**The Young Adolescent and the Middle School** Steven B. Mertens, Vincent A. Anfara, Micki M. Caskey, 2007-04-01 Sponsored by the Middle Level Education Research SIG and the National Middle School Association The Young Adolescent and the Middle School focuses on issues related to the nature of young adolescence and the intersection of young adolescence with middle level schooling This volume of the Handbook of Research in Middle Level Education marks the sixth installment in the series The Handbook series begun in 2001 by Vince Anfara the series editor has addressed varying thematic issues important to middle level education research This volume The Young Adolescent and the

Middle School focuses on the unique developmental needs of young adolescents and the role of the middle school in attending to these needs. The contributing authors in this volume address one of three developmental areas critical to young adolescents: physical development, intellectual/cognitive development, or social and personal development, and how these developmental characteristics affect the educational environment and the organization of middle schools. **Voices from the Middle** Kathleen F. Malu, 2010-10-01. The need for continued research at the middle level is clear and urgent. The previous volumes in this Handbook series testify to this urgency. While quantitative studies continue to be essential, there is a critical need to understand the complexities of the middle level community. One way to capture the rich, diverse mosaic of the voices and experiences of middle level participants and stakeholders is to use narrative inquiry methodology. The intent of this volume in *The Handbook* is to give voice to and broaden our understanding of the wide variety of participants and stakeholders who weave through the middle level. Such participants and stakeholders may include middle level teachers, school psychologists and counselors, students, parents, administrators, middle level researchers, research foundations, and community groups. In addition to hearing directly from these groups, this volume will focus on the intricate webs, connections, and questions that these narratives hold and frame them within current middle level research theory and practice. Ultimately, this volume will highlight the nuance, diversity, and future directions that research may need to explore. *International Teacher Education* Lily Orland-Barak, Cheryl J. Craig, 2015-08-24. The book fills a gaping hole in the teacher education literature. Nowhere is there a volume that globally surveys teacher education pedagogies and invites international scholars to describe the most productive ones in their home countries.
