Class, Servitude, and the Criminal Justice System in Early Victorian London Allyson N. May,2024-09-18 This volume draws on the recently discovered and extraordinarily rich scrapbook compiled by prosecuting solicitor Francis Hobler about the 1840 murder of Lord William Russell to consider public engagement with the issues raised from discovery of the murder itself through the ensuing legal processes The murder of Russell by his valet Francois Benjamin Courvoisier was a cause c l bre in its own day by virtue of the fact that the victim was a member of one of England s most prominent political families For criminal justice historians the significance of this case lies instead in its timing In 1840 England had neither an official detective force to investigate the murder nor a public prosecutor to undertake the prosecution Those accused of felony had only recently 1836 won the right to full legal representation and the conduct of Courvoisier s defence was controversial Reaction to Courvoisier s execution was also noteworthy testifying to a new public unease with capital punishment The subject of master and servant relations in early Victorian England is another key component of the book previous studies have not considered the murderer s motivation This book will be of interest to students and scholars of criminal justice and law Victorian England and microhistory

contributions from internationally acknowledged experts the book highlights themes current issues and key debates in the history of deviance and bad behaviour including Marital cruelty and adultery Infanticide Murder The underworld Blasphemy and moral crimes Fraud and white collar crime The death penalty and punishment Individual case studies of violent and non violent crime are used to explore the human means and motives behind criminal practice Through these the book illuminates society's wider attitudes and fears about criminal behaviour and the way in which these influence the law and legal system over time This fascinating book is essential reading for students and teachers of history sociology and criminology as well as anyone interested in Britain's criminal past **Alexander Fyfe and the Ring of Samsaran** Carter Blackfoot,2010-12-23

Sears,2015-11-16 In this landmark

essay collection twelve contributors chart the contours of current scholarship in the field of slavery studies highlighting three of the discipline's major themes commodification community and comparison and indicating paths for future inquiry New Directions in Slavery Studies addresses the various ways in which the institution of slavery reduced human beings to a form of property From the coastwise domestic slave trade in international context to the practice of slave mortgaging to the issuing of insurance policies on slaves several essays reveal how southern whites treated slaves as a form of capital to be transferred or protected An additional piece in this section contemplates the historian's role in translating the fraught history of slavery into film Other essays examine the idea of the slave community an increasingly embattled concept born of revisionist scholarship in the 1970s This section's contributors examine the process of community formation for black foreigners the crucial role of violence in the negotiation of slaves sense of community and the effect of the Civil War on slave society A final essay asks readers to reassess the long standing revisionist emphasis on slave agency and the ideological burdens it carries with it Essays in the final section discuss scholarship on comparative slavery contrasting American slavery with similar less restrictive practices in Brazil and North Africa One essay negotiates a complicated tripartite comparison of secession in the United States Brazil and Cuba while another uncovers subtle differences in slavery in separate regions of the American South demonstrating that comparative slavery studies need not be transnational New Directions in Slavery Studies provides new examinations of the lives and histories of enslaved people in the United States *Louise Erdrich's Justice*

Trilogy Connie A. Jacobs,Nancy J. Peterson,2021-10-01 Louise Erdrich is one of the most important prolific and widely read contemporary Indigenous writers Here leading scholars analyze the three critically acclaimed recent novels The Plague of

Doves 2008 *The Round House* 2012 and *LaRose* 2016 that make up what has become known as Erdrich's justice trilogy. Set in small towns and reservations of northern North Dakota, these three interwoven works bring together a vibrant cast of characters whose lives are shaped by history, identity, and community. Individually and collectively, the essays herein illuminate Erdrich's storytelling abilities, the complex relations among crime, punishment, and forgiveness that characterize her work, and the Anishinaabe contexts that underlie her presentation of character, conflict, and community. The volume also includes a reader's guide to each novel, a glossary, and an interview with Erdrich that will aid in readers' navigation of the justice novels. These timely, original, and compelling readings make a valuable contribution to Erdrich scholarship and subsequently to the study of Native literature and women's authorship as a whole.
