chapters of Understanding Boccherini's Manuscripts discuss various aspects of the study of the manuscript sources for the music of Luigi Boccherini 1743-1805, one of the foremost composers of the second half of the eighteenth century. This book begins by outlining the various types that can be distinguished among the manuscripts written by the composer himself or by his copyists, such as manuscripts for archival purposes, for publishers, and for patrons. German Labrador continues with a discussion of the chronology of both Boccherini's works and their manuscript sources, and Loukia Drosopoulou describes the musical handwriting that we find in the manuscripts under discussion. Boccherini produced several catalogues of his works, of which some are lost while others have been preserved. Marco Mangani and Federica Rovelli review these documents. The second half of this book addresses more specific topics. Giulio Battelli pays attention to a recent addition to Boccherini's known oeuvre, the *Laudate pueri*, a very early work preserved in the library of the Istituto Musicale in Lucca. Rupert Ridgewell deals with the relations between Boccherini and the Viennese publishing house Artaria. Matanya Ophee considers the sources for Boccherini's Guitar Quintets, recently come available, and finally Jaime Tortella comments upon some letters to the nineteenth-century collector Julian Marshall, one of them by Alfredo Boccherini, a great grandson of the composer that shed light on the adventures of Boccherini's manuscripts in the nineteenth century. Furthermore, a common bibliography following all the chapters is supplied, as are extensive indexes. In addition to regular indexes of subjects and names, indexes covering letters, cited catalogues, manuscript sources, early editions, and Boccherini's works are also provided. As such, this book is an altogether indispensable tool for everybody with a scholarly interest in the life and work of Luigi Boccherini and a splendid model for similar work on other composers.
