Canton, Jane Dominey, 2017-12-14 This book provides a comprehensive and accessible introduction to probation. It brings together themes of policy theory and practice to help students and practitioners better understand the work of probation, its limitations, its potential, but above all its value. Setting probation in the context of the criminal justice system, the book explores its history, purposes, and contemporary significance. It explains what probation is and the practical realities of working with offenders in the community. The book also covers the governance of probation and how policy and practice are responding to contemporary concerns about crime and community safety. This book encourages readers to appreciate the practical and theoretical strengths and shortcomings of contemporary probation practice. This revised and updated new edition includes a full description and discussion of recent reforms in the probation service and the Transforming Rehabilitation policy agenda. It also offers further discussion of international perspectives on probation, including international developments and collaborative efforts between countries. This book is essential reading for trainee probation officers and students taking courses on probation, offender management, treatment, and rehabilitation, working with offenders, and community justice. **Rules and Procedures Manual, July 24, 1989** United States Parole Commission, 1989

Essentials of Community Corrections Robert D. Hanser, 2018-01-03 Essentials of Community Corrections offers students a concise and practical perspective on community corrections while emphasizing successful offender reentry through strong community partnerships. Author Robert D. Hanser draws on his expertise with offender treatment, planning, special needs populations, and the comparative criminal justice fields to present a complete introduction to community corrections today. A variety of practical pedagogical tools offer students insights into the daily lives of those working in the field, encouraging students to start thinking like practitioners. Key Features: What Would You Do assignments give students the chance to apply what they have learned by analyzing real-world scenarios to determine the best course of action for common challenges in community supervision. Applied Theory inserts throughout the book provide a focused application of a specific theory to particular issues in community corrections. Cross-National Perspective boxes demonstrate common themes in community corrections around the world, as well as different approaches used in other countries. Applied Exercises encourage students to reflect on their understanding of each chapter's content and to demonstrate their competence in using the information, techniques, and processes that they have learned. Food for Thought features at the end of each chapter guide students through a recent research study related to community corrections and include follow-up questions to help students think critically. Sharing Your Opinion questions at the end of each chapter empower students to express their own views on the issues covered in the text. The free open access Student Study site features carefully selected video links, access to SAGE journal articles, and more.
