BOOK JACKET

Minding Evil Margaret Sönser Breen, 2005 *Minding Evil* Explorations of Human Iniquity brings together fifteen essays versions of which were presented at the Fifth International Conference on Evil and Wickedness held in Prague in 2004 The volume examines evil and wickedness from a variety of disciplines including criminology cultural studies gender studies law literature peace studies philosophy psychology and sociology In so doing *Minding Evil* keeps in play the doubled meaning of its title on the one hand to tend to evil that is to oversee cultivate and deploy it on the other hand to be bothered by evil and so in learning to identify or recognise it to try to understand its workings and thus contain or control it and perhaps repair or undo it While the essays taken together work to show the difficulty and at times the travesty of not being able to distinguish between the two meanings it is this second meaning that remains key What are the individual and collective responsibilities entailed in minding being troubled by evil This is the central question of this volume

The Jewish Self-Portrait in European and American Literature Hans-Jürgen Schrader, Elliott M. Simon, Charlotte Wardi, 2011-07-22 The articles in this collection originated from an international symposium at the University of Haifa and centre around a major topic in German European and American literature i.e. the way in which Jewish self definition both positive and negative has materialized as a product of the tensions between secular culture and society on the one hand and Jewish tradition and religion on the other The broad range of authors most of them of German speaking origin necessarily results in an almost equally broad range of answers to this central question The volume is dedicated to the memory of the Israeli literary scholar Chaim Shoham

Love and Death in Goethe Ellis Dye, 2004 Explores the central theme of Romantic poetry in the works of the most important German Romantic poet of all Goethe in association with his younger Romantic compatriots the Schlegels Novalis Fichte and Schelling struggled with the subject object dichotomy and tried to bridge the

gap between self and other consciousness and nature His theory and practice prefigured the Romantics determination to display and interrogate the linguistic and cultural structures informing their own thinking and modes of representation what Goethe calls one s *Vorstellungsart* His work exploits subverts and supplants inherited conventions and signs demonstrating with virtuosic irony that literature is a system of texts pre texts and pre established but dynamic conceptual models Love and Death in Goethe One and Double explores Goethe s use in a wide range of his poetry and prose of the theme of Liebestod love and death and related embodiments of the paradox of unity in duality Ellis Dye also examines Goethe s use of other themes related to love and death the femme fatale the vagina dentata Frau Welt the Lorelei venereal disease the Lustmord and considers issues of selfhood and individuation as well as the possibility that the love death theme contains an implicit gender bias toward the existential fact of personal separateness Poems plays and novels are dealt with nevertheless as works of art not only as illustrations of an idea or as points of intersection in a system of rhetorical conventions and are examined for intellectual cohesiveness elegance and integrity of design as well as special meanings and effects Love and Death in Goethe One and Double explores the meaning of the central theme of Romantic poetry in the works of the most important Romantic poet of all Students of literary culture both the lay reader and the Goethe specialist will be enlightened by its approach and find pleasure and instruction in its revelations Robert Ellis Dye is Professor of German at Macalester College

Thomas Bernhard: Language, History, Subjectivity ,2023-07-10 Thomas Bernhard one of the most significant post war European writers continues to fascinate The twenty essays in this bilingual volume offer new readings of the Austrian writer s works via three interconnected strands language history and subjectivity In Austria Bernhard was often viewed as an enfant terrible Yet after his death in 1989 he has increasingly undergone what novelist Alexander Schimmelbusch calls a Mozartisation Against this background the volume refocuses attention on Bernhard s works themselves underlining why these continue to be subversive and compelling The essays in this volume address Bernhard s creative linguistic interventions his theatrical verve his literary persona and his response to the traumatic historical legacy which continues to shape Austrian subjectivities long after 1945 Thomas Bernhard einer der bedeutendsten europ ischen Nachkriegsautoren wurde in sterreich oft als enfant terrible wahrgenommen Nach seinem Tod in 1989 kam es jedoch immer mehr zu einem Prozess der Mozartisierung Alexander Schimmelbusch dem Versuch Bernhard in das offizielle sterreichische Selbstbild

einzureihen Vor diesem Hintergrund lenkt dieser Band die Aufmerksamkeit wieder auf Bernhards Werke selbst und unterstreicht warum diese nach wie vor subversiv spannend und nicht zuletzt irritierend sind Unter den miteinander verbundenen Themenschwerpunkten Sprache Geschichte und Subjektivität befassen sich die Beiträge mit Bernhards kreativen sprachlichen Interventionen seiner theatralischen Präsenz seiner literarischen Persona und seiner Reaktion auf das traumatische historische Erbe das die österreichischen Subjektivitäten noch lange nach 1945 prägt Auch aber keineswegs nur deshalb hat Bernhard nichts von seiner Faszination eingebüßt
