Handlyng Synne:

An Edition of Robert Mannyng of Brunne's Handlyng Synne (Osborn Ms.), 1983 A Middle English Anthology Ann Sullivan Haskell, 1985 A reissue of the popular 1969 volume this anthology includes a wide variety of selections from Middle English literature A reissue of the popular 1969 volume this anthology covers a wide range of Middle English literature Selections are numerous enough to allow professors great variation in the readings for individual courses The supplementary references include comparative media since literature forms only a part of the whole cultural context Ann Haskell has not altered the language into a common mold She has however supplied punctuation capitalization and accent marks when necessary to aid in comprehension by the inexperienced reader Robert of Brunne's "Handlyng Synne", A. D. 1303, Robert Mannyng, 1903 William Langland's Piers Plowman Kathleen M. Hewett-Smith, 2001 William Langland's chief work Piers Plowman is regarded as the greatest Middle English poem prior to Chaucer's Canterbury Tales Both a social satire and a vision of simple Christian life it has much to contribute to contemporary debates over such issues as gender dissent representation and popular religion and culture and it has recently enjoyed renewed critical attention This volume tackles some of the central questions within Piers Plowman studies Its essays ranging from source study to critical historicism and queer theory demonstrate the variety of critical tools presently brought to bear upon medieval texts but they also share a common interest in social context and meaning What all of the contributors insist upon is the need for a fundamental reconfiguring of our most basic understandings of Piers Plowman of its author and audience the order of its texts the power of its poetry its understanding of women of the poor of allegory of history itself and its relation to fourteenth century culture and ideology **The Cursed Carolers in Context** Lynne Miller Renberg, Bradley Phillis, 2021-03-22 The Cursed Carolers in Context explores the interplay between the forms and contexts in which the tale of the cursed carolers circulated and the meanings it had for medieval and early modern authors and audiences The story of the cursed carolers has circulated in Europe since the eleventh century In this story a group of people in a village in Saxony skip Christmas mass to perform a circle dance in the cemetery only to be cursed and forced to keep dancing for a whole year By approaching the story in specific historical contexts this book shows how the story of the cursed carolers became a space in which medieval readers writers and listeners could debate the meaning and significance of a surprising variety of questions including ecclesiastical authority gender roles pastoral responsibility and even the conduct of crusades This consideration of the interplay between text and context sheds new light on how and why the story of the dancers achieved such popularity in the Middle Ages and how its meanings developed and changed throughout the period This book will appeal to scholars and students of medieval European history literature and dance as well as those interested in cultural history Translators and Their Prologues in Medieval England Elizabeth Dearnley, 2016 An examination of French to English translation in medieval England through the genre of the prologue The prologue to Layamon's Brut recounts its author's extensive travels wide yond thas leode far and

wide across the land to gather the French Latin and English books he used as source material The first Middle English writer to discuss his methods of translating French into English Layamon voices ideas about the creation of a new English tradition by translation that proved very durable This book considers the practice of translation from French into English in medieval England and how the translators themselves viewed their task At its core is a corpus of French to English translations containing translator s prologues written between c 1189 and c 1450 this remarkable body of Middle English literary theory provides a useful map by which to chart the movement from a literary culture rooted in Anglo Norman at the end of the thirteenth century to what in the fifteenth is regarded as an established English tradition Considering earlier Romance and Germanic models of translation wider historical evidence about translation practice the acquisition of French the possible role of women translators and the manuscript tradition of prologues in addition to offering a broader pan European perspective through an examination of Middle Dutch prologues the book uses translators prologues as a lens through which to view a period of critical growth and development for English as a literary language Elizabeth Dearnley gained her PhD from the University of Cambridge Catalogue of Romances in the Department of Manuscripts in the British Museum British Museum. Department of Manuscripts, Henry Leigh Douglas Ward, John Alexander Herbert, 1883 Medicine and the Law in the Middle Ages ,2014-03-27 Medicine and the Law in the Middle Ages offers fresh insight into the intersection between these two distinct disciplines A dozen authors address this intersection within three themes medical matters in law and administration of law professionalization and regulation of medicine and medicine and law in hagiography The articles include subjects such as medical expertise at law on assault pregnancy rape homicide and mental health legal regulation of medicine roles physicians and surgeons played in the process of professionalization canon law regulations governing physical health and ecclesiastical leaders and connections between saints judgments and the bodies of the penitent Drawing on primary sources from England France Frisia Germany Ireland Italy Portugal and Spain the volume offers a truly international perspective Contributors are Sara M Butler Joanna Carraway Vitiello Jean Dangler Carmel Ferragud Fiona Harris Stoertz Maire Johnson Hiram K mper Iona McCleery Han Nijdam Kira Robison Donna Trembinski Wendy J Turner and Katherine D Watson Feeling Things Stephanie Downes, Sally Holloway, Sarah Randles, 2018-01-13 This interdisciplinary essay collection investigates the various interactions of people feelings and things throughout premodern Europe It focuses on the period before mass production when limited literacy often prioritised material methods of communication The subject of materiality has been of increasing significance in recent historical inquiry alongside growing emphasis on the relationships between objects emotions and affect in archaeological and sociological research The historical intersections between materiality and emotions however have remained under theorised particularly with respect to artefacts that have continuing resonance over extended periods of time or across cultural and geographical space Feeling Things addresses the need to develop an appropriate cross disciplinary theoretical framework for the analysis of objects and emotions in European history

with special attention to the need to track the shifting emotional valencies of objects from the past to the present and from one place and cultural context to another The collection draws together an international group of historians art historians curators and literary scholars working on a variety of cultural literary visual and material sources Objects considered include books letters prosthetics religious relics shoes stone and textiles Many of these have been preserved in international galleries museums and archives while others have remained in their original locations even as their contexts have changed over time The chapters consider the ways in which emotions such as despair fear grief hope love and wonder become inscribed in and ascribed to these items producing emotional objects of significance and agency Such objects can be harnessed to create affirm or express individual relationships as for example in religious devotion and practice or in the construction of cultural communal and national identities

Waste and the Wasters Eleanor Johnson, 2023-11-27 A groundbreaking examination of ecological thought in medieval England While the scale of today's crisis is unprecedented environmental catastrophe is nothing new Waste and the Wasters studies the late Middle Ages when a convergence of land contraction soil depletion climate change pollution and plague subsumed Western Europe In a culture lacking formal scientific methods the task of explaining and coming to grips with what was happening fell to medieval poets The poems they wrote used the terms waste or wasters to anchor trenchant critiques of people's unsustainable relationships with the world around them and with each other In this book Eleanor Johnson shows how poetry helped medieval people understand and navigate the ecosystemic crises both material and spiritual of their time

English Medieval Narrative in the Thirteenth and Fourteenth Centuries Piero Boitani, 1986-07-31 In this detailed study of English narrative verse the author describes and analyses the undisputed masterpieces of narrative such as the works of the Gawain poet Langland Gower and Chaucer as well as anonymous romances and specimens of religious and comic narrative which form the background to more well known poems

Mirror In Parchment Michael Camille, 2013-06-01 What is the status of visual evidence in history Can we actually see the past through images Where are the traces of previous lives deposited Michael Camille addresses these important questions in Mirror in Parchment a lively searching study of one medieval manuscript its patron producers and historical progeny The richly illuminated Luttrell Psalter was created for the English nobleman Sir Geoffrey Luttrell 1276 1345 Inexpensive mechanical illustration has since disseminated the book's images to a much wider audience hence the Psalter's representations of manorial life have come to profoundly shape our modern idea of what medieval English people high and low looked like at work and at play Alongside such supposedly truthful representations the Psalter presents myriad images of fantastic monsters and beasts These patently false images have largely been disparaged or ignored by modern historians and art historians alike for they challenge the credibility of those pictures in the Luttrell Psalter that we wish to see as real In the conviction that medieval images were not generally intended to reflect daily life but rather to shape a new reality Michael Camille analyzes the Psalter's famous pictures as representations of the world imagined and real of its original patron

Addressed are late medieval chivalric ideals physical sites of power and the boundaries of Sir Geoffrey's imagined community wherein agricultural laborers and fabulous monsters play a similar ideological role The Luttrell Psalter thus emerges as a complex social document of the world as its patron hoped and feared it might be *An Historical Syntax of the English Language* F.Th. Visser, 2023-05-08 Frederik Theodor Visser's *An Historical Syntax of the English Language* published in four massive volumes between 1963 and 1973 is certainly one of the cornerstones of research in English linguistics Visser's achievements can hardly be overestimated Before the advent of modern corpus linguistics he compiled a remarkable wealth of detailed philological data from all periods of English and combined this with current grammatical analyses of his time This has made this publication an indispensable resource for anyone investigating the history of English syntax This reproduction of Visser's volumes is more than welcome and timely as the volumes have been out of print for quite some time and were sometimes a little bit difficult to navigate Having a searchable and easy to use online version although maybe not perfect available now means a revival for scholarship that celebrates its fiftieth birthday without losing any of its relevance

Women, Dance and Parish Religion in England, 1300-1640 Lynneth Miller Renberg, 2022 A lively exploration of the medieval and early modern attitudes towards dance as the perception of dancers changed from saints dancing after Christ into cows dancing after the devil WINNER 2024 Sponsler Award for Best First Book Medieval and Renaissance Drama Society WINNER 2022 Guittard Book Award The devil's cows impudent camels or damsels animated by the devil late medieval and early modern authors used these descriptors and more to talk about dancers particularly women Yet dance was not always considered entirely sinful or connected primarily to women in some early medieval texts dancers were exhorted to dance to God arm in arm with their neighbors and parishes were filled with danced expressions of faith What led to the transformation of dancers from saints dancing after Christ into cows dancing after the devil Drawing on the evidence from medieval and early modern sermons and in particular the narratives of the cursed carolers and the dance of Salome this book explores these changing understandings of dance as they relate to religion gender sin and community within the English parish In parishes both before and during the English Reformations dance played an integral role in creating maintaining uniting or fracturing community But as theological understandings of sacrilege sin and proper worship changed the meanings of dance and gender shifted as well Redefining dance had tangible ramifications for the men and women of the parish as new definitions of what it meant to perform one's gender collided with discourses about holiness and transgression leading to closer scrutiny and monitoring of the bodies of the faithful

From the Conquest to Chaucer, 1893

Lordship and Literature Elliot Kendall, 2008-05-08 A ground breaking approach to the politics of late medieval texts Lordship and Literature investigates the importance of the great household to late fourteenth century English culture and society A sustained new reading of John Gower's major English poem Confessio Amantis shows how deeply the great household informed the way Gower and his contemporaries imagined their world Exploring royal government and gentry ambitions this thoroughly interdisciplinary book views the period's politics and literature in terms of

a household based economy of power The great household rode immense political shockwaves in the late fourteenth century when royal aggrandizement and economic crisis in the wake of the Black Death challenged dominant modes of aristocratic power Lordship and Literature examines responses to these challenges analysing texts including the Appeal of the Merciless Parliament imagination of lordly power by Chaucer Gower and Clanvowe and parliamentary controversy over livery and justice The economics of power described by thinkers such as Pierre Bourdieu and Marcel Mauss spans Ricardian political and literary culture informing elite politics and love allegory alike Competing models of household politics and their literary force are revealed here in wide ranging interpretations of exchange of women hospitality livery loyalty retribution in Gower's complex and influential poem Lordship and Literature locates Confessio Amantis firmly in its historical moment arguing that the poem belongs to a powerful yet embattled aristocratic politics
