Issues Of Governance And International Investment And Multinational Enterprises:

Issues of Governance and International Investment and Multinational Enterprises Jack G. Clarke, 1983-01-01 This paper discusses the problems and benefits of multinational corporations and explains their role so that they can be understood as a living and permanent part of our world crossing and recrossing the lines between the public and private sector Via the multinational corporation modern technologies transcend political boundaries and bring economic benefits of raw material developments manufacturing services and trade stimulus to the industrialized world Co published with the Aspen Institute

OECD Global Forum on International Investment Foreign Direct Investment and the Environment Lessons from the Mining Sector OECD, 2002-08-14 This book deepens the analysis of the FDI Environment relationship by concentrating on the mining sector and identifying best practices International Investment for Sustainable Development Lyuba

Zarsky, 2012-05-23 International Investment for Sustainable Development critically examines the interface between sustainability development and the governance of international investment It challenges the conventional view that foreign direct investment is a miracle drug for developing countries and exposes serious shortcomings in the current international investment regime Composed of norms agreements treaties and regulations the emerging investment regime expands the rights of transnational corporations TNCs without commensurate rewards for the common good Drawing on both research and engaged advocacy the contributors ultimately map out a new way forward towards the creation and implementation of international investment rules that will promote global sustainability and equity *The BRICS Studies* Xu Xiujun, 2020-05-14 Given their immense potential for development and representation of a new international political and economic order the BRICS countries have become a strong nascent force on the global stage However as overall economic growth continues to slow down and the geopolitical situation becomes more complex the BRICS countries are facing a series of new challenges that require further development in the way they cooperate with one another This volume offers a panoramic view of cooperation between the BRICS countries in the light of these new challenges The editors reveal that policy coordination has been strengthened bringing into play complementary advantages as viable ways for promoting robust sustainable and balanced growth in the world economy They argue that the experience gained and lessons learned in the development of and cooperation between the BRICS countries has offered a positive role model for cooperation between other countries as well as providing valuable lessons for research in international politics Students and scholars in international relations and politics will benefit from this volume *New Challenges in International Investment* Robert D. Challenges for International Business Research John H. Dunning, 2010-01-01 In this final collection of his essays John Dunning looks back on more than 40 years of research in International Business IB whilst at the same time considering possibilities for the future International Investment Law and Development Stephan W. Schill, Christian J. Tams, Rainer Hofmann, 2015-12-18 International investment law has often been seen as an obstacle to sustainable development While the

connections between investment and development are plain for a long time there has been relatively little scholarship exploring them Combining critical reflection and detailed analysis this book addresses the relationship between contemporary investment law and development The book is organized around two competing visions of investment and development as working either harmoniously or in conflict with one another The expert contributors reflect on both of these views and analyse the social dimensions of development and its impact on investment law Coverage includes in depth discussion on such issues as human rights poverty reduction labor standards and indigenous peoples Students and scholars of international investment law will benefit from the informed analysis of the links between investment and development This book will also be of use to practitioners and experts of development law who are looking for an up to date perspective of the field

Interconnected Economies Benefiting from Global Value Chains OECD,2013-05-28 This book examines how global value chains have evolved and the policy challenges they have created

Prospects in International Investment Law and Policy Roberto Echandi,Pierre Sauvé,2013-04-18 The negotiation of a patchy but burgeoning network of international investment agreements and the increasing use to which they are put is generating a growing body of jurisprudence which while still evolving requires closer analytical scrutiny Drawing on many of the most distinguished voices in investment law and policy and offering novel multidisciplinary perspectives on the rapidly evolving landscape shaping international investment activity and treaty making this book explores the most important economic legal and policy challenges in contemporary international investment law and policy It also examines the systemic implications flowing from frenetic recent judicial activism in investment matters and advances several innovative propositions for how best to promote greater overall coherence in rule design treaty use and policy making and thus offer a better balance between the rights and obligations of international investors and host states

Working Together Towards Sustainable Development The OECD Experience OECD,2002-06-04 The report assesses the contribution made by OECD countries both at home and internationally and brings together the main lessons learned through the Organisation s extensive work on sustainable development

Global Values and International Trade Law Csongor István Nagy,2021-12-26 Exploring the relationship and interaction between economic interests and normative non trade values this book argues that the emergence and development of non trade values is based on a complex dialectic interaction between selfish economic interests and normative values and examines how their structural interdependence has given rise to a remarkable evolution in

international trade Conceiving this relationship as an intricate dialectic one that is neither purely value driven nor purely economic interest driven it addresses the emergence function and role of non trade values in international trade with a synthetizing approach and explores the results of their interaction in international economic intercourse Approaching the non trade issues of trade in a holistic manner the book demonstrates that trade can operate smoothly only if it is framed by an architecture of normative value standards and international trade liberalization has reached the level where further development calls for cooperation also in fields that at first glance may appear to be non trade in nature **The**

Department of State Bulletin ,1979 The official monthly record of United States foreign policy **Asian Perspectives on International Investment Law** Junji Nakagawa,2019-03-11 With changes to the international investment law landscape and Asian countries now actively developing their network of bilateral investment treaties BITs and free trade agreements FTAs this volume studies issues relating to Asian perspectives on international investment law and forecasts the future of Asian contribution to its science and practice The book discusses the major factors that have been driving Asian countries to new directions in international investment rule making and dispute settlement It also looks at whether Asian countries are crafting a new model of international investment law to reflect their specific socio cultural values Finally the book examines whether there are any Asian styles of international investment rule making and dispute settlement or if individual Asian countries are seeking specific national models based on economic structure and geopolitical interests This unique collection is exceptionally useful to students scholars and practitioners of international investment law international trade law and public international law *The Nationality of Corporate Investors under International Investment Law* Anil Yilmaz Vastardis,2020-10-01 This monograph offers a detailed and distinctive analysis of corporate nationality under international investment law covering the ICSID Convention and the investment treaty framework It takes the reader back to the basics threading through the concepts of jurisdiction nationality and corporate personality to give a clear context to the discussion of corporate nationality under international investment law at a time when international investment is dominated by multinational business enterprises operating in a globalised economy The book examines different understandings of corporate personality and nationality under a selection of jurisdictions and public international law It also offers an in depth analysis of approaches found in ICSID arbitral awards and in investment treaty practice distilling the problematic areas and discussing the impacts of the areas of concern It evaluates the techniques developed to address problems and puts forward suggestions for effective and balanced solutions to the questions of corporate nationality and personal scope of investment protection Directory of OECD Intergovernmental Bodies 2006 Mandates, Chairs, Membership OECD,2006-05-30 This directory is a guide to country participation in the various committees and working groups of the OECD the IEA and the NEA for the year 2006 Environmental Interests in Investment Arbitration Flavia Marisi,2020-01-24 Environmental Interests in Investment Arbitration Challenges and Directions Flavia Marisi Economic growth social inclusion and environmental

protection stand at the core of sustainable development which aims to deliver long term growth for current and future generations Foreign Direct Investment FDI can play a key role in sustainable development Host states benefits descending from FDI inflows include tax revenues technology transfer specialised training of local human resources network with satellite activities better availability of quality products and customer centric services These downstream effects jointly stimulate economic growth and social inclusion This thoroughly researched book explores the relationship between environmental protection the third component of sustainable development and FDI In practice the intersection between environmental protection and foreign investment not only has generated remarkable success stories such as cross sectoral green investment but has also in some instances led to severe cases of environmental degradation Certain foreign investments resulted in open pit mines leaking harmful substances into the soil excessive deforestation improper treatment of water pollution of groundwater and contamination of mud pits following oil exploitation leaving the host state with significant environmental damage Some other cases have witnessed the host state withdrawing or infringing its own environmental policies which could in principle lead to a decrease in the value of the foreign investment as a result of natural resources deterioration In recent years an increasing number of investment arbitration cases have seen a clash between the states commitments towards their citizens which include the duty to protect the environment their health and well being and the commitment towards foreign investors to protect their investments In this book the author focuses on investor state cases in which environmental protection measures have been contested and discusses substantive mechanisms in treaty drafting rules of Customary International Law and interpretation doctrines which are aimed at taking environmental concerns into consideration The topics covered include the following statistical analysis of investor state cases where environmental protection measures have been contested the role of environmental principles in investor state arbitration treaty mechanisms addressing environmental concerns legal tools available under Customary International Law to address environmental interests the application of the doctrines of proportionality police powers and margin of appreciation and environmental counterclaims as an instrument to claim compensation for environmental damage The author provides a detailed framework on the normative architecture offers an extensive analysis of the relevant case law and proposes concrete solutions to the identified clashes aimed at refining the balance between environmental and investment protection With its in depth analysis and careful documentation this book aptly captures the inherent fragmentation of international law and undoubtedly represents an invaluable resource for both international law practitioners and scholars The solution oriented approach adopted in the book will be welcomed by legal counsel law firms investment treaty negotiators and decision makers at the different stages of investment lawmaking and practice as well as by international institutions and academics
