Property Regimes and Transitional Justice in Central Eastern Europe Liviu Damşa,2017-01-03 This volume examines the property transformations in post communist Central Eastern Europe CEE and focuses on the role of restitution and privatisation in such transformations It argues that the theorisation of restitution in post communist CEE is incomplete in the transitional justice scholarship and in the literature on correction of historical wrongs The book also argues that for a more complete theorisation of post communist restitution the transformations of property in post communist societies ought to be studied in a more holistic way The main legal vehicles used for such transformations privatisation and restitution should not be studied separately and in abstract but in their reciprocal relationship and in connection to the dimension of justice which each could achieve Finally the book integrates privatisation in a theory of post communist transformation of property

decades the new international order of 1919 has grown into an expansive new area of research across multiple disciplines
With the League of Nations at its heart the interwar settlement s innovations in international organizations international law
and many other areas shaped the world we know today This book presents the first study of the relationship between this
new international order and the new regional order in Central and Eastern Europe after the collapse of the Habsburg empire
An analysis of the co implication of these two orders is grounded in four key scholarly interventions understanding the
legacies of empire in international organizations examining regionalism in the work of interwar international institutions
creating an integrated history of the interwar order in Europe and testing recent claims of the conceptual connection
between nationalism and internationalism With chapters covering international health international financial oversight
human trafficking minority rights scientific networks technical expertise passports commercial treaties borders and
citizenship and international policing this book pioneers a regional approach to international order and explores the origins
of today s global governance in the wake of imperial collapse **International Responsibility for Hostile Acts of Private**
Persons against Foreign States Manuel R. García-Mora,2012-12-06 Mankind s preoccupation with survival in this age has
given renewed impetus to the idea of a world community deeply concerned with the prevention of friction between nations
The achievement to date has been largely in terms of efforts to control acts of aggression committed by governments Most
people have assumed that the military rivalry between the great powers is the only threat confronting the world today While
readily conceding that this threat has placed mankind in a highly precarious situation this book on the other hand reflects my
conviction that any program designed to attain world peace will be significantly incomplete without the control of hostile
actions which private persons have been known to commit against foreign nations Experience shows that these actions not
only endanger the good re lations between states but are also likely to plunge the world com munity into wars thus spreading
destruction and human suffering everywhere *NATO's Post-Cold War Trajectory* M. Webber,J. Sperling,M.
Smith,2012-08-20 Two decades since the watershed of the Cold War this book investigates NATO s staying power This book
investigates how the Alliance has adapted and managed to attend to new roles and purposes through the lens of International
Relations theory The Alliance will continue but will remain subject to ongoing crises and challenges of change **East**
