## **First Journey Of Exploration Across Vanc:**

**Robert Brown and the Vancouver Island Exploring Expedition** John Hayman, 2011-11-01 Robert Brown a twenty one year old Scotsman arrived on Vancouver Island in 1863 for the purpose of collecting seeds roots and plants for the Botanical Association of Edinburgh Relations with his employer quickly deteriorated however and when the opportunity arose in 1864 to head the Vancouver Island Exploring Expedition Brown eagerly accepted the position as its commander During the four and a half months of the expedition Brown kept a journal which is published here for the first time It is remarkable for its record of life on Vancouver Island over a century ago and its description of the island s pristine wilderness as well as for its proposals for future economic development The accounts of agricultural settlements at Cowichan Chemainus and Comox and of the coal mining town of Nanaimo are among the earliest available The Vancouver Island Exploring Expedition did not venture north of Comox but it crossed the island at several points often by new routes and in the process left its mark by giving place names to several locations The expedition s most celebrated achievement was the discovery of gold at Leech River named after the second in command which resulted in a short but sensational gold rush Robert Brown was exceptionally interested in the way of life of the native people His entries on land reserve policies and on the failure to settle land claims are especially pertinent today Excerpts from his related writings among them one of the earliest records of a potlatch at Alberni and a collection of Indian myths and legends display an appreciation unusual at that time Most of the known drawings of the expedition by Frederick Whymper the travelling artist are included in the book and give a contemporary view of many of the sites the expedition encountered A checklist of Brown s other writings on the northwest coast completes the book

**Islands of Truth** Daniel Clayton, 2011-11-01 In *Islands of Truth* Daniel Clayton examines a series of encounters with the Native peoples and territory of Vancouver Island in the late eighteenth and early nineteenth centuries Although he focuses on a particular region and period Clayton also meditates on how representations of land and people and studies of the past serve and shape specific interests and how the dawn of Native Western contact in this part of the world might be studied 200 years later in the light of ongoing struggles between Natives and non Natives over land and cultural status Between the 1770s and 1850s the Native people of Vancouver Island were engaged by three sets of forces that were of general importance in the history of Western overseas expansion the West s scientific exploration of the world in the Age of Enlightenment capitalist practices of exchange and the geopolitics of nation state rivalry *Islands of Truth* discusses these developments the geographies they worked through and the stories about land identity and empire stemming from this period that have shaped understanding of British Columbia s past and present Clayton questions premises underlying much of present B C historical writing arguing that international literature offers more fruitful ways of framing local historical experiences *Islands of Truth* is a timely provocative and vital contribution to post colonial studies

**Fashioning the Canadian Landscape** John Irvine Little, 2018-04-13 Interpretations of Canada s emerging identity have been largely based

on a relatively small corpus of literary writing and landscape paintings overlooking the influence of the British and American travel writers who published hundreds of books and articles that did much to fix the image of Canada in the popular imagination In *Fashioning the Canadian Landscape* J I Little examines how Canada much like the United States came to be identified with its natural landscape Little argues that in contrast to the American identification with the wilderness sublime however Canada s image was strongly influenced by the picturesque convention favoured by British travel writers This amply illustrated volume includes chapters ranging from Labrador to British Columbia some of which focus on such notable British authors as Rupert Brooke and Rudyard Kipling and others on talented American writers such as Charles Dudley Warner Based not only on the views of the landscape but on the racist descriptions of the Indigenous peoples and the romanticization of the Canadian folk Little argues that the national image that emerged was colonialist as well as colonial in nature
