*Connecting Lines* Luis Cortés Bargalló, 2006 Since the Treaty of Guadalupe Hidalgo in 1848 the United States and Mexico have been inextricably linked The blending of the American and Mexican cultures has enriched both nations Through a partnership to promote wider access to literary voices of Mexican artists in the U S and American writers in Mexico the National Endowment for the Arts the United States Embassy in Mexico and the National Autonomous

University of Mexico have joined together to support a program of anthology publications and public outreach activities The two volume set *Lineas conectadas nueva poesia de los Estados Unidos* and *Connecting Lines New Poetry from Mexico* is the first installment in the series With definitive translations by leading writers and scholars these dual volumes offer a glimpse into the beauty of the Mexican and the American experience through the microscopic lens of poetry Whether read for personal pleasure or classroom study *Lineas conectadas* and *Connecting Lines* are a must read for anyone curious of our ever increasing multicultural identity Publisher's website *Mas Liviano Que El Aire* Nelson Montes-Bradley, 2007-01-01 **Las Damas del Fin del Mundo** Angeles de Irisarri, 2001-01-20 **The Mexican Filmography, 1916 through 2001** David E. Wilt, 2024-10-17 Mexican cinema has largely been overlooked by international film scholars because of a lack of English language information and the fact that Spanish language information was difficult to find and often out of date This comprehensive filmography helps fill the need Arranged by year of release and then by title the filmography contains entries that include basic information film and translated title production company genre director cast a plot summary and additional information about the film Inclusion criteria a film must be a Mexican production or co production feature length one hour or more silent films excepted fictional documentaries and compilation films are not included unless the topic relates to Mexican cinema some docudramas and films with recreated or staged scenes are included and theatrically released or intended for theatrical release Federal Register, 1998-04-17 **Tropical Gothic in Literature and Culture** Justin D. Edwards, Sandra G.T. Vasconcelos, 2016-01-13 *Tropical Gothic* examines Gothic within a specific geographical area of the South of the Americas In so doing we structure the book around geographical coordinates from North to South and move between various national traditions of the gothic Mexico Argentina Brazil etc alongside regional manifestations of the Gothic the US south and the Caribbean as well as transnational movements of the Gothic within the Americas The reflections on national traditions of the Gothic in this volume add to the critical body of literature on specific languages or particular nations such as Scottish Gothic American Gothic Canadian Gothic German Gothic Kiwi Gothic etc This is significant because while the Southern Gothic in the US has been thoroughly explored there is a gap in the critical literature about the Gothic in the larger context of region of the South in the Americas This volume does not pretend to be a comprehensive examination of tropical Gothic in the Americas rather it pinpoints a variety of locations where this form of the Gothic emerges In so doing the transnational interventions of the Gothic in this book read the flows of Gothic forms across borders and geographical regions to tease out the complexities of Gothic cultural production within cultural and linguistic translations *Tropical Gothic* includes but is by no means limited to a reflection on a region where European colonial powers fought intensively against indigenous populations and against each other for control of land and resources In other cases the vast populations of African slaves were transported endowing these regions with a cultural inheritance that all the nations involved are still trying to comprehend The volume reflects on how these histories influence the Gothic in this region *Lonely Planet Ecuador & the*

**Literature and the Work of Universality** Alice Duhan, Stefan Helgesson, Christina Kullberg, Paul Tenngart, 2024-07-22 In an age of accelerating ecological crises global inequalities and democratic fragility it has become crucial to achieve renewed articulations of human commonality With anchorage in critical theory as well as world literary studies this volume approaches literature and modes of literary thinking as a key resource for such a task Universality is understood here not as an established universalism but as a horizon towards which intellectual inquiry and literary practices orient themselves In the field of world literature there is by now a wide repertoire of epistemological resources through which claims to universality can be both questioned and reconfigured If at one end of the spectrum world literature confronts us with the spectre of homogenisation and the commodification of difference under a regime of global capitalism at another end renewed forms of philological anthropological and ecological attentiveness to the particulars of languages and texts within the crucible of connected histories allow for defamiliarising perspectives both on received historical narratives and aesthetic practices Vernacularity emerges here as a central point of reference for constructing the universal from within the particular the idiomatic and the experiences of social subordination or complicity

**HORACIO SALGÁN - TANGO COURSE** Horacio Salgán, 2020-06-10 Writing this Tango Course is both an obligation and a great pleasure for me It is an obligation because I would like to contribute something of all the things that I owe in return as an appreciation of having been fortunate enough to educate myself in the Orchestras where I learned to play Tango The Orchestras were a crucible where the ideas of its members and or other creative musicians experimented played and came together to create playing styles rhythmic forms etc These contributions were what took the Tango little by little to such a high musical level Nowadays it is not at all easy to belong to an Orchestra considering the fact that so few can subsist This makes it more difficult for those who want to have careers in Tango music to acquire the vast knowledge necessary for playing and interpreting it Let us not forget that the Orchestras have always been the best schools for such an apprenticeship It is also a great pleasure to be able to transmit and share that what I have learned trying always not to leave anything out that is my real intention by relying on my memory which fortunately still helps me I never intended for my conclusions to be taken as the absolute truth nor wanted to win something

over anyone in anything This course just shows my position and the ideas with which I have always worked We will deal here with the Tango in versions which in my understanding are genuine manifestations of itself I love the Tango because I love good music and I got into it to learn to play it not to change it If my versions and arrangements have something different about them it is only because this is my language and I have expressed myself through it I will also talk about the incorporation of new contributions and changes as long as they are authentic within the genre The many streams of opinion may or may not coincide with what will be said in this course Considering the broadness of the theme and the flexibility which should govern artistic creation other concepts may prove constructive as well I sincerely hope that this course will be useful to someone Horacio Salg n      *Imagining Ecuador* Luis A. Medina Cordova, 2022 How are contemporary authors reimagining the idea of Ecuador following the worst financial crisis in the nation s history and how do countries on the periphery of the global literary market challenge and enrich World Literature Winner of the 2020 21 AHGBI Spanish Embassy Publication Prize In March 1999 in an effort to stave off financial collapse the Ecuadorian government suspended all banking operations and froze all bank accounts in the country for a period of five days This episode the Feriado Bancario represents the peak of the worst financial crisis in the nation s history and one which had far reaching and long last effects on society politics the economy and cultural production The very idea of Ecuador was transformed as Ecuador became a country marked by constant interaction with the world beyond its borders This book explores how contemporary Ecuadorian authors are reimagining the nation following the Feriado Bancario Starting from a rereading of Ecuador s national novel Jorge Icaza s *Huasipungo* 1930 which saw the nation as rooted in the land the book examines post crisis fiction which offers an image of Ecuador as a transnational space It posits that these novels Eli cer C rdenas *El oscuro final del Porvenir* 2000 Leonardo Valencia s *Kazbek* 2008 Carlos Arcos *Memorias de Andr s Chiliquinga* 2013 and Gabriela Alem n s *Humo* 2017 both reflect and explain the new reality of Ecuador as a nation that can no longer be defined by its territory At the same time the book uses the Ecuadorian case to challenge the conceptualisation of Latin American literature as post national and to show how countries on the periphery of the global literary market can from the very fact of their minoritarian position enrich and better define World Literature      Autobiographical Writings on Mexico Richard D. Woods, 2024-10-14 This is the definitive bibliography of autobiographical writings on Mexico The book incorporates works by Mexicans and foreigners with authors ranging from disinherited peasants women servants and revolutionaries to more famous painters writers singers journalists and politicians Primary sources of historic and artistic value the writings listed provide multiple perspectives on Mexico s past and give clues to a national Mexican identity This work presents 1 850 entries including autobiographies memoirs collections of letters diaries oral autobiographies interviews and autobiographical novels and essays Over 1 500 entries list works from native born Mexicans written between 1691 and 2003 Entries include basic bibliographical data genre author s life dates narrative dates available translations into English and annotation The bibliography is indexed by author title and
