Frontiers Of Anthropology:

Frontiers of Anthropology Ashley Montagu, 1974 **Untaming the Frontier in Anthropology, Archaeology, and History** Bradley J. Parker, Lars Rodseth, 2005-10 Despite a half century of attempts by social scientists to compare frontiers around the world the study of these regions is still closely associated with the nineteenth century American West and the work of Frederick Jackson Turner As a result the very concept of the frontier is bound up in Victorian notions of manifest destiny and rugged individualism The frontier it would seem has been tamed This book seeks to open a new debate about the processes of frontier history in a variety of cultural contexts untaming the frontier as an analytic concept and releasing it in a range of unfamiliar settings Drawing on examples from over four millennia it shows that throughout history societies have been formed and transformed in relation to their frontiers and that no one historical case represents the normal or typical frontier pattern The contributors historians anthropologists and archaeologists present numerous examples of the frontier as a shifting zone of innovation and recombination through which cultural materials from many sources have been unpredictably channeled and transformed At the same time they reveal recurring processes of frontier history that enable world historical comparison the emergence of the frontier in relation to a core area the mutually structuring interactions between frontier and core and the development of social exchange merger or conflict between previously separate populations brought together on the frontier Any frontier situation has many dimensions and each of the chapters highlights one or more of these from the physical and ideological aspects of Egypt's Nubian frontier to the military and cultural components of Inka outposts in Bolivia to the shifting agrarian religious and political boundaries in Bengal They explore cases in which the centripetal forces at work in frontier zones have resulted in cultural hybridization or creolization and in some instances show how satellite settlements on the frontiers of core polities themselves develop into new core polities Each of the chapters suggests that frontiers are shaped in critical ways by topography climate vegetation and the availability of water and other strategic resources and most also consider cases of population shifts within or through a frontier zone As these studies reveal transnationalism in today's world can best be understood as an extension of frontier processes that have developed over thousands of years This book's interdisciplinary perspective challenges readers to look beyond their own fields of interest to reconsider the true nature and meaning of frontiers Frontiers of Anthropology Murray J. Leaf, Bernard Grant Campbell, 1974 **Research Frontiers in Anthropology** Carol R. Ember, Melvin Ember, 1994 Research Frontiers in Anthropology, 1994 **Research Frontiers in Anthropology** Pearson Custom Publishing, 1998-03-01 **New Frontiers in Anthropology** William Montague Cobb, 1938 **Research Frontiers in Anthropology**, 1998 Research Frontiers in Anthropology, 1997 **Bioarchaeology of Frontiers and Borderlands** Cristina I. Tica, Debra L. Martin, 2019-08-21 Bioarchaeology of Frontiers and Borderlands presents a series of cases addressing how living on or interacting with the frontier can affect health and socioeconomic status The goal is to explore how people in the past might

have maintained created or manipulated their identity while living in a place of liminality stuck in between worlds The zone of in betweenness of demarcation between two or more spheres of influence is a very dynamic and potentially violent place This book aims to explore how different groups stuck in these zones were affected how they interacted with the different worlds and how they lived their lives on the edge **Frontiers of Anthropology** B. Mohan Reddy,Ranjan Gupta,1995

Pergamon Frontiers of anthropology ,1976 **Research Frontiers in Anthropology** ,1998 *Ceramics of Ancient America* Yumi Park Huntington,Dean E. Arnold,Johanna Minich,2018-09-12 This is the first volume to bring together archaeology anthropology and art history in the analysis of pre Columbian pottery While previous research on ceramic artifacts has been divided by these three disciplines this volume shows how integrating these approaches provides new understandings of many different aspects of Ancient American societies Contributors from a variety of backgrounds in these fields explore what ceramics can reveal about ancient social dynamics trade ritual politics innovation iconography and regional styles Essays identify supernatural and humanistic beliefs through formal analysis of Lower Mississippi Valley Great Serpent effigy vessels and Ecuadorian depictions of the human figure They discuss the cultural identity conveyed by imagery such as Andean head motifs and they analyze symmetry in designs from locations including the American Southwest Chapters also take diachronic approaches methods that track change over time to ceramics from Mexico s Tarascan State and the Valley of Oaxaca as well as from Maya and Toltec societies This volume provides a much needed multidisciplinary synthesis of current scholarship on Ancient American ceramics It is a model of how different research perspectives can together illuminate the relationship between these material artifacts and their broader human culture Contributors Dean Arnold George J Bey III Michael Carrasco David Dye James Farmer Gary Feinman Amy Hirshman Yumi Park Huntington Johanna Minich Shelia Pozorski and Thomas Pozorski Jeff Price Sarahh Scher Dorothy Washburn Robert F Wald **Frontier Road** Simón Uribe,2017-07-24 Frontier Road uses the history of one road in southern Colombia known locally as the trampoline of death to demonstrate how state building processes and practices have depended on the production and maintenance of frontiers as inclusive exclusive zones often through violent means Considers the topic from multiple perspectives including ethnography of the state the dynamics of frontiers and the nature of postcolonial power space and violence Draws attention to the political environmental and racial dynamics involved in the history and development of transport infrastructure in the Amazon region Examines the violence that has sustained the state through time and space as well as the ways in which ordinary people have made sense of and contested that violence in everyday life Incorporates a broad range of engaging sources such as missionary and government archives travel writing and oral histories *Frontiers of Anthropology* Ajit K. Danda,Amitabha Basu,Arabinda Basu,1993 **Ancient Giants** Xaviant Haze,2018-06-12 Investigates physical evidence history and myths to reveal the lost race of giants that once dominated the world Reveals suppressed archaeological and scientific discoveries supporting the existence of a worldwide race of giants Examines giant myths and

legends from ancient religious texts and literature from around the world Includes findings from throughout Europe Britain France Spain Italy Germany and Russia the Middle East Israel Egypt Syria Iraq and Iran Africa Australia New Zealand and the Far East China Japan Malaysia and the Philippines From the Nephilim and Goliath in the Bible to the Titans in Greek mythology and the Fomorians and Frost Giants in Celtic and Nordic lore almost every culture around the world has spoken of an ancient race of giants Giant footprints left in the geological bedrock tens of thousands of years old have been discovered in India China and the war torn lands of Syria Giant bones and full skeletons have been found in Europe the Middle East Africa Australia and Asia Yet despite mounting evidence mainstream science continues to consign these findings to the fringe Examining global myths historical records megalithic ruins and archaeological findings Xaviant Haze provides compelling evidence for a lost race of giants in Earth s prehistory He explores myths that go back thousands of years including those found in the world s holiest scriptures as well as medieval and modern myths such as Geoffrey of Monmouth s account of the first kings of Britain and the stories of giant bones unearthed by Allied soldiers during World War II He investigates historical reports of ancient giants found in Ireland and the British Isles the remains of which mysteriously disappeared shortly after their discovery He explores the legends of giants in Russia and goes deep into the Far East revealing the multitude of fascinating giant legends in China Haze explains how giants were responsible for the megalithic wonders of Malta and how the early settlers of Australia discovered the remains of giants but these findings were suppressed by the Royal Academies He also explores the mythic origins of the giants Were they the hybrid results from genetic experiments of ancient aliens or from the interbreeding of the fallen angels with the daughters of man Covering legends and finds from throughout Europe the Middle East Africa Australia New Zealand and the Far East Haze also presents in its entirety *The Book of Giants* a portion of the Dead Sea Scrolls suppressed due to its overwhelming support for the existence of giants in antiquity

Mythic Frontiers Daniel R. Maher, 2019-03-04 Maher explores the development of the Frontier Complex as he deconstructs the frontier myth in the context of manifest destiny American exceptionalism and white male privilege A very significant contribution to our understanding of how and why heritage sites reinforce privilege Frederick H Smith author of *The Archaeology of Alcohol and Drinking* Peels back the layer of dime westerns and True Grit films to show how their mythologies are made material You ll never experience a heritage site the same way again Christine Bold author of *The Frontier Club* Popular Westerns and Cultural Power 1880 1924 The history of the Wild West has long been fictionalized in novels films and television shows Catering to these popular representations towns across America have created tourist sites connecting such tales with historical monuments Yet these attractions stray from known histories in favor of the embellished past visitors expect to see and serve to craft a cultural memory that reinforces contemporary ideologies In *Mythic Frontiers* Daniel Maher illustrates how aggrandized versions of the past especially those of the American frontier have been used to turn a profit These imagined historical sites have effectively silenced the violent oppressive colonizing forces of manifest destiny and

elevated principal architects of it to mythic heights Examining the frontier complex in Fort Smith Arkansas where visitors are greeted at a restored brothel and the reconstructed courtroom and gallows of Hanging Judge Isaac Parker feature prominently Maher warns that creating a popular tourist narrative and disconnecting cultural heritage tourism from history minimizes the devastating consequences of imperialism racism and sexism and relegitimizes the privilege bestowed upon white men

Anthropology's Global Histories Rainer F. Buschmann, 2008-10-31 Anthropologists and world historians make strange bedfellows Although the latter frequently employ anthropological methods in their descriptions of cross cultural exchanges the former have raised substantial reservations about global approaches to history Fearing loss of specificity anthropologists object to the effacing qualities of techniques employed by world historians this despite the fact that anthropology itself was a global comparative enterprise in the nineteenth century Rainer Buschmann here seeks to recover some of anthropology's global flavor by viewing its history in Oceania through the notion of the ethnographic frontier the furthestmost limits of the anthropologically known regions of the Pacific The colony of German New Guinea 1884-1914 presents an ideal example of just such a contact zone Colonial administrators there were drawn to approaches partially inspired by anthropology Anthropologists and museum officials exploited this interest by preparing large scale expeditions to German New Guinea Buschmann explores the resulting interactions between German colonial officials resident ethnographic collectors and indigenous peoples arguing that all were instrumental in the formation of anthropological theory He shows how changes in collecting aims and methods helped shift ethnographic study away from its focus on material artifacts to a broader consideration of indigenous culture He also shows how ethnological collecting often a competitive affair could become politicized and connect to national concerns Finally he places the German experience in the broader context of Euro American anthropology Anthropology's Global Histories will interest students and scholars of anthropology history world history and Pacific studies

International Human Rights Alison Dundes Renteln, 1990-02 The book will interest scholars and students in political science sociology peace studies cross cultural research and philosophy
