Handke Ansaetze Analysen Anmerkungen:

Peter Handke Rolf G. Renner, 2023-03-13 The volume presents Handke's works from Hornissen 1966 to Das zweite Schwert 2020 in individual analyses and at the same time opens up overarching orientations of Handke's writing The autoreflexive traces that characterise the author's experimental early work are perpetuated in a middle phase by a return to traditional forms of epic narrative and literary models that is philosophically influenced In the late work these approaches give rise to a comprehensive poeology of narrative that links all the texts together In the process previously developed motifs are condensed into overarching thematic complexes Alongside the reality of war the relationship between image and writing text and film social and media developments of modernity come to the fore The reference of Handke's texts to images of the painterly tradition and visual strategies of his writing are given special weight This book is a translation of the original German 1st edition Peter Handke by Rolf G Renner published by Springer Verlag GmbH Germany part of Springer Nature in 2020 The translation was done with the help of artificial intelligence machine translation by the service DeepL.com A subsequent human revision was done primarily in terms of content so that the book will read stylistically differently from a conventional translation Springer Nature works continuously to further the development of tools for the production of books and on the related technologies to support the authors

The Dramatic Works of Samuel Beckett Charles A. Carpenter, 2011-10-13 A selectively comprehensive bibliography of the vast literature about Samuel Beckett's dramatic works arranged for the efficient and convenient use of scholars on all levels *The Existential Coordinates of the Human Condition: Poetic — Epic — Tragic* Anna-Teresa Tymieniecka, 2013-06-29

Exploring Postmodernism Matei Calinescu, Douwe W. Fokkema, 1988-01-01 The great diversity of contexts in which the term Postmodernism is currently encountered reflects the remarkable success of a coinage that has been in circulation for only about forty years It has been used by philosophers sociologists art critics and literary historians to become finally a household word in the language of advertising and politics Before letting it fade to a derelict cliché an attempt is made in this volume of essays to use its potential as a cultural concept for the analysis and understanding of contemporary literature and thought

The Works of Peter Handke David N. Coury, Frank Pilipp, 2005 Since his now famous appearance on the literary stage in 1968 novelist playwright and poet Peter Handke has remained on the forefront of the literary vanguard having earned the praise and recognition of critics in Europe and North America alike In fact in a review essay of September 2000 The New York Review of Books called him the premier prose stylist in the German language and one of post war Europe's most recognisable literary

figures Since the publication of his early theatrical works Handke has gone on to publish over twenty five prose novels as well as additional works for the theatre collections of poetry diaries and essays His works have ranged in style from the French influenced nouveau roman of the late 1960s to works characteristic of the New Subjectivity movement in West Germany in the 1970s while his novels and stories of the 1980s and 1990s exhibited a new found appreciation for narrative and issues of storytelling He has also published a series of polemical essays on the war in Yugoslavia which have been criticised severely by scholars and intellectuals has written as well as on the thematic aspects of his work

Framed Visions Gerd Gemunden, 2025-10-01 Framed Visions analyzes the pivotal role American mass media and popular culture have played in shaping the political social and psychological identity of postwar Germans and Austrians Through detailed readings of films novels plays and poems of a variety of contemporary artists including Rainer Werner Fassbinder Wim Wenders Elfriede Jelinek Herbert Achternbusch Monika Treut Peter Handke and Rolf Dieter Brinkmann Gerd Gemunden reveals the paradoxical stance of this generation toward American politics and Hollywood aesthetics On the one hand they are pulled toward a culture that has shaped childhood images tastes and desires on the other they reject American politics and the colonizing effect of its mass culture In contrast to most scholarship about the reception of U S culture abroad this study underscores the imaginary relation of contemporary German and Austrian artists to America Topics such as Americanization and cultural imperialism are therefore treated not as a foreign principle imposed from the outside but as ways that German and Austrian artists have tried to come to terms with their own problematic culture and history Gemunden's study elucidates how the culture of the United States has been mapped in contradictory ways onto questions of national and cultural identity in Germany and Austria over the last thirty years Gerd Gemunden is Assistant Professor of German and Comparative Literature Dartmouth College

Framed Visions Gerd Gemunden, 1998 Emphasizes the fluid relationship between literature cinema and social life

New Subjectivity and Prose Forms of Alienation Linda DeMeritt Lindsay, 1982

New Subjectivity and Prose Forms of Alienation Linda C. DeMeritt, 1987 German literature of the 1970 s has earned the label New Subjectivity due to a shift in emphasis from political persuasion to an interest in the subject and a more personal engagement This book presents concepts of New Subjectivity and a discussion of its relevance concentrating on the experience of alienation as its thematic and formal departure point The investigation centers on the prose of prominent new subjective authors and details in particular the transition from fear to happiness in Peter Handke's works and the theme of love in Botho Strauss's prose

Art as Spectacle Naomi Ritter, 1989 Why do images of entertainers abound in European
literature and art since Romanticism From Baudelaire to Picasso from Daumier to Fellini mimes clowns aerialists and jesters
recur in major works by continental artists In *Art as Spectacle* Naomi Ritter investigates this phenomenon and offers
explanations that transcend the array of works discussed Her analysis implies much about the triangle of creator work and
audience that inevitably controls art Although a broadly comparative study underlies *Art as Spectacle* the book focuses
mainly on examples from Germany and France Three areas of argument identification primitivism and transcendence account
for the performer's ubiquity in the arts of the last two centuries Ritter shows that writers painters choreographers and
filmmakers have persistently identified with the entertainer whose roots lie in primitive ritual a source of all art Accordingly
the artist also sees the player as morally or spiritually elevated With three chapters on literature a chapter comparing poetry
to painting and a chapter each on dance the visual arts and film *Art as Spectacle* offers unprecedented scope on a compelling
topic in comparative studies By integrating such varied material into an original commentary on the image of the

entertainers this book provides an invaluable resource for all the disciplines it touches
