*The Works of Thomas Goodwin, D.D.* Thomas Goodwin (D.D.), 1864 *James* Ruth Anne Reese, 2024-12-05 In the early days of the church James taught a message of joyful endurance resisting temptation and putting into practice the truth of the word the church had received This little book offered reflections on trials sin and desire on the challenges of controlling speech in the context of community and the damage such uncontrolled speech can bring about and on the dangers of wealth and autonomy James holds up a picture of a community that seeks a life of purity prayer and patience He confronts those who choose their own way over God's way and speaks words of judgment against those who oppress and steal from the poor In contrast this community of early Christians is one of wisdom joy and praise that seeks healing for those among them who suffer At each step James encourages these Christians to consider the two ways the way of righteousness and the way of evil and to choose the good This ancient book offers wisdom for today as we too seek to live godly lives of prayer purity and care for one another in a world that seeks to pull us away from God Shankara on the Creation Shri Shankara, 2022-12-19 This is volume two of the six volume Shankara Source Book which contains writings by Shri Shankara arranged systematically by subject Shri Shankara was a great philosopher sage who expressed the non dual teachings in such a complete and satisfactory way that his formulation has been followed by authentic teachers of the non dual tradition ever since Most of his writings are in the form of commentaries on revealed texts such as the principle Upanishads the Bhagavad Gita and the Brahma Sutras so what he said was placed around those texts which are far from systematic His aim was to demonstrate that underlying the apparent contradictions and differences on the surface all the great revealed scriptures in fact point ultimately to one Supreme Truth He wished to do this in order to overcome the confusion that was causing hardship to the people at large and creating difficulties for dedicated seekers Shankara probably lived in the 8th century and died in his early

30s Shankara considered other views in great detail sometimes provisionally accepting elements of their arguments and then pointing out where those views lead to difficulties One of the great qualities of the non dual teachings as formulated by Shankara is that they are able to recognise and incorporate what is valid and useful in other views All this can make it difficult to find what Shankara said on particular subjects To meet this difficulty in the Source Book the writings have been freshly translated and brought together under subject headings These in turn have been arranged in six volumes each covering one broad topic These are Volume 1 Shankara on the Absolute Volume 2 Shankara on the Creation Volume 3 Shankara on the Soul Volume 4 Shankara on Rival Views Volume 5 Shankara on Discipleship Volume 6 Shankara on Enlightenment
