## **Issues Agents In International Polit:**

**Issues and Agents in International Political Economy** Benjamin J. Cohen, Charles Lipson, 1999 This is the second of two anthologies on international political economy drawn from articles published in the journal *International Organization*. The book is organized into four sections: Trade, Multinational Firms and Globalization, Money and Finance, and Emerging Issues. **Issues In International Relations** Steve Chan, 1987 **Agency, Structure and International Politics** Gil Friedman, Harvey Starr, 2002-11-01

The concepts of agency and structure are of increasing and defining importance to international relations and politics as fields of enquiry and knowledge. This is the first book to explore the two concepts in depth in that context. The agent structure problem refers to questions concerning the interrelationship of agency and structure and to the ways in which explanations of social phenomena integrate and account for them. This is an important contribution to the study of international relations and politics. *African Agency in International Politics* William Brown, Sophie Harman, 2013-03-20 This book analyses the rapidly increasing role of African states, leaders and other political actors in international politics in the 21st Century. In contrast to the conventional approach of studying how external actors impacted on Africa's international relations, this book seeks to open up a new approach focusing on the impact of African political actors on international politics. It does this by analysing African agency, the degree to which African political actors have room to manoeuvre within the international system and exert influence internationally, and the uses they make of that room for manoeuvre. Bringing together leading scholars from Africa and Europe to explore the role and conception of African Agency, this book addresses a wide range of issues from relations with western and non-western donors, Africa's role in the UN and World Trade Organisation, negotiations over climate change, trade agreements with the European Union, regional diplomatic strategies, the character and extent of African state agency and agency within corporate social responsibility initiatives. *African Agency in International Politics* will be of interest to scholars and students of Africa's international relations, African politics, development, geography, diplomacy, trade, the environment, political science and security studies.

**Popular Dissent, Human Agency and Global Politics** Roland Bleiker, 2000-03-02 Popular dissent such as street demonstrations and civil disobedience has become increasingly transnational in nature and scope. As a result, a local act of resistance can acquire almost immediately a much larger cross-territorial dimension. This book draws upon a broad and innovative range of sources to scrutinise this central but often neglected aspect of global politics. Through case studies that span from Renaissance perceptions of human agency to the collapse of the Berlin Wall, the author examines how the theory and practice of popular dissent has emerged and evolved during the modern period. Dissent, he argues, is more than just transnational. It has become an important transversal phenomenon, an array of diverse political practices which not only cross national boundaries but also challenge the spatial logic through which these boundaries frame international relations.

*Technology and Agency in International Relations* Marijn Hoijtink, Matthias Leese, 2019-04-23 This book responds to a

gap in the literature in International Relations IR by integrating technology more systematically into analyses of global politics Technology facilitates accelerates automates and exercises capabilities that are greater than human abilities And yet within IR the role of technology often remains under studied Building on insights from science and technology studies STS assemblage theory and new materialism this volume asks how international politics are made possible knowable and durable by and through technology The contributors provide empirically rich and pertinent accounts of a variety of technologies relevant to the discipline including drones algorithms satellite imagery border management databases and blockchains Problematizing various technologically mediated issues such as secrecy violence and questions of how authority and evidence become constituted in international contexts this book will be of interest to scholars in IR in particular those who work in the subfields of critical security studies International Political Economy and Global Governance Chapter 7 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

*Encyclopedia of International Relations and Global Politics* Martin Griffiths, 2013-11-26 Provides a unique reference source for students and academics covering all aspects of global international relations and the contemporary discipline across IR's major subject divisions of diplomacy military affairs international political economy and theory

*International Politics of HIV/AIDS* Hakan Seckinelgin, 2007-08-07 This book examines the global governance of the HIV/AIDS epidemic interrogating the role of this international system and global discourse on HIV/AIDS interventions The geographical focus is Sub-Saharan Africa since the region has been at the forefront of these interventions There is a need to understand the relationship between the international political environment and the impact of resulting policies on HIV/AIDS in the context of people's lives Hakan Seckinelgin points out a certain disjuncture between this governance structures and the way people experience the disease in their everyday lives Although the structure allows people to emerge as policy relevant target groups and beneficiaries the articulation of needs and design of policy interventions tends to reflect international priorities rather than people's thinking on the problem In other words he argues that while the international interventions highlight the importance attributed to the HIV/AIDS problem the nature of the system does not allow interventions to be far reaching and sustainable Offering a critical contribution to the understanding of the problems in HIV/AIDS in Sub-Saharan Africa *International Politics of HIV/AIDS* will be invaluable to students and researchers of health international politics and development

*The African Union and African Agency in International Politics* Tshepo Gwatiwa, 2021-12-10 This book examines the role of the African Union in relation to African agency in international politics It examines the manner and extent to which the African Union exercises two forms of agency shirking and slippage in its strategic and collaborative partnerships The author focuses on four major AU partnerships with the European Union NATO the United Nations and US AFRICOM The book examines African agency in each partnership by exploring the politics and dynamics of each partnership in different aspects the multilevel engagement institutionalization

resource contribution and disbursement as well as preference linkage. It specifically does that by examining African ownership and leadership in all of these aspects. The book highlights the role of agency slack as a survival strategy to escape from the AU's subaltern position in international politics. It designates the partnership with the European Union as emblematic of African agency while the others exhibit different forms of agency slack. Partnerships with NATO and the United Nations exhibit shirking while that with the US AFRICOM exhibits slippage. JAIR Journal of International Relations Arnab Chakrabarty, Bijaya Kumar Das, Piyali Dutta, Moutusi Paul Choudhury (Naskar), Roshni Chaudhuri, Prosenjit Pal, Debjani Ghosal, Pratinashree Basu, 2016-12-31 JAIR Journal of International Relations JAIR J Int Relat is a biennial peer reviewed refereed journal of International Relations published by The Jadavpur Association of International Relations with the financial assistance from the Indian Council of Social Science Research ICSSR New Delhi **International Relations of East Asia** Xiaoming Huang, 2019-12-28 East Asia's rapidly changing role in international security the global economy development and global governance are expertly accounted for in this much needed state of the art text. *Social Movements in Global Politics* David West, 2013-11-04 In the face of impending global crises and stubborn conflicts a conventional view of politics risks leaving us confused and fatalistic feeling powerless because we are unaware of all that can be achieved by political means David West highlights the many ways in which national and global institutions depend on a broader context of extra institutional action or what is in effect the formative dimension of politics

The Role, Position and Agency of Cusp States in International Relations Marc Herzog, Philip Robins, 2014-06-20 This work seeks to develop a new concept with which to analyse the actions and activities of states that tend to be relatively ignored by the discipline of International Relations IR As a discipline IR has a tendency to lean towards the analytically safe Given the current and recent dynamism of the international system that is both surprising and undesirable Arranged around the concept of the idea of the Cusp State and cuspness more generally the book consists of empirical analysis of eight different countries Brazil Iran Israel Japan Mexico Taiwan Turkey and Ukraine defined as states that lie uneasily on the political and or normative edge of what is widely believed to be an established region By focusing on the importance of comparing groups of states like states with high degrees of cuspness this book argues that it is possible to categorise the world in a fresher and more original way and one which covers more of the globe than either a systemic or regionalist approach would do This work will be of great interest to students and scholars of Geopolitics International Security and Regionalism
