**Islam in Indonesian Foreign Policy** Rizal Sukma, 2004-03 This companion volume to the highly successful *Islam in Malaysian Foreign Policy* explores the extent to which foreign policy in the world's largest Muslim nation has been influenced by Islamic considerations

*Islam in Foreign Policy* Adeed I. Dawisha, 1985-06-13 Originally published in paperback in 1985 this book was designed to analyse the complex roles which Islam plays in the formulation and implementation of the foreign policies of a number of states in which all or a considerable part of the population is Muslim. The countries under study are Iran, Saudi Arabia, Libya, Pakistan, Egypt, Morocco, Iraq, Nigeria, Indonesia and the Soviet Union and in each case a well known authority looks at the influence of Islam on the process of foreign policy. This book provided a source of information and insight for readers with a serious interest in the subject including those in politics, international affairs and journalism

*Islam in Malaysian Foreign Policy* Shanti Nair, 2013-01-11 A case study of a multi ethnic Muslim state and a contribution to the study of the domestic functions of foreign policy. The book also addresses the real and imagined significance of Islam as a force in contemporary global politics

*Foreign Policy of the Islamic Republic of Iran* Przemyslaw Osiewicz, 2020-11-29 Providing a well balanced and impartial perspective on the foreign policy of the Islamic Republic of Iran this book contributes to a better understanding of the current foreign policy of Iran especially its internal and external determinants. Combining theoretical and practical aspects it provides readers with a short analysis of Iranian foreign policy. The first part is dedicated to the Pahlavi era between 1925-1979. The second consists of three chapters covering issues relating to ideological and institutional aspects of Iranian foreign policy after 1979. The last part incorporates eight case studies which best present both regional and global dimensions. This comprehensive study contains a synthesis of views and opinions of commentators and scholars who often represent contradictory perspectives. Serving as a key reference and starting point for further studies this book will be of interest to students and researchers studying Iranian foreign policy, international relations and Middle Eastern studies

**Transnational Islamic Actors and Indonesia's Foreign Policy** Delphine Alles, 2015-12-14 The past fifteen years have seen Indonesia move away from authoritarianism to a thriving yet imperfect democracy. During this time the archipelago attracted international attention as the most populated Muslim majority country in the world. As religious issues and actors have been increasingly taken into account in the analysis and conduct of international relations particularly since the 9/11 events Indonesia's leaders have adapted to this new context. Taking a socio historical perspective this book examines the growing role of transnational Islamic Non State Actors (NSAs) in post authoritarian Indonesia and how it has affected the making of Indonesia's foreign policy since the country embarked on the democratization process in 1998. It returns to the origins of the relationship between Islamic organisations and the

Indonesian institutions in order to explain the current interactions between transnational Islamic actors and the country's official foreign policies. The book considers for the first time the interactions between the parallel diplomacy undertaken by Indonesia's Islamic NSAs and the country's official foreign policy narrative and actions. It explains the adaptation of the state's responses and investigates the outcomes of those responses on the country's international identity. Combining field collected data and a theoretical reflexion, it offers a distanced analysis which deepens theoretical approaches on transnational religious actors. Providing original research in Asian Studies while filling an empirical gap in international relations theory, this book will be of interest to scholars of Indonesian Studies, Islamic Studies, International Relations, and Asian Politics.

**Islam and International Relations** Faiz Sheikh, 2016-07-11. International Relations tends to rely on concepts that developed on the European continent, obscuring the fact that its history is far less international than one might expect. But in today's global world, who does this ignore and marginalize? And what impact does that have on the discipline's potential to assess world politics? This book explores an Islamic approach to the international, showing that Islam can contribute keen insights into how we do IR and how we might change that practice to be more inclusive while also highlighting the limits of an Islamic International Relations. Exploring conceptualizations of community and difference in Islamic traditions, the book relates these notions to concepts that are considered universal in IR, such as state-based politics and the necessity for secularism. In this way, the book shows how the study of political Islam might help to interrogate and redefine key concepts within international politics. In a world of continuing polarization between Islam and the West, this book offers IR a chance to engage in a constructive dialogue with Islamic traditions in order to better understand global politics.

Indonesia's Foreign Policy under Suharto Leo Suryadinata, 2022-01-24. The book, which was first published in 1996, examines Indonesia's foreign policy under Suharto. It not only details Indonesia's foreign policy behaviour vis-à-vis Indonesia's neighbours and major powers but also places it in the context of foreign policy analysis. Today, the book remains as the only full-length study on Indonesia's foreign policy under Suharto. It is now reprinted with a new postscript which discusses the post-Suharto era from B.J. Habibie to Joko Widodo. Indonesia under Suharto had attempted to become a regional power to lead Southeast Asian states and beyond. As the largest country and also the richest in terms of natural resources, Suharto's Indonesia was held in deference by the ASEAN states. However, due to its limited capabilities, its lack of military strength, advanced technology, and economic strength, the political influence of Jakarta was in fact quite limited. During the economic crisis, Suharto was forced to step down. He was succeeded by B.J. Habibie, who was largely preoccupied with domestic issues, who in turn was followed by weak presidencies such as Abdurrahman Wahid, Gus Dur, and Megawati. Only after the ex-general Susilo Bambang Yudhoyono assumed presidency did he manage to stabilize the situation and attain economic growth. He even became known as the Foreign Policy President. Nevertheless, he was constrained by the harsh Indonesian reality: limited resources, a weak military, and absence of political influence. His successor, Joko Widodo, has been more concerned with

economic matters and domestic politics Indonesian regional leadership declines further

Islam and International Law, 2013-07-15 Islam and International Law explores the complex and multi faceted relationship of international law and Islam both as a religion and a legal order Current debates on Sharia Islam and the West often suffer from prejudice platitudes and stereotypes on both sides The present book seeks to engage such self centrism by providing a plurality of perspectives both in terms of interdisciplinary research and geographic backgrounds The volume thus brings together 20 contributions from scholars who cover pressing issues in fields such as the use of force in Islamic international law Islam s contribution to the development of diplomacy and the rule of law controversies as to the role of the individual human rights and international criminal law as well as Islamic visions of world order in a globalizing world Contributors Awn S Al Khasawneh Asma Afsaruddin Mohd Hisham Mohd Kamal Necmettin Kizilkaya Muhammad Munir Labeeb Ahmed Bsoul Khaled Ramadan Bashir Harriet Rudolph Irmgard Marboe Abdulmumini A Oba Javaid Rehman Lorenz Langer Abdul Ghafur Hamid Khin Maung Sein Mashood A Baderin Markus Beham Matthias Cernusca Maurits S Berger Gregor Novak Muddathir Abdel Rahim

**The New Politics of Islam** Naveed S. Sheikh, 2003-08-29 This is a timely study of the international relations of Islamic states dealing both with the evolving theory of pan Islamism from classical to post caliphal times and the foreign policy practice of contemporary states especially Saudi Arabia Iran and Pakistan from the colonial period to the global aftermath of September 11 With a concise but analytic style the book engages one by one with the questions of political theory political geography and political sociology as they relate to international Islam Its primary empirical investigation is centred on the Organization of the Islamic Conference OIC a powerful pan Islamic regime sometimes referred to as the Muslim United Nations In its theoretical deliberations on Islam and the postmodern condition the book reconstructs contemporary understandings of how religious ideas and identities influence international politics in the Islamic world

Islam and International Relations D. Abdelkader, N. Adiong, R. Mauriello, 2016-04-15 This edited volume conceives of International Relations IR not as a unilateral project but more as an intellectual platform Its contributors explore Islamic contributions to this field addressing the theories and practices of the Islamic civilization and of Muslim societies with regards to international affairs and to the discipline of IR

Saudi Arabian Foreign Policy Neil Partrick, 2016-02-23 As the only oil producer with sufficient spare capacity to shape the world economy Saudi Arabia is one of the most significant states in twenty first century geopolitics Despite the enormous potential for Saudi Arabia to play a more robust regional and international role the Kingdom faces serious internal and external challenges in the form of political incapacity and competition with states such as Iran In this examination of Saudi Arabia s foreign policy Gulf expert Neil Partrick and other regional analysts address the Kingdom s relations in the Middle East and wider Islamic world and its engagement with both established and emergent global powers In doing so he analyses the factors ranging from identity politics to Iranian acquisition of nuclear weapons that determine the Kingdom s foreign policy As Saudi Arabia prepares for a

generational shift brought about by an ageing leadership the rapidly changing balance of power in the Middle East offers both great opportunity and great danger For students of the Middle East and international relations understanding Saudi Arabia's foreign policy and its engagement with the region and the world is more important than ever Islam and Statecraft Jon Hoffman, 2025-01-23 Instead of religion influencing political outcomes this analysis examines how politics influences religious outcomes Dominant analyses examining the utilization of religion as a tool of statecraft in the Middle East remain overwhelmingly fixated on how Islam influences the foreign policies of different state actors not how political considerations often influence the forms Islam assumes and how religion itself is often molded according to strategic considerations of political elites That Islam due to its unique or exceptional relationship with politics drives political outcomes at the international level in the Middle East is a myth this book shatters by demonstrating how the political considerations of ruling elites specifically the intersection of domestic and foreign threats influence and constrain the kinds of religious soft power strategies adopted by states in the region This book develops a comprehensive analytical framework for the notion of religious soft power capable of incorporating power based identity based and ideational variables to examine how states couple religion with their broader foreign policy conduct This framework is applied to the Middle East through the specific examination of three countries Saudi Arabia Qatar and the United Arab Emirates in the period following the Arab Uprisings to demonstrate how specific religious narratives identities histories and ideologies are constructed by political elites in the Middle East for the advancement of what are inherently political objectives namely the imperatives of regime preservation and power projection **Islam in International Relations** Nassef Manabilang Adiong, Raffaele Mauriello, Deina Abdelkader, 2018-11-02 Islam in International Relations Politics and Paradigms analyses the interaction between Islam and IR It shows how Islam is a conceptualization of ideas that affect people's thinking and behaviour in their capacity to relate with IR as both discipline and practice This approach challenges Western based and defined epistemological and ontological foundations of the discipline and by doing so contributes to worlding IR as a field of study and practice by presenting and discussing a broad range of standpoints from within Islamic civilization The volume opens with the presentation and discussion of the international thought of a major Muslim leader followed by a chapter that addresses the ethical practice of IR from traditional pacifism to modern Arab political philosophy It then switches to applying constructivism as a tool to understand Islam in world affairs and proceeds to address the issue of how the ethnocentric approach of Western academia has hindered our understanding of world affairs The volume moves on to address the ISIS phenomenon a current urgent issue in world affairs and closes with a look at Islamic geopolitics This comprehensive collection will be of great interest to students scholars and policy makers with a focus on the Muslim world *The Foreign Policy of Hamas* Leila Seurat, 2022-01-27 Despite the boycott Hamas was subjected to since its victory in the 2006 parliamentary elections it has become a significant player on the international stage It boasts a territory identifiable by its

borders internationally recognized cease fire lines and effective authority over a population This book a study in international relations shows how Hamas willingly mobilizes Palestinian internal issues to establish its legitimacy on a global scale and at the same time uses its relations with non Palestinian players to compete against its political rivals on the Palestinian national stage Leila Seurat reveals that Hamas s foreign and internal policy are strongly intertwined and centred mainly on Hamas s quest for recognition The book then is a comprehensive diplomatic history of Palestine focused on the political orientations of Hamas towards both Israel and other countries Its coverage spans the movement s victory in 2006 up until more recent momentous events including Hamas response to Trump s deal of the century and Israel s announcement of the annexation of the Jordan Valley as well as the proclamation of normalization accords between Israel and the United Arab Emirates and the impact of Covid19 The book is based on Leila Seurat s extensive fieldwork and interviews with Hamas s leading officials across the West Bank Gaza Damascus Geneva and Beirut in addition to recent video conferences planned by various NGOs and attended by West Bank Gaza and Diaspora Palestinians

#### **Explaining Pakistan's Foreign Policy**

Aparna Pande,2011-03-16 Pakistan has over the decades become a hotbed for the terrorist ideology often referred to as Jihadism This book investigates the underlying principles of Pakistan s foreign policy from 1947 until the present day and explains the rise of Jihadism as an offshoot of Pakistan s security concerns The book goes on to discuss that from its inception as a separate state Pakistan s foreign policy focused on seeking parity with India and escaping from an Indian South Asian identity The desire to achieve parity with its much larger neighbour led Pakistan to seek the assistance and support of allies The author analyses the relationship Pakistan has with Afghanistan United States China and the Muslim world and looks at how these relationships are based on the desire that military economic and diplomatic aid from these countries would bolster Pakistan s meagre resources in countering Indian economic and military strength The book presents an interesting contribution to South Asian Studies as well as studies on International Relations and Foreign Policy

United States in the "New World Order" Lori Maguire,2009-01-14 The goal of this book is to examine some of the major foreign policy debates in the United Kingdom and the United States in the period from 1992 to 2008 from the end of the Cold

War and the aftermath of the first Gulf War to the 2008 American presidential election The first President Bush spoke in 1991 of a new world order which seemed to mean an American hegemony The United States was now the world's only superpower although a superpower afflicted with weaknesses especially economic ones But by 2008 the new world order did not seem so new or so strongly American The period saw the terrorist attacks against the U S of 11 September 2001 military problems for the superpower in Afghanistan and Iraq and by the summer of 2008 near economic collapse In all of these developments Britain shared to a lesser or a greater extent It is hoped that this book will shed an important light both on each nation and on the so called special relationship between the two Furthermore this book is also not specifically concerned with policy or how policy is made but with the debate around policy and the rhetoric used to present different points of view The Special Relationship between the US and Britain remains an enigmatic ever changing but still very powerful factor in world politics As an examination of their foreign policy discourses reveals from the perspective of culture and values few Western countries are as different as the United Kingdom and the US With very few exceptions the foreign policies of Gladstone and Tony Blair and Churchillian rhetoric unmatched by his supremely realpolitical politics British governments abhor talking about values and ideals The British cultural peculiarity is to dismiss ideology and values as packaging only to be caught by surprise time and again that they cannot do business with Herr Hitler or that people kill each other for their values religions constructed identities and ideologies Most American governments by contrast have had ideological and moral crusades embroidered on their banners in their foreign policy There is a convergence with Britain when both proclaim that all they are doing is in their self interest but the Americans unashamedly assume that what is good for America is good for the world while the British discourse with the UK's decline since 1945 rarely goes that far As an analysis of their discourses reveals the Special Relationship is thus clearly founded on something either deeper or more superficial than shared culture or values this volume sheds light on this surprising fact in most illuminating ways and Lori Maguire's achievement in bringing together these examinations is praiseworthy indeed Prof Beatrice Heuser University of Reading
