Books in Print Supplement ,1982 **Subject Guide to Books in Print** ,1983 *Mission of the University* Jose Ortega y Gasset,2017-07-28 In 1930 the great Spanish philosopher Jose Ortega y Gasset set forth a program for reforming the modern Spanish university Aware that the missions of the university are many and often competing Ortega built his program around a conception of a general culture that knows no national boundaries or time limits and could fit into any national system of higher education His ideas are especially pertinent to contemporary debate in America over curriculum development and the purpose of education In this volume Ortega sought to answer two essential questions what is the knowledge most worth knowing by all students and what is the function of the university in a modern democracy Basing his answers on his own deep personal culture and an extensive knowledge of the various European university systems Ortega defined four primary missions the teaching of the learned professions the fostering of scientific research training for political leadership and finally the creation of cultured persons with the ability to make intellectual interpretations of the world Ortega s understanding of general culture is set out in great detail here He meant an active engagement in ideas and issues that were both historical and contemporary His concern is with the classical problems of justice the good society who should rule and the responsibilities of citizenship In his informative and brilliant introduction to this new edition Clark Kerr a lifetime student of Ortega s work analyzes Ortega s ideas in their historical context and speculates on how the great issues he dealt with here can be made contemporary for modern students facing the challenges and uncertainties of the twenty first century Mission of the University and its new opening essay will be of interest to educationists social scientists and above all the students of this era **Bok og samfunn** ,1985 **Verzeichnis lieferbarer Bücher** ,2002 The Politics of Literary Prestige Sarah E.L. Bowskill,2022-04-07 The Politics of Literary Prestige provides the first comprehensive study of prizes for Spanish American literature Covering state sponsored and publisher run prizes including the Biblioteca Breve Prize credited with launching the Boom in Spanish American literature the Premio Cervantes and the Nobel Prize for Literature this book examines how prizes have underpinned different political agenda As new political positions have emerged so have new

awards and the role of the author in society has evolved Prizes variously position the winners as public intellectual spokesperson on the world stage or celebrity in the context of an increasingly globalized literature in Spanish Drawing on a range of sources Sarah E L Bowskill analyses prizes from the perspective of different stakeholders including states publishers authors judges and critics In so doing she untangles the inner workings of literary prizes in Spanish speaking contexts proposes the existence of a prizes network and demonstrates that attitudes to cultural prizes are not universal but are culturally determined

Habits of Mind Antonio T. De Nicolás,2000 This stimulating new work is based on a highly successful and extremely popular course which Professor De Nicolas has taught at the State University of New York at Stony Brook for over 15 years In Habits of Mind De Nicolas reveals that the most important achievement of education is to develop in students those skills that enable them to participate fully in the life of humankind He calls these skills the inner technologies and intends by the phrase something very different from cognitive skills Education he claims must nurture the capacity for fantasy and imagination In Habits of Mind he traces the relative importance of these capacities through the history and philosophy of education from Plato onward The habits of intellectual discourse are treated as an organic thread from the ancient past to the present
