughout the United States The contributors to this volume examine the major policy issues race housing transportation poverty the changing environment the effects of the global economy confronting contemporary American cities Raymond A Mohl begins with an extended discussion of the origins evolution and current state of Federal involvement in urban centers Michael B Katz follows with an insightful look at poverty in turn of the century New York and the attempts to ameliorate the desperate plight of the poor during this period of rapid economic growth Arnold R Hirsch Mohl and David R Goldfield then pursue different facets of the racial dilemma confronting American cities Hirsch discusses historical dimensions of residential segregation and public policy while Mohl uses Overtown Miami as a case study of the social impact of the construction of interstate highways in urban communities David Goldfield explores the political ramifications and incongruities of contemporary urban race relations Finally Carl Abbott and Sam Bass Warner Jr examine the impact of global economic developments and the environmental implications of past policy choices Collectively the authors show us where we have been some of the needs that must be addressed and the urban policy alternatives we face

Deindustrialization and Regional Economic Transformation Lloyd Rodwin, Hidehiko Sazanami, 2017-09-05 Originally published in 1989 This major book deals with deindustrialization and regional economic transformation in five regions of the USA the industrial Midwest the South California New England and the New York metropolitan region Four perspective studies then connect these diverse experiences to intra metropolitan spatial adjustments growth prospects for industry and services and evolving regional theory and policy An overview chapter sums up the main themes common denominators and differences and some puzzles and unresolved issues All concerned with the industrial and regional evolution of the USA geographers economists planners policy makers will find this authoritative survey useful

Lessons in Economic Policy for Eastern Europe from Latin America Gary McMahon, 2016-07-27 In the 1980s a large number of Latin American countries undertook stabilization and structural adjustment programmes similar though smaller in magnitude to the ones that Eastern Europe is now undergoing In this book economists from four different Eastern European countries analyze the relevance of the Latin American experience for their own countries in the areas of fiscal policy privatization monetary policy and the external sector The book also contains two chapters with the perspective of Latin Americans as well as a synthesis of the entire volume

Placing Latin America Ed Jackiewicz, Edward L. Jackiewicz, Fernando J. Bosco, 2012 This comprehensive study offers a thematic approach to Latin America focusing on the dynamic connections between people places and environments rather than on pre defined notions about the region The book's well rounded and accessible analysis includes discussions of borders and migration transnationalism and globalization urbanization and the material environmental and social landscapes of cities and the connections between economic development and political change The authors also explore social and cultural themes such as the illegal drug trade tourism children and cinema Offering a nuanced and clear perspective this book will be a valuable resource for all those interested in the politics economy and society of a rapidly globalizing continent Contributions by Fernando J Bosco J Christopher Brown James Craine Altha J Cravey Giorgio Hadi Curti James Hayes Edward L Jackiewicz Thomas Klak Mirek Lipinski Regan M Maas Araceli Masterson Algar Kent Mathewson Sarah A Moore Linda Quiquíviz Zia

Salim Kate Swanson and Benjamin Timms Cutting the Gordian Knot of Economic Reform Leonardo Baccini, Johannes Urpelainen, 2015 During the past two decades governments across the developing world have implemented many liberal economic reforms Cutting the Gordian Knot of Economic Reform shows that international institutions formal agreements that govern policy formation in member states made possible some of the most important reforms in developing countries It takes a comparative look at developing countries that have engaged in preferential trading agreements with the United States and European Union to develop a theory of when and how leaders enter into international institutions to effect economic reform
