D. Roche-Tarry,D. Roche-Lebrec,2011-10-12 Studies the steps taken by a group of professionals from the Boomer generation as they move from a linear career path into an uncharted stage somewhere between middle age and old age a continued professional life and traditional retirement What is next for those professionals who do not want to take a back seat at retirement age The Man from Africa Christopher Osagie,2011-12-06 In his memoir The Man from Africa author

Christopher Osagie describes the cultural differences that he experienced when he moved from Africa to the United States. In spite of these differences he adjusts to his new life and learns to appreciate the higher moral standards in his new country. From being a pest control technician to becoming a poultry specialist he demonstrates the abundance of opportunities available to anyone who is ready and willing to work very hard. In Nigeria as in many other African countries immigrating to the United States is a common dream. The United States is usually referred to as God's own country because of the perceived limitless opportunities available to all those willing to work hard in order to achieve their individual ambitions. Consequently Nigerians with successful careers—seven established professionals such as medical doctors, lawyers, and engineers—have chosen to leave behind all that they have achieved in order to immigrate to the United States where they believe they will have the opportunity to attain even more. **The Man from Africa** was written to enlighten new immigrants from other countries in Africa and from all over the world about what to expect if they choose to immigrate to the United States. **Slapstick &**
