Improving Employment and Income through Development of Egypt's Aquaculture Sector IEIDEAS project was implemented by WorldFish in partnership with CARE Egypt and the Egyptian Ministry of Agriculture and Land Reclamation from 2011 to 2014 and later extended to November 2015. The project focused on four governorates with significant aquaculture production: Kafr El Sheikh, Behera, Sharkia and Fayoum, and one governorate El Mineya where aquaculture was a new activity. The project was based on a value chain analysis conducted by WorldFish in September 2011 that identified the aquaculture value chain as a significant employer particularly in rural areas. The analysis suggested that there was scope to increase employment of youth and women in the aquaculture sector. The main objective was to increase aquaculture production by 10% and create 10 000 jobs. Other objectives included improving profitability for existing producers, securing employment for women fish retailers, expanding aquaculture in El Mineya and improving the policy environment for aquaculture.
