

DENR Administrative Order  
No. 2017 - 15

MAY 02 2017

**SUBJECT: GUIDELINES ON PUBLIC PARTICIPATION UNDER THE  
PHILIPPINE ENVIRONMENTAL IMPACT STATEMENT  
(EIS) SYSTEM**

Consistent with the State Policies and Principles of the Philippine Constitution on the right of the people to a balanced and healthful ecology and on encouraging non-governmental, community-based, or sectoral organizations that promote the welfare of the nation, the provisions of PD 1151 and PD 1586 on the implementation of the Philippine EIS System and the 1992 Declaration of United Nations Conference on Environment and Development (UNCED) emphasizing that environmental issues are best handled with the participation of all concerned citizens as well as with the thrust of the Department of Environment and Natural Resources (DENR) to promote social justice, the following guidelines on Public Participation are hereby promulgated.

**ARTICLE I  
BASIC POLICY AND PRINCIPLES, OBJECTIVES, SCOPE AND  
DEFINITION OF TERMS**

**Section 1. Basic Policy and Principles**

It is hereby declared a policy that amidst the country's economic development initiatives, common good shall be promoted through public participation in the implementation of the Philippine EIS System. It shall employ the following basic principles.

- Public Participation should be initiated early and sustained at the various stages of the EIA Process.
- Public Participation should be well planned and should involve the stakeholders in the assessment, management and monitoring of environmental impacts
- Timely public disclosure of all necessary relevant information especially to the stakeholders who shall be made to understand and appreciate the specific purpose and context of their participation for each stage of the process.

**Section 2. Objectives and Outcome**

The objective of this Administrative Order is to improve and rationalize Public Participation under the Philippine EIS System by incorporating best practice principles and standardizing the procedures and requirements.

The intended outcome of this order is to achieve meaningful public participation under the Philippine EIS System at the various stages of the EIA Process through:

- An adequate, timely and effective information disclosure and feedback mechanism for:
  - The gathering of all relevant baseline data / information, issues and concerns that should be included in the EIA study
  - The review of the contents of the EIS

## Eis Practical Requirements:

**Indian Environmental Impact Assessment Practice** Arjun Kumar A. Rathi, 2024-09-17 The efficacy of the EIA lies in meticulously applying the theory and concepts of the EIA in framing environmental policies and regulations conducting and reviewing the EIA studies and EIA follow up This book critically examines the different components of the Indian EIA practice and highlights the learnings Given that the case study method is well recognized for learning and is accepted in top ranking institutions the book will immensely benefit academics in environmental science environmental engineering environmental planning environmental management business management project management economics and public administration at graduate and research levels It should provoke researchers to pursue empirical studies and to devise innovative methodologies to evaluate different elements of the EIA practice to help ensure EIA objectivity The book will also be handy to environment ministries EIA professionals project proponents and multilateral institutions such as the UNEP World Bank ADB AfDB ODA and ENGOs

*The Practice of Strategic Environmental Assessment* Riki Therivel, Maria Rosario Paridario, 2013-10-11 The practical application of strategic environmental assessment SEA is becoming increasingly common A growing number of SEAs are being undertaken around the world and several countries have issued guidance on how these should be carried out However few countries as yet have formal SEA regulations and few completed SEAs have demonstrated all the elements of current best practice The Practice of Strategic Environmental Assessment aims to provide a unique analysis of SEAs which have been undertaken drawing on a variety of methods and circumstances to illustrate how best practice can be achieved and providing inspiration for those considering studying commission or carrying out an SEA Part I sets the rest of the book in context giving a review of international SEA guidance and regulations and discussing models and methodologies Part II then analyses a comprehensive set of case studies from countries which have extensive experience in SEA or which provide particularly good examples The case studies are discussed in three sections sectoral SEAs SEAs of land use plans and SEAs of policies and provide examples of different scales and approaches as well as country specific experience The final chapter draws out some constraints to effective SEA as well as positive themes which show how effective SEA can contribute to wider environmental assessment Written by an international team of SEA practitioners and experts this volume will be of particular use to students of environmental policy and management environmental consultants local authorities policy makers and anyone involved in the commissioning process or review of SEAs

**Theory and Practice of Transboundary Environmental Impact Assessment** Kees Bastmeijer, Timo Koivurova, 2008 Environmental Impact Assessment EIA is a well established instrument of Environmental Law and policy that aims to ensure that potential adverse environmental effects of human activities are assessed before decisions on such activities are made The instrument is increasingly being applied in respect of activities that may cause environmental effects across the borders of a state In this

book thirteen systems of Transboundary Environmental Impact Assessment TEIA are assessed that exist or are in development in different parts of the world Although TEIA is generally associated with EIA between territorial states this book takes a broader approach and is divided into three sub parts Transboundary EIA between states EIA for activities in international and shared areas and EIA required by international financial institutions Knowledgeable experts scholars and practitioners provide an overview of the history content and practice of the individual systems and based on these discussions the state of the art concerning TEIA and possible future developments are discussed Handbook of Environmental Impact Assessment, Volume 2 Judith Petts, 2009-04-01 Environmental Impact Assessment EIA is a significant anticipatory environmental management tool International debate focuses on its enhancement to meet the challenges of sustainable development as well as demands for scientifically robust integrated and participative decision making This handbook hopes to improve practices by contributing an international multidisciplinary ready reference source to this debate Volume I addresses EIA principles process and methods Part 1 maps the EIA process and its impact on decision It positions EIA in the context of sustainable development and relative to other decision tools including economic valuation It also positions strategic environmental assessment SEA in a similar way Part 2 addresses the elements of the EIA process and significant impact assessment topics air water ecological social risk landscape and visual not only in terms of good practice but also methodological evolution This volume concludes by addressing cumulative impact assessment and SEA methods Volume II provides a unique consideration for EIA implementation and practice in Europe Africa the Far East South America and North America It uses a number of project types to provide how to do guidance and addresses practice in policy and plan assessment This book should be read by legislators decision makers economists developers industrial managers and consultants involved in this significant field **Environmental Policy Analysis and Practice** Michael R Greenberg, 2008-03-13 Pressing environmental challenges are frequently surrounded with stakeholders on all sides of the issues Opinions expressed by government agencies the private sector special interests nonprofit communities and the media among others can quickly cloud the dialogue leaving one to wonder how policy decisions actually come about In **Environmental Policy Analysis and Practice** Michael R Greenberg cuts through the complicated layers of bureaucracy science and the public interest to show how all policy considerations can be broken down according to six specific factors 1 the reaction of elected government officials 2 the reactions of the public and special interests 3 knowledge developed by scientists and engineers 4 economics 5 ethical imperatives and 6 time pressure to make a decision The book is organized into two parts with the first part defining and illustrating each one of these criteria Greenberg draws on examples such as nuclear power pesticides brownfield redevelopment gasoline additives and environmental cancer but focuses on how these subjects can be analyzed rather than exclusively on the issues themselves Part two goes on to describe a set of over twenty tools that are used widely in policy analysis including risk assessment environmental impact analysis public opinion surveys cost

benefit analysis and others These tools are described and then illustrated with examples from part one Weaving together an impressive combination of practical advice and engaging first person accounts from government officials administrators and leaders in the fields of public health and medicine this clearly written volume is poised to become a leading text in environmental policy *Environmental Management in Practice: Vol 1* Paul Compton,Dimitri Devuyst,Luc Hens,Bhaskar Nath,2013-01-11 Focuses on the instruments and tools currently available to the environmental manager A theoretical background to the instruments is given together with an overview of those instruments that are in common use today with particular attention to the physical economic legislative and communication instruments *The Professional Practice of Environmental Management* Robert S. Dorney,2012-12-06 This series is dedicated to serving the growing community of scholars and practitioners concerned with the principles and applications of environmental management Each volume is a thorough treatment of a specific topic of importance for proper management practices A fundamental objective of these books is to help the reader discern and implement man's stewardship of our environment and the world's renewable resources For we must strive to understand the relationship between man and nature act to bring harmony to it and nurture an environment that is both stable and productive These objectives have often eluded us because the pursuit of other individual and societal goals has diverted us from a course of living in balance with the environment At times therefore the environmental manager may have to exert restrictive control which is usually best applied to man not nature Attempts to alter or harness nature have often failed or backfired as exemplified by the results of imprudent use of herbicides fertilizers water and other agents Each book in this series will shed light on the fundamental and applied aspects of environmental management It is hoped that each will help solve a practical and serious environmental problem **Environmental Practice in Program Management Offices** George Noble,1995 *Environmental Impact Assessment* Mr. Rohit Manglik,2024-07-09 EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels

**Planning and Environmental Impact Assessment in Practice** Joe Weston,2014-06-11 Environmental Impact Assessment EIA is a fast growing field of land use planning affecting many disciplines At present UK Government legislation requires EIA for certain types of development Subject to a further new European directive an EIA will be required for all policies plans and programmes Planning and Environmental Impact Assessment in Practice provides a practical introduction to the subject and relates the theory to the practice through extensive use of case studies Edited by Joe Weston the book draws on contributions from a number of practising experts in the field and covers topics such as assessing the need for EIAs the environmental team scoping and public participation internal and external consultation local lobbying local authority review and decision making public enquiries monitoring the impacts pollution control and the lessons to be learned Planning
